political responses by the poor middle class professionals and the policy elite African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades Correcting this imbalance African American Urban History since World War II features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real estate industry's discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies Another group of contributors examines these themes through the lens of gender chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations World Hunger Steven Maddocks, 2005 Examines the world's food supply the natural and human causes of widespread hunger and famine and offers steps that can be taken to remedy this global problem

Desertion and the American Soldier, 1776-2006 Robert Fantina, 2006 Despite the government's continued insistence on linking desertion with cowardice the motivations for desertion are many and complex and are either rooted in or encouraged by military policy This history and analysis of military desertion from the Revolutionary War to Vietnam and the occupation of Iraq describes the official policies on desertion and how they have been implemented over time problems in the military justice system and the motivations for desertions Comprehensive data and interviews with deserters are included

One Nation, Underprivileged Mark Robert Rank,2004-04-01 Despite its enormous wealth the United States leads the industrialized world in poverty One Nation Underprivileged unravels this disturbing paradox by offering a unique and radically different understanding of American poverty It debunks many of our most common myths about the poor while at the same time provides a powerful new framework for addressing this enormous social and economic problem Mark Robert Rank vividly shows that the fundamental causes of poverty are to be found in our economic structure and political policy failures rather than individual shortcomings or attitudes He establishes for the first time that a significant percentage of Americans will experience poverty during their adult lifetimes and firmly demonstrates that poverty is an issue of vital national concern Ultimately Rank provides us with a new paradigm for understanding poverty and outlines an innovative set of strategies that will reduce American poverty One Nation Underprivileged represents a profound starting point for rekindling a national focus upon America s most vexing social and economic problem
