Ground Attack Vietnam:

Tactical Air Power and the Vietnam War Phil Haun, 2024-01-18 A theory of tactical air power explaining US air power effectiveness in Vietnam and the modern air wars that followed

U.S. Marines in Vietnam Charles D. Melson, Curtis G. Arnold, 1991 *Vietnam Studies - Mounted Combat In Vietnam [Illustrated Edition]* General Donn A. Starry, 2014-08-15 Includes 1 chart 17 maps 6 diagrams and 38 illustrations The generally unsuccessful experience of French armored forces in Southeast Asia from the end of World War II to 1954 convinced American military men that armored units could not be employed in Vietnam It was not until 1967 however when a study titled Mechanized and Armor Combat Operations Vietnam was sent to the Chief of Staff and Secretary of the Army that the potential of armored forces was fully described to the Army's top leaders Despite the study's findings that armored cavalry was probably the most cost effective force on the Vietnam battlefield there was little that could be done to alter significantly either the structure of forces already sent to Vietnam or those earmarked for deployment The armored force of the Army of the Republic of Vietnam meanwhile had been successful enough in fighting the elusive Viet Cong that U S armored units had been deployed in limited numbers usually as part of their parent divisions From early March 1965 until the cease fire in Jan 1973 U S armored units participated in virtually every large scale offensive operation and worked closely with South Vietnamese Army and other free world forces After eight years of fighting over land on which tanks were once thought to be incapable of moving in weather that was supposed to prohibit armored operations and dealing with an elusive enemy against whom armored units were thought to be at a considerable disadvantage armored forces emerged as powerful flexible and essential battle forces In large measure they contributed to the success of the free world forces not only in close combat but in pacification and security operations as well When redeployment began in early 1969 armored units were not included in the first forces scheduled for redeployment and indeed planners moved armored units down the scale time and again holding off their redeployment until the very end

Interservice Rivalry and Airpower in the Vietnam War Ian Horwood, 2010 Explores the rivalry between the armed services of the U S relating to the employment of tactical airpower during the Vietnam War Not being an American Horwood is able to put a fresh perspective on this complex issue This study focuses on tactical airpower in S Vietnam between 1961 and 1968 Horwood avoids a lengthy discussion of the air war over N Vietnam focusing instead on the combat operations in the South He examines a number of issues which are relevant to the use of airpower in irregular warfare command and control of airpower the use of airpower at the tactical and the operational strategic level of war the role of helicopters and different service understandings of the proper role of airpower in a counterinsurgency

Shadows of the Dragon: The China-Vietnam War of 1979 and Power Balance in South-East Asia Dr. TC Rao, 2024-04-05 *Shadows of the Dragon* The China Vietnam War of 1979 and Power Balance in South East Asia is a gripping historical account that delves into the complex dynamics surrounding the brief but intense conflict between China and Vietnam in 1979 The book provides a comprehensive

analysis of the geopolitical military and socio economic factors that led to the conflict as well as its far reaching implications for the balance of power in Southeast Asia Through meticulous research and compelling narrative the book offers a nuanced understanding of the war s impact on the region and its lasting legacy on international relations Shadows of the Dragon unveils the intricate web of alliances rivalries and strategic maneuvering that continues to shape the geopolitical landscape of Southeast Asia making it an essential reading for anyone interested in modern history and international relations

Fighting in Vietnam James Westheider,2011-05-18 The Vietnam War differed from previous American wars of the twentieth century It was an undeclared and limited war that divided the country and was fought disproportionately by minorities and working class whites many of whom did not want to serve This is the story of the men and women who participated in this generation defining conflict overseas and stateside a war of search and destroy missions and combat with an ill defined enemy but also a war of drug use fragging and antiwar protests James Westheider captures the many dimensions of what it was like to fight in the Vietnam War Page 4 of cover

Losing Vietnam Ira A. Hunt,2013-07-16 An intelligence officer stationed in Southeast Asia offers a detailed insightful documented and authentic account of US policy failure in the region Lewis Sorley author of Westmoreland In the early 1970s the United States began to withdraw combat forces from Southeast Asia Though the American government promised to support the South Vietnamese and Cambodian forces in their continued fight against the Viet Cong the funding was drastically reduced over time The strain on America s allies in the region was immense as Major General Ira Hunt demonstrates in Losing Vietnam As deputy commander of the United States Support Activities Group Headquarters USAAG in Nakhon Phanom Thailand Hunt received all Southeast Asia operational reports reconnaissance information and electronic intercepts placing him at the forefront of military intelligence and analysis in the area He also met frequently with senior military leaders of Cambodia and South Vietnam contacts who shared their insights and gave him personal accounts of the ground wars raging in the region In Losing Vietnam Major Hunt details the catastrophic effects of reduced funding and of conducting wars by budget This detailed and fascinating work highlights how analytical studies provided to commanders and staff agencies improved decision making in military operations By assessing allied capabilities and the strength of enemy operations Hunt effectively demonstrates that America s lack of financial support and resolve doomed Cambodia and South Vietnam to defeat

 1971-1973 Charles D. Melson,2018-10 United States Marine Corps History and Museums Division This is the eighth volume
 of a projected nine volume history of Marine Corps operations in the Vietnam War A separate functional series complements
 the operational histories This volume details the activities of Marine Corps units after the departure from Vietnam in 1971 of
 III Marine Amphibious Force through to the 1973 ceasefire and includes the return of Marine prisoners of war from North
 Vietnam Written from diverse views and sources the common thread in this narrative is the continued resistance of the South
 Vietnamese Armed Forces in particular the Vietnamese Marine Corps to Communist aggression This book is written from the
 perspective of the American Marines who assisted them in their efforts Someday the former South Vietnamese Marines will
 be able to tell their own story *Armor In Vietnam [Illustrated Edition]* Frederick Eugene Oldinsky,2015-11-06 Includes 24
 maps This thesis begins with a brief history of armored vehicles from their earliest concepts to the modern battle tank of
 today It critically examines the decision not to include tank units with the first American combat forces deployed in Vietnam
 and the irrationality of that decision in light of a similar decision made prior to the Korean conflict Tanks were deployed in
 limited numbers in Vietnam in spite of a decision to the contrary and once there I proved their usefulness and their ability to
 perform in a tropical environment against an elusive enemy Examples of the tank s effectiveness in Vietnam are given and
 the feasibility of deploying major armored forces to that country is discussed Problems created by insufficient armor are
 addressed as well as the limitations and vulnerabilities of tanks and other armored vehicles Armor doctrine is traced from the
 tank s role in breaking the stalemate of World War I through the formative years of World War II and its application to the
 war in Vietnam Since most armored weapons were designed primarily for conventional warfare a number of modifications
 were required to adapt the weapons to an unconventional war Some of the more significant modifications are described

Finally lessons learned by the Vietnam experience and their future application are discussed Concluding consideration in the paper is whether or not decision makers will need these lessons learned or continue to make the same mistakes **North Vietnam** United States.
