A Different Voice, a Different Song

Caroline Bithell, 2014 A Different Voice A Different Song traces the history of a grassroots scene that has until now operated largely beneath the radar but that has been gently gathering force since the 1970s At the core of this scene today are the natural voice movement founded on the premise that everyone can sing and a growing transnational community of amateur singers participating in multicultural music activity Author Caroline Bithell reveals the intriguing web of circumstances and motivations that link these two trends highlighting their potential with respect to current social political and educational agendas She investigates how and why songs from the world s oral traditions have provided the linchpin for the natural voice movement revealing how the musical traditions of other cultures not only provide a colourful repertory but also inform the ideological methodological and ethical principles on which the movement itself is founded A Different Voice A Different Song draws on long term ethnographic research including participant observation at choir rehearsals performances workshops and camps as well as interviews with voice teachers choir and workshop leaders camp and festival organisers and general participants Bithell shows how amateur singers who are not musically literate can become competent participants in a vibrant musical community and in the process find their voice metaphorically as well as literally She then follows some of these singers as they journey to distant locations to learn new songs in their natural habitat She theorises these trends in terms of the politics of participation the transformative potential of performance building social capital the global village and reclaiming the arts of celebration and conviviality The stories that emerge reveal a nuanced web of intersections between the local and global one which demands a revision of the dominant discourses of authenticity cultural appropriation and agency in the post colonial world and ultimately points towards a more progressive politics of difference A Different Voice a Different Song will be an essential text for practitioners involved in the natural voice movement and other vocal methodologies and choral worlds As a significant study in the fields of ethnomusicology music education and community music the book will also be of interest to scholars studying the democratisation of the voice the dynamics of participation world musics in

performance the transformative power of harmony singing and the potential of music making for sustaining community and aiding intercultural understanding

Alchemists of the Stage Mirella Schino, 2020-12-14 What is a theatre laboratory Why a theatre laboratory This book tries to answer these questions focusing on the experiences and theories the visions and the techniques the differences and similarities of European theatre laboratories in the twentieth century It studies in depth the Studios of Stanislavski and Meyerhold the school of Decroux the Teatr Laboratorium of Jerzy Grotowski and Ludwik Flaszen as well as Eugenio Barba's Odin Teatret Theatre laboratories embody a theatre practice which defies the demands and fashions of the times the usual ways of production and the sensible functions which stage art enjoys in our society It is a theatre which refuses to be only art and whose radical research forges new conditions with a view to changing both the actor and the spectator This research transforms theatrical craft into a laboratory which has been compared to the laboratory of the alchemists who worked not on material but on substance The alchemists of the stage did not operate only on forms and styles but mainly on the living matter of the theatre the actor seen not just as an artist but above all as a representative of a new human being Laboratory theatres have rarely been at the centre of the news Yet their underground activity has influenced theatre history Without them the same idea of theatre as it has been shaped in the course of the twentieth century would have been different In this book Mirella Schino recounts as in a novel the vicissitudes of a group of practitioners and scholars who try to uncover the technical political and spiritual
