sow_much_more on Instagram offers a warm and chatty practical guide to designing and planting beautiful healthy gardens based on her own experiences Becky has changed gardens several times in the last few years due to changes in her personal circumstances but she has created a garden everywhere she goes The garden that she has today is a new build property garden When she moved in December 2022 it was entirely devoid of plants Two years later Becky has created a joyful space for growing food and flowers and for her growing family Becky came to realise that what she had learned in this garden could apply to any new garden whether you are starting from scratch dealing with an overgrown or neglected garden or redesigning an existing garden From building healthy soil to creating a natural and sustainable garden with a thriving ecosystem that encourages biodiversity to planning your dream garden while dealing with awkward spaces noise or privacy Becky will give gardeners whether new or experienced a complete understanding of how gardens work demystifying garden design and making gardening easier and more enjoyable Grow a New Garden that works for you I thoroughly recommend this book to beginners and also to experienced gardeners Charles Dowding author of No Dig **USGA Restoration**

Handbook on CD-ROM Donald Harker,Kay Harker,Gary Libby,Sherry Evans,Marc Evans,1999-08-16 All the techniques presented in the original reference work now on CD ROM Five years after the first edition of Landscape Restoration Handbook was published its natural landscaping and ecological restoration techniques have become standard and successful practice throughout the nation They are now in the Landscape Restoration Handbook on CD ROM Naturalization mutually beneficial for environmental protection and cost savings By outlining the proper use of naturalization techniques the print version gave landscape professionals a viable alternative to more intensive management approaches ensuring a greater degree of environmental protection while reducing various maintenance costs Now you access these benefits on CD ROM A comprehensive guide to natural landscaping and ecological restoration A Native Hawaiian Garden John L. Culliney,Bruce P. Koebele,1999-12-01 Hawai i is home to some of the rarest plants in the world many of them now threatened by extinction Despite a benign and nurturing climate native species are declining almost everywhere in the Islands Human introduced pests the spread of competing alien plants wildfires urban and agricultural development and other disturbances of modern life are eliminating native species at an alarming pace In fact 38 percent of all plants on the U S endangered species list are native Hawaiian plants A Native Hawaiian Garden is an effort to help stem the tide Until recent years few people attempted to raise native plants in their gardens in schoolyards and parks or around public buildings But this situation is changing as essential information about raising native plants becomes more readily available A Native Hawaiian Garden offers the most in depth treatment yet on cultivating and propagating native Hawaiian plants Following an overview of Hawaiian natural history and conservation the book treats 63 species many for the first time giving detailed information on all stages of gardening from preparing seeds for germination to the care and tending of the young plants in the landscape Habitats where the plants are most likely to thrive are also described as well as the uses that native Hawaiians made of the plants Over 90

color photographs enhance the book A Native Hawaiian Garden has much to offer professional horticulturists landscapers and botanists and gives reason to hope that more spaces around housing developments shopping malls and other commercial buildings will soon include native plants But the book will prove especially valuable to those gardeners who wish to grow and nurture something truly Hawaiian in their own backyards Among the many rewards of growing natives the authors make clear is the opportunity to contribute your own experiences and findings to a vital preservation effort
