## **Growing Up Modern The Western State Builds Third World Schools:**

**Growing-Up Modern** Bruce Fuller, 2010-11-26 The modern state First and Third Worlds alike pushes tirelessly to expand mass education and to deepen the schools effect upon children First published in 1991 Growing Up Modern explores why how and with what actual effects state actors so vehemently pursue this dual political agenda Bruce Fuller first delves into the motivations held by politicians education bureaucrats and civic elites as they earnestly seek to spread schooling to younger children older adults and previously disenfranchised groups Fuller argues that the school provides an institutional stage on which political actors signal their ideals and the coming of greater modernity broadening membership in the polity promising mass opportunity in the wage sector intensifying modern bureaucratic forms of school management and deepening a presumed commitment to the child s individual development Fuller advances a theory of the fragile state where Western political expectations and organisations are placed within pluralistic Third World settings using southern Africa as an example of the dilemmas faced by the central state

**Handbook of the Sociology of Education** Maureen T. Hallinan, 2006-11-24 The aim of the Handbook of Sociology of Education is to present the most theoretically grounded and empirically rigorous sociological analyses of schools to date The authors are distinguished researchers in the field Their contributions to the Handbook offer major theoretical perspectives on the schooling process and describe significant empirical studies of schools and their effects on individuals and society The research presented in the Handbook is built on three fundamental tenets of sociology First the authors adopt the perspective that schools are a central institution in society An understanding of the function of schooling in social life is enhanced by viewing schools as interrelated with other societal institutions The study of how the context of schooling influences education processes is critical to an understanding of school outcomes Rather than being determined solely by ascribed and achieved characteristics an individual s cognitive and social development are influenced heavily by the structures and networks in which the individual is embedded Communities families schools and social groups are critical elements in the educative process By viewing the school as a societal institution and highlighting the interaction between context and individual behavior the Handbook chapters provide a broader and deeper understanding of the determinants of learning in contemporary society The second sociological insight that guides the research in the Handbook is that the school is a social system

**The Cultural Production of the Educated Person** Bradley A. Levinson, Douglas E. Foley, Dorothy C. Holland, 1996-03-07 Eleven historical ethnographic case studies examine the social and cultural projects of modern schools and the contestations dramatic and not that emerge in and around and against them These case studies ranging from Taiwan to South Texas build upon an original joining of anthropology critical education theory and cultural studies The studies advance the concept of cultural production as a way of understanding the dynamics of power and identity formation underlying different forms of education Using the concept of the educated person as a culture specific construct the authors examine conflicts and points of convergence between cultural

practices and knowledges that are produced in and out of schools

**Education And Democracy** Pilar O'Cadiz, Pia Wong, Carlos Torres, 2018-03-08 This book has been almost seven years in the making Though the work has certainly not been continuous for all those years it was a major focus of the three of us for most of them It is a tribute to Paulo Freire his courage his humanity and the timelessness and relevancy of his ideas that our work on this manuscript was never tedious never dull and never a burden but rather a constant source of joy inspiration and discovery Although the book was always intended to be a critical but friendly description and analysis of Freire s efforts as Secretary of Education the need to disseminate information about this radical educational reform became even more urgent after the sad news of Paulo Freire s death in May 1997 Thus while this text is the result of the scholarly efforts of three researchers it is also a celebration of a revolutionary thinker who had the unique opportunity to make his ideas concrete and therefore affect the lives of countless young children in his native country We dedicate our efforts on this volume to Paulo Freire and to the hundreds of educators in Sao Paulo whom he inspired to work tirelessly in creating a happy democratic school dedicated to serving poor and working class children and their communities It has been our pleasure and privilege to have worked with Paulo Freire and the many educators involved in educational reform in Sao Paulo Their commitment courage political clarity and struggle for social justice and equality are a constant source of motivation and inspiration for us to renew and reinvigorate our own efforts in the fight for equal rights decency and justice

point of a small town in the Karoo region showing how patterns of possession and dispossession have played out in the municipality and schools Using the strong political and ontological critique of decoloniality theories the book demonstrates the ways in which government interventions over many years have allowed colonial relations and the construction of racialised differences to linger in new forms including unequal access to schooling Written in an accessible style the book considers how the dream of decolonial schooling might be realised from the vantage point of research on the margins This Karoo region also offers an interesting case study as the site where the world s largest radio telescope was recently located and highlights the contrasting logics of international big science and local development needs This book will be of interest to academics and scholars in the education field as well as to social geographers sociologists human geographers historians and policy makers Chapters 1 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Munene, 2016-06-16 Using the Education for All EFA global movement as the setting this book surveys the complex labyrinths of international education policy making the design and implementation of system wide educational reform and the assessment of learning outcomes in the African context It addresses the following questions what does it mean for African states to reform their educational systems to meet the global agenda of Education for All and the Millennium Development Goals Under what structural conditions have African governments implemented universal primary education programs and with what outcomes What are the lessons learned and how do these inform the post 2015 agenda for universal primary education in Africa and other developing countries This book provides answers to these questions and opens the possibilities for new approaches to Education for All in the context of constrained resources unstable political climates and the agency of local communities It is undeniable that African governments responded to the educational goals espoused in EFA and MDG paradigms through their own education for all plans and expended vast resources to realize these objectives However there remains a serious gap in knowledge about the design of these plans the influence of local and international forces in their development the challenges inherent in executing comprehensive and multifaceted reforms to achieve these goals and the success of the reform measures as evident in student learning outcomes This book addresses this knowledge gap in three ways First it utilizes empirical data collected over a five year period from six African countries Kenya Mali Senegal Nigeria Tanzania and Uganda to illuminate how the global agenda on education has been debated designed and implemented across the continent and with what outcomes Second it frames the six nation case studies within the wider logic of international educational policy agenda and the continent wide search for education quality Finally the analysis of universal primary education strategies is undertaken from an interdisciplinary perspective thereby allowing a more comprehensive view of the educational reform Hosting States and Unsettled Guests Jennifer Riggan, Amanda Poole, 2024-02-06 As wealthy countries build walls to keep migrants out countries in the Global South are celebrated for their hospitality towards refugees Hosting States and Unsettled Guests asks the question did these policies enable refugees to consider their new country home Beginning in 2016 Ethiopia promoted local integration economic opportunities and access to education for refugees in order to encourage them to stay long term rather than migrate towards Europe But by 2020 a political overhaul and the outbreak of war in Northern Ethiopia foreclosed these opportunities particularly for Eritrean refugees in Ethiopia How did Eritrean refugees envision their future in light of the discrepancy between promising policies and ongoing instability Using ethnographic interviews and participant observation with government officials NGOs and refugees in three camps in northern Ethiopia and Addis Ababa Jennifer Riggan and Amanda Poole explore refugee notions of progress care hope and

reproduce and exacerbate inequality      *Educational Restructuring in the Context of Globalization and National Policy*

Moland, 2020  
In recent years the United States Agency for International Development USAID has provided funding to the New York based Sesame Workshop Its goal is to create international versions of Sesame Street that teach tolerance and democratic values with the hopes of decreasing conflict and preventing terrorism This book takes an in depth look at the Nigerian version Sesame Square started in 2011 in an attempt to build peaceful coexistence and counter the extremist messages of Boko Haram It offers rare insights into the complexities inherent in attempts to teach cosmopolitan ideals of democracy and tolerance and the ways in which such efforts can compromise peacebuilding in countries suffering from internal conflicts
