Dead Tree Media Michael Stamm, 2018-10-16 A deep and timely account of how American newspapers were produced and distributed on paper Winner of the Best Book in Canadian Business History by the Canadian Business History Association Popular assessments of printed newspapers have become so grim that some have taken to calling them dead tree media as a way of invoking the medium's imminent demise There is a literal truth hidden in this dismissive expression printed newspapers really are material goods

made from trees And throughout the twentieth century the overwhelming majority of trees cut down in the service of printing newspapers in the United States came from Canada In *Dead Tree Media* Michael Stamm reveals the international history of the commodity chains connecting Canadian trees and US readers Drawing on newly available corporate documents and research in archives across North America Stamm offers a sophisticated rethinking of the material history of the printed newspaper Tracing its industrial production from the forest to the newsstand he provides an account of the obscure and often hidden labor involved in this manufacturing process by showing how it was driven by not only publishers and journalists but also lumberjacks paper mill workers policymakers chemists and urban and regional planners Stamm describes the 1911 shift in tariff policy that gave US publishers duty free access to Canadian newsprint providing a tremendous boost to Canadian paper manufacturers and a significant subsidy to American newspaper publishers He also explains how Canada attracted massive American foreign investment in paper mills around the same time that US publishers were able to gain greater access to Canada's vast spruce forests Focusing particularly on the Chicago Tribune Stamm provides a new history of the rise and fall of both the mass circulation printed newspaper and the particular kind of corporation in the newspaper business that had shaped many aspects of the cultural political and even physical landscape of North America For those seeking to understand the travails of the contemporary newspaper business *Dead Tree Media* is essential reading

Media, Movements, and Political Change Jennifer S. Earl, Deana A. Rohlinger, 2012-05-18 This volume explores the relationship between media movements and political change through analyses of how actors use print media and the Internet to achieve their goals The chapters examine the role of media in the Anti Abortion Globalization Labor Townsend and White Power movements as well as Barack Obama's 2008 campaign *Industrial Hygiene Evaluation Methods* Michael S. Bisesi, 2003-08-27 Professionals and students in the field of industrial hygiene need a concise guide that thoroughly covers the practical methods of evaluating health threats in the workplace Bisesi and Kohn's *Industrial Hygiene Evaluation Methods* Second Edition introduces basic methods for evaluating work and some non work environments in order to detect and measure physical chemical and biological agents as well as hazardous ergonomic factors The book is divided into relatively short units that provide concise overviews and descriptions of basic concepts Each unit is followed by practical technical exercises These exercises foster the understanding of basic industrial hygiene principles and practices for collection detection identification calculation and interpretation of qualitative and quantitative data Exercises can be conducted in a setting in which agents and other factors are detectable and measurable Alternatively the simulated evaluation exercises that

are included can be conducted in a classroom or laboratory This book is an introductory reference for environmental and occupational health and safety students and practitioners It is an indispensable tool that illustrates methods fundamental to industrial hygiene practice and is just as valuable in the professional's office as it is in the classroom
