(F) - Fully demonstrated

This figure illustrates where various technologies may be implemented across a 1,4-dioxane plume. It should be noted that the areas shown are schematic in nature, and certain technologies can be effective across a varying range of locations and concentrations. The actual deployment location of a technology will depend on site-specific conditions. Note that only fully demonstrated and emerging options are shown here. When more than one category is shown, it indicates that the technologies in that grouping have different categories. Less effective technologies are discussed in the text.
