Ground Attack:

RAF Harrier Ground Attack: Falklands Jerry Pook, 2008-06-15 An interesting and highly informative personal memoir a much needed addition to the body of work covering the air war over the Falklands IPMS USA During the Falklands War Jerry Pook a pilot in No 1 F Squadron RAF flew air interdiction armed recon close air support and airfield attack as well as pure photo recon missions Most weapons were delivered from extreme low level attacks because of the lack of navigation aids and in the absence of Smart weapons The only way he could achieve results was to get low down and close in to the targets and if necessary carry out re attacks to destroy high value targets Apart from brief carrier trials carried out many years previously there had been no RAF Harriers deployed at sea The RAF pilots were treated with ill disguised contempt by their naval masters their professional opinions ignored in spite of the fact that the RN knew next to nothing about ground attack and recon operations Very soon after starting operations from the aircraft carrier HMS Hermes the squadron realized that they were considered as more or less expendable ordnance The Harriers lacked the most basic self protection aids and were up against 10 000 well armed troops who put up an impressive weight of fire whenever attacked Prior to this book very little had been written in detail describing the RAF Harrier GR3 operations during the 1982 Falklands War This book fills that void very well providing a wealth of detail in describing the lead up deployment and day to day combat operations of the small contingent of Royal Air Force attack Harriers IPMS USA [Handbook on U.S.S.R. Military Forces](#), 1945 **The Russian Air Force in the Eyes of German Commanders** Generalleutnant Walter

Schwabedissen, 2017-06-28 The Russian Air Force in the Eyes of German Commanders by Generalleutnant a D Walter Schwabedissen is one of a series of historical studies written by or based on information supplied by former key officers of the GAF for the United States Air Force Historical Division The overall purpose of the series is twofold 1 To provide the U S Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front In World War II the Russian Air Force came of age The men most vitally concerned with this aside from the Russians themselves were commanders in the German armed forces The experience of these commanders then constitutes a unique source for information on an organization whose capabilities both past and future are of vital concern to the world The chief German experience with the Russian Air Force derives from World War II It was during this period that the Russians learned most from the Germans and the Germans learned most about the Russians This study

exploits this broad German experience Compiled from the official records of the German Air Force and from reports written by German commanders who saw action in the Russian campaign it documents many of the Russian Air Force's achievements as well as its failures In Cold War Skies Michael Napier, 2020-08-20 From acclaimed aviation historian Michael Napier this is a highly illustrated survey of the airpower deployed by NATO and Warsaw Pact countries throughout the Cold War Throughout the second half of the 20th century international relations across the globe were dominated by the Cold War From 1949 until the fall of the Berlin Wall in 1989 US and Soviet strategic forces were deployed across the Arctic Ocean in North America and Northern Russia while the best equipped armed forces that the world had ever seen faced each other directly across the Iron Curtain in Europe In Cold War Skies examines the air power of the major powers both at a strategic and at a tactical level throughout the 40 years of the Cold War In this fascinating book acclaimed historian Michael Napier looks at each decade of the war in turn examining the deployment of strategic offensive and defensive forces in North America and Northern Russia as well as the situation in Europe He details the strategic forces and land based tactical aircraft used by the air forces of the USA USSR NATO Warsaw Pact countries and the European non aligned nations He also describes the aircraft types in the context of the units that operated them and the roles in which they were used The text is supported by a wide range of first hand accounts of operational flying during the Cold War as well as numerous high quality images *Review of Current Military Literature* ,1948 **Professional Journal of the United States Army** ,1948
