S. Harrison, 2002-04-08 Julie L Davis and Suzanne Harrison Today's corporations are always on the lookout for exciting new and innovative ideas that can be used to generate revenue. Up until recently this meant taking these ideas and turning them into products or services which could then be sold for profit. But today a unique new concept is revolutionizing the way companies are getting value from ideas. Instead of incorporating them into products or services today's innovations may be bartered, licensed or sold in the idea stage for tremendous amounts of money. For example IBM currently receives well over 1 billion in revenue every year from licensing its intellectual property unrelated to the manufacture of a single product. Today more and more companies are adopting this idea of turning their legal departments where intellectual property is housed from cost centers into profit centers.

Edison in the Boardroom: How Leading Companies Realize Value from Their Intellectual Assets takes an in-depth look at the revolutionary concept of Intellectual Asset Management (IAM). IAM is changing the way companies all over the world are doing business. In their careers as business consultants the authors have been privileged to meet individuals who were clearly ahead of their time when it came to realizing value from their companies' innovations. Based on their interactions with the ICM Gathering, an international group of companies who meet several times a year to create, define and benchmark best practices in the area of IAM, the authors have compiled a wealth of knowledge and successful stories that illustrate how far businesses have come in their ability to leverage and monetize their intellectual assets. Incorporating stories and teachings from some of the most successful companies in the world such as Hewlett Packard, IBM, Procter & Gamble, Rockwell, Dow, Ford and many others, the authors have made an exhaustive study of IAM and its implications for today's businesses. They have culled a hierarchy of best practices that today's companies can integrate into their own business philosophies to gain the best return from their intellectual assets. *Edison in the Boardroom Revisited* Suzanne S. Harrison, Patrick H. Sullivan, 2011-10-31 A revised and expanded edition of the groundbreaking *Edison in the Boardroom* highlighting the winning strategies today's biggest companies use to maximize the value of their intellectual property. Now fully revised and expanded *Edison in the Boardroom Second Edition* takes an in-depth look at the revolutionary concept of intellectual asset management (IAM). Incorporating stories and teachings from some of the most successful companies in the world such as Hewlett Packard, IBM, Procter & Gamble, Rockwell, Dow, Ford and many others, Harrison and Sullivan have made an exhaustive study of IAM and its implications for today's businesses. Features updated interviews of companies and a new treatment of the Profit Center Level. Updates stories and teachings from some of the most successful companies in the world. Showcases a hierarchy of best practices that today's companies can integrate into their own business philosophies to gain the best return from their intellectual assets. *Edison in the Boardroom Second Edition* compiles a wealth of knowledge and successful stories that illustrate how far businesses have come in their ability to leverage and monetize their intellectual assets. Proactive Law for Managers George Siedel, Helena Haapio, 2016-04-22 Savvy managers no longer look at contracts and the law reactively but use them proactively to reduce their costs, minimize their risks, secure key talent, collaborate to

innovate protect intellectual property and create value for their customers that is superior to that offered by competitors To achieve competitive advantage in this way managers need a plan Proactive Law for Managers provides this plan The Manager s Legal Plan™ George Siedel and Helena Haapio first discuss the traditional reactive approach used by many managers when confronted with the law then contrast it with a proactive approach that enables the law and managers legal capabilities to be used to prevent problems promote successful business and achieve competitive advantage Proactive Law for Managers shows how to use contracts and the law to create new value and innovate in often neglected areas and implement ideas in a profitable manner
