Patrice Elizabeth Olsen

Gringolandia Mexican Identity And Perceptions Of The United States:

Gringolandia Stephen D. Morris, 2005 Mexico's views of the United States have been characterized as stridently anti American but recent policy changes in Mexico culminating with the North American Free Trade Agreement NAFTA mark a fundamental transformation in the relationship This thoughtful and original work answers questions about the impact of these policy shifts on Mexican nationalism and perceptions of the United States Have popular and elite views changed Has the government's anti American rhetoric become anachronistic What has been the effect on Mexican national identity As the only developing country to have entered into a free trade agreement with a developed country Mexico offers a unique and invaluable case study of the impact of globalization on a nation and its national identity Exploring Mexico's experience also allows us to consider how other countries perceive the United States especially in the post 9 11 climate Analyzing the diversity of Mexican views of the United States *Gringolandia* contributes a rich and nuanced dimension to our understanding of contemporary Mexico and Mexicans feelings about the vital cross border relationship

Plutarco Elías Calles and the Mexican Revolution Jürgen Buchenau, 2023-06-14 This biography of the Mexican revolutionary examines his rise from soldier to president to his continued influence as Jefe Máximo Hailing from the border state of Sonora Plutarco Elías Calles found his calling in the early years of the revolution quickly rising to national prominence As president from 1924 to 1928 Calles undertook an ambitious reform program modernized the financial system and defended national sovereignty against an interventionist U S government Yet these reforms failed to eradicate underdevelopment corruption and social injustice Moreover his unyielding campaigns against political enemies and the Catholic Church earned him a reputation as a repressive strongman After his term as president Calles continued to exert broad influence as his country's foremost political figure while three weaker presidents succeeded each other in an atmosphere of constant political crisis He played a significant role in founding a ruling party that reined in power hungry military leaders and helped workers attain better living conditions This dynastic party and its successors including the present day Partido Revolucionario Institucional Party of the Institutional Revolution remained in power until 2000 Through this comprehensive assessment of a quintessential Mexican politician Buchenau opens an illuminating window into both the Mexican Revolution and contemporary Mexico

State Terrorism in Latin America Thomas C. Wright, 2007 Set in the larger context of the evolution of international human rights this cogent book examines the tragic development and ultimate resolution of Latin America's human rights crisis of the 1970s and 1980s Thomas Wright focuses especially on state terrorism in Chile under General Augusto Pinochet 1973 1990 and in Argentina during the Dirty War 1976 1983 The author probes the background of these regimes the methodology of state terrorism and the human rights movements that emerged in urgent response to the brutality of institutionalized torture murder and disappearance He also discusses the legacies of state terrorism in the post dictatorial period particularly the bitter battle between demands for justice and the military's claim of impunity Central to this struggle

was the politics of memory as two radically different versions of the countries recent history clashed had the militaries conducted legitimate wars against subversion or had they exercised terrorism based on a misguided concept of national security The book offers a nuanced exploration of the reciprocal relationship between state terrorism and its legacies on one hand and international human rights on the other When the Chilean and Argentine militaries seized power the international human rights lobby was too weak to prevent the massive toll of state terrorism But the powerful worldwide response to these regimes ultimately strengthened international human rights treaties institutions and jurisprudence paving the way for the Rwanda and Yugoslavia genocide tribunals and the International Criminal Court Indeed Chile and Argentina today routinely try and convict former repressors in their own courts This compelling history demonstrates that the experiences of Chile and Argentina contributed to strengthening the international human rights movement which in turn gave it the influence to affect the outcome in these two South American countries Ironically the brutal regimes of Chile and Argentina played the major role in transforming a largely dormant international lobby into a powerful force that today is capable of bringing major repressors from anywhere in the world to justice These intertwined themes make this book important reading not only for Latin Americanists but for students of human rights and of international relations as well

Why Walls Won't Work Michael Dear, 2013-01-16 *Why Walls Won't Work* is a sweeping account of life along the United States Mexico border zone tracing the border's history of cultural interaction since the earliest Mesoamerican times to the present day As soon as Mexicans American settlers and indigenous peoples came into contact along the Rio Grande in the mid nineteenth century new forms of interaction and affiliation evolved By the late twentieth century the border states were among the fastest growing regions in both countries But as Michael Dear warns this vibrant zone of economic cultural and social connectivity is today threatened by highly restrictive American immigration and security policies as well as violence along the border

[Mexico Reading the United States](#) Linda Egan, Mary K. Long, 2009-07-17 A provocative and uncommon reversal of perspective Elena Poniatowska

Jenkins of Mexico Andrew Paxman, 2017 William O Jenkins rose from humble origins in Tennessee to build a business empire in Mexico a country energized by industrialization and revolutionary change In *Jenkins of Mexico* Andrew Paxman presents the first biography of this larger than life personality

[Problems in Modern Mexican History](#) William H. Beezley, Monica A. Rankin, 2017-04-20 Mexicans since national independence have defined their challenges as problems or dimensions in their lives They have faced these issues alone or with others through politics security the military police or even public health squads religion family and popular groups This unique reader collects documents texts visuals videos and sounds from organizational reports popular expressions and ephemeral creations to express these concerns reveal responses

and measure successes They allow readers to consider and discuss how these documents enabled Mexicans to evaluate their history and culture from 1810 to the present Offering a wide variety of materials that can be tailored to the needs of individual instructors these rich sources will stimulate critical thinking and give students new insights and often surprising respect and understanding for the ways Mexicans have managed to find humor even magic in their lives *Modern Mexico* James D. Huck Jr.,2017-12-01 This single volume reference resource offers students scholars and general readers alike an in depth background on Mexico from the complexity of its pre Columbian civilizations to its social and political development in the context of Western civilization How did modern Mexico become a nation of multicultural diversity and rich indigenous traditions What key roles do Mexico s non Western pre Columbian indigenous heritage and subsequent development as a major center in the Spanish colonial empire play the country s identity today How is Mexico today both Western and non Western part Native American and part European simultaneously traditional and modern Modern Mexico is a thematic encyclopedia that broadly covers the nation s history both ancient and modern its government politics and economics as well as its culture religion traditions philosophy arts and social structures Additional topics include industry labor social classes and ethnicity women education language food leisure and sport and popular culture Sidebars images and a Day in the Life feature round out the coverage in this accessible engaging volume Readers will come to understand how Mexico and the Mexican people today are the result of the processes of transculturation globalization and civilizational contact **Latin America since Independence** Thomas C. Wright,2017-02-24 This innovative text offers a clear and concise introduction to Latin America since independence Thomas C Wright traces continuity and change in five colonial legacies showing how crucial they have been in shaping contemporary political systems economies societies and religious institutions in a richly diverse region *Iconic Mexico* Eric Zolov,2015-08-26 Going far beyond basic historical information this two volume work examines the deep roots of Mexican culture and their meaning to modern Mexico In this book readers will find rich in depth treatments by renowned as well as up and coming scholars on the most iconic people places social movements and cultural manifestations including food dress film and music that have given shape and meaning to modern Mexico and its people Presenting authoritative information written by scholars in a format that is easily accessible to general audiences this book serves as a useful and thorough reference tool for all readers This work combines extensive historical treatment accompanied by illuminating and fresh analysis that will appeal to readers of all levels from those just exploring the concept of Mexico to those already familiar with Mexico and Latin America Each entry functions as a portal into Mexican history culture and politics while also showing how cultural phenomena have transformed over the years and continue to resonate into today **Vagrants and Citizens** Richard A. Warren,2007-01-30 This acclaimed book explores popular politics during Mexico s tumultuous post independence decades Focusing on Mexico City during the chaotic early years of the nineteenth century Richard A Warren offers a compelling narrative of the defining period from King Ferdinand VII s abdication of the

Spanish crown in 1808 to the end of Mexico's first federal republic in 1836. Clearly written and meticulously researched, this book is the first to demonstrate that the relationship between elites and the urban masses was central to Mexico's political evolution during the fight for independence and after. Mexico City, capital of both the old viceroyalty and the new nation, often witnessed the first wave of public opinion to respond to competing political proposals in both traditional and new forms that ranged from riots to electoral campaigns. Warren explains the direct effects of these actions on political outcomes as well as their influence on elite perceptions of the new nation's problems and potential solutions. *Vagrants and Citizens* explores the impact of urban mass mobilization on crucial issues of the era, such as the evolution of electoral practices, the conflict between federalists and centralists, and social control programs. Shedding new light on a poorly understood era, Warren demonstrates the importance of the urban masses both as actors in their own right and as objects of elite discourse and programs. His compelling narrative offers an ideal supplement for courses on Mexican and Latin American history. **The**

Women's Revolution in Mexico, 1910-1953 Stephanie Evaline Mitchell, Patience Alexandra Schell, 2007. This book reinvigorates the debate on the Mexican Revolution, exploring what this pivotal event meant to women. The contributors offer a fresh look at women's participation in their homes and workplaces and through politics and community activism. Drawing on a variety of perspectives, the volume illuminates the ways women variously accepted, contested, used, and manipulated the revolutionary project. Recovering narratives that have been virtually written out of the historical record, this book brings us a rich and complex array of women's experiences in the revolutionary and post-revolutionary era in Mexico. Addicted to Failure Brian Loveman, 2006-09-11. For supplementary documentation and useful websites, click [here](#). This perceptive book critically explores why the United States continues to pursue failed policies in Latin America. What elements of the U.S. and Latin American political systems have allowed the Cold War, the war on drugs, and the war on terror to be conflated? Why do U.S. policies ostensibly designed to promote the rule of law, human rights, and democracy instead contribute to widespread corruption, erosion of government authority, human rights violations, and increasing destabilization? Why have the war on drugs and the war on terror neither reduced narcotics trafficking nor increased citizen security in Latin America? Why do Latin American governments, the European Union, and U.S. policymakers often work at cross purposes when they all claim to be committed to democratization and development in the region? Leading scholars answer these questions by detailing the nature of U.S. economic and security strategies in Latin America and the Andean region since 1990. They analyze the impacts and responses to these strategies by policymakers, political leaders, and social movements throughout the region, explaining how programs often generate or exacerbate the very problems they were intended to solve. Reviewing official policy and its defenders and critics alike, this indispensable book focuses on the reasons for the failure of U.S. policies and their disastrous significance for Latin America and the United States alike. Contributions by Adrián Bonilla, Pilar Gaitán, Monica Herz, Kenneth Lehman, Brian Loveman, Enrique Obando, Orlando J. Pérez, Eduardo Pizarro, Philipp Schrock, Martínez, and Juan Gabriel

Tokatlian Grounding Global Justice Eric D. Larson, 2023-09-19 Globalization The rise of Trumpism has once again galvanized public debate about this highly charged term This book looks at the last time the concept spurred wide ranging and unruly agitation the late twentieth century In offering a transnational history of the explosive emergence of antiglobalization movements in the United States and Mexico it considers how farmers workers and Indigenous peoples struggled to change the direction of the world economy They did so by grounding their efforts to confront free market economic reforms in frontline struggles for economic and racial justice The story revolves around three popular organizations and their paths allow us to reinterpret some of the crucial moments messages and movements of the era including the Mexican roots of the idea of food sovereignty racism and whiteness at the momentous Battle of Seattle protests outside the 1999 World Trade Organization meetings and the rise of dramatic street demonstrations around the globe **Land of Necessity** Alexis McCrossen, 2009-06-19 Historians and anthropologists unravel the interplay of the national and transnational and of scarcity and abundance in the U S Mexico borderlands **Problems in Modern Latin American History** James A. Wood, Anna Rose, 2019-02-12 Now in its fifth edition this leading reader has been updated with new readings and visual sources This edition includes an added final chapter on current social movements to help students reflect on the ecological realities that inform their world In addition the Legacies of Colonialism chapter has been restored to give students an understanding of the deep roots of the problems explored Instead of a separate chapter on women and social change women s voices have been woven more seamlessly throughout the book to reflect women s parity and equity in history With its innovative combination of primary and secondary sources and thoughtful editorial analysis this text is designed specifically to stimulate critical thinking in a wide range of courses on Latin American history since independence

Brazil in the Making Carmen Nava, Ludwig Lauerhass Jr., 2006-03-09 This innovative volume traces Brazil s singular character exploring both the remarkable richness and cohesion of the national culture and the contradictions and tensions that have developed over time What shared experiences give its citizens their sense of being Brazilian What memories bind them together What metaphors and stereotypes of identity have emerged Which groups are privileged over others in idealized representations of the nation The contributors a multidisciplinary group of U S and Brazilian scholars offer a fresh look at questions that have been asked since the early nineteenth century and that continue to drive nationalist discourse today Their chapters explore Brazilian identity through an innovative framework that brings in seldom considered aspects of art music and visual images offering a compelling analysis of how nationalism functions as a social political and cultural construction in Latin America Contributions by Cristina Antunes Dain Borges Val ria Costa e Silva James Green Efrain Kristal Ludwig Lauerhass Jr Cristina Magaldi Elizabeth A Marchant Jos Mindlin Carmen Nava Jos Luis Passos Robert Stam and Val ria Torres The Third Century Mark T. Gilderhus, David C. LaFevor, Michael J. LaRosa, 2017-01-05 This text focuses on U S relations with Latin America from the advent of the New Diplomacy late in the nineteenth century to the present Providing a

balanced perspective it presents both the United States view that the Western Hemisphere needed to unite under a common democratic capitalistic society and the Latin American countries response to U S attempts to impose these goals on its southern neighbors The authors examine the reciprocal interactions between the two regions each with distinctive purposes outlooks interests and cultures They also place U S Latin American relations within the larger global political and economic context

Artifacts of Revolution Patrice Elizabeth Olsen, 2008-09-11 This innovative history utilizes the built environment as a means of tracing the path of the consolidation of the Mexican Revolution Patrice Elizabeth Olsen considers the physical changes in Mexico City s built environment using them to evaluate the extent and direction of regime consolidation of successive governments during the critical period from 1920 to 1940 Architects engineers politicians and entrepreneurs alike expressed visions of what modern Mexico should be and sought to improve the nation through an array of initiatives Their successes and failures and thus the direction of the revolution is written in the capital city The author s interdisciplinary approach offers an important contribution to the study of Mexican political history and the aesthetics of modernity
