Operation Oyster World War II's Forgotten Raid Kees Rijken,Paul Schepers,Arthur G. Thorning,2014-08-15

Operation Oyster was carried out on the 6th December 1942 by 2 Group RAF Considered to be a notable success for the allies it cost the Germans an estimated six months of lost production time at a critical point in the conflict It is arguable according to the authors that the operation was in fact rather more significant than Operation Chastise the Dambuster raid while accepting that was a remarkable feat of arms Operation Oyster struck at the very heart of what Churchill termed the wizard war against German radio navigational technology by attacking a central hub of activity the Philips Radio Works in Eindhoven The Netherlands The development of electronics in WWII was the most significant technical aspect of weaponry over the course of the conflict On both sides there were great advances in radar and communications which at that time depended on the wide scale use of high frequency radio valves few companies had the technology to produce these but the leading one in Europe was Philips in Eindhoven Thus it was determined that Philips was the most important target Ninety three allied aircraft took part and a total of fourteen were lost But the result in terms of damages to the enemy was considerable hindering the German war effort significantly and consequently aiding the allies Despite these facts however

the story of the raid has been underreported and the efforts of the aircrew who took part have been little recognized By comparison the Dambuster raid which came six months later has entered into folklore Here for the first time the overlooked Oyster raid is afforded the attention it deserves Case studies in the achievement of air superiority , **Battle of Britain Airfields Under Attack** Dilip Sarkar,2024-11-30 In this unprecedented series exploring the big story of the Battle of Britain renowned historian Dilip Sarkar investigates the wider context and intimate details of the epic aerial conflict in the summer of 1940 from all sides In so doing he gives due acknowledgement to the roles of Bomber and Coastal Commands in addition to the fabled Few of Fighter Command This unique narrative draws upon a lifetime of research the author having enjoyed a long relationship with survivors and the relatives of casualties his innumerable interviews and first hand accounts collated in addition to privileged access to personal papers providing essential human interest to this inspirational story In this the fourth volume Battle of Britain Airfields Under Attack Dilip continues to examine the fighting on a day by day combat by combat basis from 19 August until 6 September 1940 It is a period in which we saw the Luftwaffe s bombing of the all important 11 Group airfields intensify culminating in The Hardest Day of 18 August 1940 which saw both sides lose more aircraft than any other day throughout the whole Battle of Britain The tensions and problems between Fighter Command s 11 and 12 Groups also intensified It was a situation that eventually led to Squadron Leader Douglas Bader criticising Fighter Command tactics proposing the use of Big Wings contrary to the System of Air defense and strategy involved gaining the support of his 12 Group commander Air Vice Marshal Leigh Mallory Given its later significance this is investigated in depth Through diligent research combined with crucial official primary sources and personal papers Dilip unravels many myths often challenging the accepted narrative This is not simply another dull record of combat losses and claims far from it Drawing upon unique first hand accounts from a wide range of combatants and eyewitnesses along with Daily Home Intelligence Reports and numerous other primary sources this book forms part of what is likely to be the first and last such comprehensively woven account of this epic air battle World War II RAF Airfields in Norfolk Martin W. Bowman,2008-03-26 As part of the Aviation Heritage Trail series this book covers airfields in Lincolnshire Norfolk Yorkshire and Northamptonshire 12 Group was formed in 1937 within Fighter Command to become responsible for aerial defense of the industrial Midlands During World War Two this group was the second most important fighter group and as such it received it s fair share of attacks from the German Luftwaffe throughout the war As well as regional defense 12 Group were also supposed to fly cover for 11 Group airfields during the Battle of Britain The airfields and other places of interest include Digby Hibaldstow Kirton on Lindsey Coltishall Matlask Swanton Morley Catterick Church Fenton Clifton Hutton Cranswick and Wittering This book looks at the history and personalities associated with each base what remains today and explores the favorite local wartime haunts Museums and places that are relevant will also be described and general directions on how to get them included **A Forgotten Offensive** Christina J.M. The Breaking Storm Dilip Sarkar, 2023-11-09. In *The Breaking Storm*, the first of Dilip Sarkar's unprecedented seven-volume series exploring the Battle of Britain, the events that led up to the outbreak of war in 1939 and which set the scene for the epic aerial conflict of summer 1940 are fully explored. Continuing his examination of the events of the Spitfire Summer in *The Breaking Storm*, Dilip provides a day-by-day chronicle of the Battle of Britain's first phase, the so-called Kanalkampf, which was fought over the Channel-bound convoys between 10 July and 12 August 1940. This account, though, does not simply concern RAF Fighter Command; as the author recognizes, the operations and efforts of the RAF's Bomber and Coastal Commands, the Royal Navy, and mercantile marine make this book part of what he calls the Big Story. Hitler's actual policies and intentions towards the ongoing war with Britain are also explored. If the Battle of Britain was fought to deny Germany the aerial superiority required to launch a seaborne invasion of southern England, then the author argues the conflict could surely only have begun when the Germans committed to Operation Seelwe, which was not in fact until 21 July 1940. It has previously been accepted that Hitler's War Directive of 16 July 1940 signaled the intention to invade, but the author proves that this was no more than another example of the brinkmanship that Hitler was renowned for, and the air attacks at that time little more than Air Fleet Diplomacy, all of which was intended to frighten Britain into accepting the Führer's last appeal to reason of 19 July 1940. In his broadcast of 22 July 1940, Lord Halifax made the nation's unbowed position quite clear. He called Hitler's bluff, previously reluctant to fight Britain. Hitler's preferred policy in the ongoing war had been blockade and diplomacy, but now he had no choice but to unleash the Luftwaffe against Britain. All of this is investigated in detail, aligning these wider events and high decisions with action in the air. Through diligent research combined with crucial official primary sources and personal papers, Dilip unravels many myths, often challenging the accepted narrative. This is not simply another dull record of combat losses and claims far from it. Drawing upon unique first-hand accounts from a wide range of combatants and eyewitnesses, along with Daily Home Intelligence Reports and numerous other primary sources, this book forms part of what is likely to be the first and last such comprehensively woven account of this epic air battle.

They Hosed Them Out John Bede Cusack, 2012. A classic Australian war novel inspired by the author's experiences as an airgunner in the Second World War. This new revised and annotated edition includes chapters never before published, a fascinating biography of John Bede Cusack by his

daughter Kerry McCouat and an informative introduction by editor Robert Brokenmouth Two Roads to War Robin Higham,2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Arm e de l Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and mat riel of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Arm e de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham s thorough examination however finds the British not without error **JG26** Donald Caldwell,2013-11-20 This unique impressive study presents a history in microcosm of the entire Luftwaffe Fighter Corps a spellbinding work Library Journal Jagdgeschwader 26 the German elite fighter unit was more feared by the Allies than any other Luftwaffe group Based on extensive archival research in Europe personal combat diaries and interviews with more than 50 surviving pilots Caldwell has assembled a superb day to day chronicle of JG 26 operations from its first air victory in 1939 to its final combat patrol in 1945 A microcosm of World War II exists in the rise and fall of this famous fighter wing For the first two years of the war it was an even match between the Spitfires and Hurricanes of the Royal Air Force and the Luftwaffe s Messerschmitts and Focke Wulfs but the scales tipped in favor of the Allies in 1943 with the arrival of the Eighth US Air Force and its peerless P 51 Mustang The book has been endorsed by the top fighter commanders of three air forces the RAF Johnnie Johnson the USAAF Hub Zemke and the Luftwaffe Adolf Galland and is considered essential reading for anyone interested in the aerial war of 1941 45

Royal Air Force Bomber Command Losses of the Second World War: Aircraft and crew losses: 1944 W. R. Chorley,1944

Operation Crossbow 1944 Steven J. Zaloga,2018-07-26 In mid 1943 Allied intelligence began to pick up the signs of unusual German construction in remote locations near the Channel Coast Several massive fortifications were beginning to take shape and they appeared to be oriented towards London Allied intelligence codenamed these sites as Crossbow and began plans to attack them before they could bombard Britain s capital city These Heavy Crossbow sites for the V 1 and V 2 missiles were supposed to be bomb proof but they soon attracted the attention of RAF heavy bombers with the new Tallboy concrete penetrating bombs Fully illustrated with commissioned artwork and contemporary photographs Operation Crossbow 1944 examines the dynamics of the world s first missile war It also describes the parallel American efforts to develop missiles and assault drones to attack the Heavy Crossbow sites including the Air Force s Aphrodite and Navy Anvil projects **The Gathering Storm** Dilip Sarkar,2023-07-31 Dilip Sarkar has studied the Battle of Britain period for a lifetime and is renowned for his meticulous research and evidence based approach setting events within the broadest possible context In doing so he has helped enrich our appreciation and understanding of the past In this the first of a new seven volume series on the Battle of Britain we have the background to the aerial conflict of the summer of 1940 revealed in

great detail and told comprehensively as never before No stone has been left unturned no angle unexplored This meticulous approach the research combined with the human stories and events many revealed for the first time tells what Dilip calls the Big Story The development of air power the creation of Britain's defenses the German side the Home Front and political events are all covered and much more After considering the background threads prior to the outbreak of war in 1939 this book then describes the developing conflict on land sea and in the air The German invasion of Norway the Fall of France and the air fighting over Dunkirk are all explored along with Hitler's actual preferred policy towards Britain which at first was one of blockade not invasion The author with justification questions the validity of the Battle of Britain's official start date being 10 July 1940 evidencing the fact that the fighting actually began eight days earlier From that date onwards a day by day hour by hour account of the fighting is provided giving due recognition to those aircrew lost or wounded before 10 July 1940 and whose names are not therefore found amongst The Few Due accord is also given to the Royal Navy and efforts of both Bomber and Coastal commands emphasizing just what a big story this actually is far from simply concerning a handful of Spitfire and Hurricane pilots Through diligent research with crucial official primary sources and personal papers Dilip unravels many myths often challenging the accepted narrative This is not however simply another dull record of combat losses and claims far from it Drawing upon unique first hand accounts from a wide range of combatants and eyewitnesses along with the daily Home Intelligence Reports and the papers of politicians such as Italian Foreign Minister Count Ciano this really is an unprecedented approach to understanding the build up to and times of the Battle of Britain

Germany and the Second World War Horst Boog, Gerhard Krebs, Detlef Vogel, 2006-05-04 By the spring of 1943 after the defeat at Stalingrad the writing was on the wall But while commanders close to the troops on Germany's various fronts were beginning to read it those at the top were resolutely looking the other way This seventh volume in the magisterial 10 volume series from the Militärgeschichtliches Forschungsamt Research Institute for Military History shows both Germany and her Japanese ally on the defensive from 1943 into early 1945 It looks in depth at the strategic air war over the Reich and the mounting toll taken in the Battles of the Ruhr Hamburg and Berlin and at the Battle of the Radar Sets so central to them all The collapse of the Luftwaffe in its retaliatory role led to hopes being pinned on the revolutionary V weapons whose dramatic but ultimately fruitless achievements are chronicled The Luftwaffe's weakness in defence is seen during the Normandy invasion Operation Overlord an account of the planning preparation and execution of which form the central part of this volume together with the landings in the south of France the setback suffered at Arnhem and the German counter offensive in the Ardennes The final part follows the fortunes of Germany's ally fighting in the Pacific Burma Thailand and China with American forces capturing islands ever closer to Japan's homeland and culminates in her capitulation and the creation of a new postwar order in the Far East The struggle between internal factions in the Japanese high command and imperial court is studied in detail and highlights an interesting contrast with the intolerance of all dissent that typified the Nazi power structure Based on

meticulous research by MGFA's team of historians at Potsdam this analysis of events is illustrated by a wealth of tables and maps covering aspects ranging from Germany's radar defence system and the targets of RAF Bomber Command and the US 8th Air Force through the break out from the Normandy beachhead to the battles for Iwo Jima and Okinawa Royal Air Force Germany Since 1945 Bill Taylor, 2003 This detailed survey takes the lid off RAF operations in Germany from establishment of the British Air Forces of Occupation in July 1945 to the tense days of the Berlin Airlift and the establishment of NATO and its tripwire strategy which placed Germany firmly in the front line
