From the author of Solaris this novel of an encounter with an alien intelligence creates a terrifyingly plausible picture of a world gone mad Kirkus Reviews Six explorers

the Captain Doctor Engineer Chemist Physicist and Cyberneticist crash land on a beautiful but strange planet fourth from another sun The landscape is bizarre hosting acrid deserts hissing trees and thick spiderlike vegetation But it is the signs of humanity that are most puzzling In a labyrinth of plant shaped buildings are dead ends passageways domes vaulted ceilings and giant statues And everywhere there are images of death mass graves bodies in ditches and wells clusters of egglike structures filled with skeletons Something is wrong with the inhabitants of Eden But as the crew unlocks the secrets of this twisted society the most haunting fact they must face is how similar it is to their own The Chicago Tribune lauded Stanislaw Lem as not only a marvelous spinner of tales of the fantastic but also a challenging philosopher of the meanings and ramifications of technology Eden stands as a timeless and powerful examination of the conflict between human nature human discovery and all too human flaws

*Rowing in Eden* Martha Nell Smith,2010-07-05 Emily Dickinson wrote a letter to the world and left it lying in her drawer more than a century ago This widely admired epistle was her poem which was never conventionally

published in book form during her lifetime Since the posthumous discovery of her work general readers and literary scholars alike have puzzled over this paradox of wanting to communicate widely and yet apparently refusing to publish In this pathbreaking study Martha Nell Smith unravels the paradox by boldly recasting two of the oldest and still most frequently asked questions about Emily Dickinson Why didn't she publish more poems while she was alive and Who was her most important contemporary audience Regarding the question of publication Smith urges a reconception of the act of publication itself She argues that Dickinson did publish her work in letters and in forty manuscript books that circulated among a cultured network of correspondents most important of whom was her sister in law Susan Huntington Gilbert Dickinson Rather than considering this material unpublished because unprinted Smith views its alternative publication as a conscious strategy on the poet's part a daring poetic experiment that also included Dickinson's unusual punctuation line breaks stanza divisions calligraphic orthography and bookmaking all the characteristics that later editors tried to standardize or eliminate in preparing the poems for printing Dickinson's relationship with her most important reader Sue Dickinson has also been lost or distorted by multiple levels of censorship Smith finds Emphasizing the poet sustaining aspects of the passionate bonds between the two women Smith shows that their relationship was both textual and sexual Based on study of the actual holograph poems Smith reveals the extent of Sue Dickinson's collaboration in the production of poems most notably Safe in Their Alabaster Chambers This finding will surely challenge the popular conception of the isolated withdrawn Emily Dickinson Well versed in poststructuralist feminist and new textual criticism Rowing in Eden uncovers the process by which the conventional portrait of Emily Dickinson was drawn and offers readers a chance to go back to original letters and poems and look at the poet and her work through new eyes It will be of great interest to a wide audience in literary and feminist studies
