century From the approach to the operation of jurisprudence and legal application to the prosecution of the poor the criminological approach to moral panics and the use of the affirmative defence to mitigate women within society this book explores the ways in which the authors of the period used the novel form as a way of challenging and critiquing the legal operating model of the world in which their characters found themselves examining the way in which the authors of the period used the novel as a means of critiquing the nature of the role of the law within society its impact upon the general public and the reciprocity which exists between legal ideals and the society which manifests those ideals through thought and action This is a useful text for students of nineteenth century literature or the law School Library Journal ,2010
