and childhood The new compounds of seemingly paradoxical high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society's hesitant and uneven acceptance of the emergent paradigm of children's rights abilities participation and empowerment Cross identifies four types of potentially subversive transgressive humor which have emerged since the 1960s which coupled with the three main theories of humor relief superiority and incongruity theories enables a long overdue charting of developments in humor within junior texts Cross also argues that the gradual increase in the compounding of the simple and the complex provide opportunities for young readers to play with ambiguous complicated ideas helping them embrace the complexities and contradictions of contemporary life
