Ramakrishna Rao, 2017-10-12 Psychic phenomena recorded throughout human history remained a mystery or a matter of faith rather than a subject of serious study until scientists began to investigate them roughly a century and a half ago Systematic experimentation began with the work of J B Rhine at Duke University resulting in the publication of *Extra Sensory Perception*

1934 followed by Extra Sensory Perception After Sixty Years 1940 Rhine and researchers who came after him struggled to present sufficient evidence to gain scientific credibility for the existence of extrasensory abilities Yet despite tight experimental controls and numerous significant results the subject remains controversial Parapsychologists argue that the impasse is not due to a lack of evidence but to the challenge their claims pose to the worldview of science in general This comprehensive overview of the discipline of parapsychology written by one of its most notable investigators offers the reader a full understanding of both its concepts theories and methods and its controversies problems and prospects **Divination**

**Through the Ages** Ellen Wallace Douglas,2012-09-04 Ancients traveled far and paid handsomely to hear the sibyls and oracles channel wisdom from the gods The Holy Bible writes of many prophets and seers but divination by ordinary people was strongly prohibited As a result mediums and psychics have since been laughed at ostracized and even burned at the stake But always there have been some people who persisted in believing in spirit communication secretly We must take a sober and realistic view of divination in the times ahead but openly and publicly This book will help you to understand divination for its true value Listening to the spirit world is our only hope for a world of peace *The Mystical Crystal* Geoffrey Keyte,2012-05-31 Awareness of and interest in the therapeutic properties of crystals have grown enormously in the last few years as users have discovered the wide range of their beneficial effects From his experience as Founder of The Crystal Research Foundation and Director of Crystal 2000 Geoffrey Keyte is able to explain electrocrystal therapy and to detail healing methods massage and relaxation There are also insights into the origins of crystal therapy and its application to yoga and the chakras With none of the obscurity which so often accompanies works on crystal healing this book will be of immediate interest and benefit to New Age discoverers and all concerned with a balanced natural therapy for a healthy self

**Don't Believe Everything You Think** Thomas E. Kida,2009-09-25 Do you believe that you can consistently beat the stock market if you put in the effort that some people have extrasensory perception that crime and drug abuse in America are on the rise Many people hold one or more of these beliefs although research shows that they are not true And it s no wonder since advertising and some among the media promote these and many more questionable notions Although our creative problem solving capacity is what has made humans the successful species we are our brains are prone to certain kinds of errors that only careful critical thinking can correct This enlightening book discusses how to recognize faulty thinking and develop the necessary skills to become a more effective problem solver Author Thomas Kida identifies the six pack of problems that leads many of us unconsciously to accept false ideas We prefer stories to statistics We seek to confirm not to question our ideas We rarely appreciate the role of chance and coincidence in shaping events We sometimes misperceive the world around us We tend to oversimplify our thinking Our memories are often inaccurate Kida vividly illustrates these tendencies with numerous examples that demonstrate how easily we can be fooled into believing something that isn t true In a complex society where success in all facets of life often requires the ability to evaluate the validity of many conflicting claims the critical thinking skills examined in this informative and engaging book will prove invaluable
