Education Christianity And The State:

Education, Christianity, and the State John Gresham Machen, 2004-01-01 J Gresham Machen Professor of New Testament at Princeton Theological Seminary and founder of Westminster Theological Seminary and the Orthodox Presbyterian Church appeared before a Joint Committee of Congress in 1926 to testify in opposition to a federal Department of Education His foresight and his defense of Christian schools is more needed today than it was at the beginning of the twentieth century These essays and speeches offer a solid defense of Christian education Publisher **The State and Education** William Oxley Thompson, 1901 A Christian Vision for State Education Trevor Cooling, 1994 The role of religion in schools is an ideological battleground Traditionalists who wish Christianity to predominate seek to use the law in an effort to break the grip of the Liberals whose pluralist vision has predominated This title exposes the inadequacies of both groups showing how each seeks to impose its own theological agenda on the State education system The author then develops an approach which respects the plurality of faiths in Britain and the real differences between them while upholding the pursuit of truth

Encyclopedia of Christian Education George Thomas Kurian, Mark A. Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church As a result Christian education remains one of the largest and oldest continuously functioning educational systems in the world comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries In The Encyclopedia of Christian Education contributors explore the many facets of Christian education in terms of its impact on curriculum literacy teacher training outcomes and professional standards This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy home schooling Sunday schools women s education graded schools compulsory education of the deaf and blind and kindergarten With an editorial advisory board of more than 30 distinguished scholars and five consulting editors The Encyclopedia of Christian Education contains more than 1 200 entries by 400 contributors from 75 countries These volumes covers a vast range of topics from Christian education History spanning from the church s founding through the Middle Ages to the modern day Denominational and institutional profiles Intellectual traditions in Christian education Biblical and theological frameworks curricula missions adolescent and higher education theological training and Christian pedagogy Biographies of distinguished Christian educators This work is ideal for scholars of both the history of Christianity and education as well as researchers and students of contemporary Christianity and modern religious education **The Christian State** Friedrich Julius Stahl, 2025-12-10 We live in an age of willful deception Deception that extends to the foundations of our modern social arrangement We congratulate ourselves slap ourselves on the back while looking down on our benighted forebears We have come so far The first deception concerns what is called freedom of religion We continually preen ourselves about the freedom we think we have the freedom to believe

whatever we want or indeed to believe nothing at all And then our tolerance Aren't we tolerant Our Western societies are by far the most tolerant to have ever existed We make room for differences of opinion and differences of belief without penalizing those who think or believe differently from ourselves At least these are the myths around which our society is structured But they simply don't hold water Freedom of religion turns out to be freedom from religion or even worse carte blanche for secular religion the religion of humanity to establish itself as a de facto public faith allowing of no rivals Case in point if Christians stand up and demand that their religious beliefs find reflection in public life they find themselves beaten down by the charge of intolerance And that is the other deception The requirement of tolerance turns out to be something quite different than advertised Tolerance turns out to mean indifference toward religion and indeed any form of objective truth In fact it means the intolerance of objective truth The only thing we are to be tolerant of it turns out is radical subjectivism But then we find ourselves engaged in a free for all of opinions seeking power the better to impose themselves on other opinions The war against truth against reality against objective standards and values continues unabated and seems to be nearing its peak But truth and reality have a nasty habit of avenging themselves on the false and the delusional Stahl's book provides a dose of just such truth and reality It is a salutary antidote to that calamitous trend Written when these matters were just beginning to establish their hegemony across Western civilization it reads as if it could have been written today And the solutions it offers are likewise every bit as relevant as they were in 1847 and 1855 and 1856 when it was written
