Henry,2005-08 To measure the impact of a minister s preaching one must first examine the societal context in which the ministry took place For example what would lead a minister of the Gospel to roar from the pulpit as did Joseph Parker of City Temple London God damn the Sultan The first section of The Golden Age of Preaching is given to the study of the times in which nine prominent British preachers ministered Understanding the times helps one to comprehend why crowds flocked to hear these men preach and why their sermons were printed in newspapers on Monday Furthermore to assess the preaching of a man one needs to take into account the life and manner of the man himself The Men Who Moved the Masses includes biographical sketches of nine selected preachers Alexander McLaren Robert William Dale Henry Parry

Liddon at St Paul s London Joseph Parker Charles Haddon Spurgeon Alexander Whyte Frederick Brotherton Meyer John Henry Jowett and George Campbell Morgan These were men though hampered by various medical problems and personality shortcomings who led thousands to faith in their day The final section attempts to answer the question Why by identifying those homiletical characteristics of their preaching which they had in common resulting in such uncommon impact upon the masses Those qualities are not confined to their era alone They are perpetual applicable to any age to any culture Preachers and seminarians who dare to sit at the feet and learn from these preaching giants of the past will find their own preaching power lifted onto a new plain to the benefit of all who hear them **The Golden Age of Steam** Alex Sharkey,2020-09-30

The romance with the age of steam and the steam locomotives that revolutionised industry travel and even holidays in the latter part of the 19th century are featured in this book from the development of Richard Trevithick s first working locomotive and Stephenson s Rocket to the iconic engines of the 20th century The Great Western Railway GWR was a crucial part in the growth of steam along with the LNER LMS Southern and Settle Carlisle lines The trains themselves are of course the vital ingredient and some of the classics are highlighted including Evening Star Duchess of Hamilton City of Truro Flying Scotsman and Mallard Despite the demise of steam in the 1950s and 1960s many locomotives have survived thanks to the dedicated volunteers on preservation railways both in the UK and across the globe Scenic journeys available via steam today are also discovered while captivating pictures provide a backdrop for this interesting story **Chain Stores in the Golden**

Age of the British High Street Kathryn A Morrison,2025-05-08 Familiar multiples like Boots Burton s Marks Spencer and Woolworth s plus a host of smaller chains forged the character of Britain s high streets in the late 19th and 20th centuries Multiple retailing was a supremely successful phenomenon loved by thrifty shoppers but feared by independent competitors It is explored here through the lens of its shops and stores which are generously illustrated with archive and modern photographs These range from the Edwardian grandeur of Boots to the Art Deco splendour of Burton s and the utilitarian post war buildings of Littlewoods Smaller chains are not neglected even if all that survives are weathered signs or mosaic pavements The time is ripe for a study of chain stores Britain s retail giants have been under scrutiny since the shocking collapse of Woolworth s in 2009 followed by BHS in 2016 Online shopping was already undermining bricks and mortar retailing when the COVID pandemic struck in 2020 accelerating the process The recent demise of Debenhams Arcadia Wilko and others leaves vast empty premises in town centres nationwide Our high streets are changing but their legacy of chain store buildings can play a constructive role in repurposing them for future generations The Golden Age Chris

Murray,Elizabeth Rogers,Jeffrey W. Smith,2016-09-23 This volume investigates the diverse applications and conceptions of the term The Golden Age The phrase resonates with the theme of nostalgia which is popularly understood as a wistful longing for the past but which also denotes homesickness and the unrecoverability of the past While the term Golden Age typically conjures up idealised visions of the past and gestures forward to utopian visions of future golden ages the idea of

nostalgia is suggestive of a discontented present The Golden Age and nostalgia are therefore related ideas but are also partly in conflict with one another as many nostalgic sentiments are not idealised and may indeed be dark ironic or self aware There are of course many other ways to characterise the relationship between the Golden Age and nostalgia and the tension between the two can produce myths and romantic idylls or in religious terms images of prelapsarian innocence or dogmas relating to values associated with childhood The Golden Age is also often used to refer to specific respected periods of cultural production in all kinds of literature and visual media Indeed nearly every period genre nation and cultural form has some kind of mythic often illusory Golden Age against which it is defined and in which nostalgia often plays a part This collection interrogates the notion of the Golden Age and its connection to feelings of nostalgia from a range of interdisciplinary perspectives with a strong focus on the relationship between word and image It will interest scholars working on the subject of the Golden Age nostalgia particularly in English literature film studies comics studies history and the fine arts

The Golden Age of Speedway Philip Dalling, Reg Pearman, 2011-03-09 The post war era was British speedway's golden age Ten million spectators passed through the turnstiles of a record number of tracks at the sport's peak With league gates as high as 80 000 speedway offered a colourful means of escape from the grim austerity of the times A determinedly clean image with no betting and rival fans mingling on the terraces made speedway the family night out of choice The sport thrived despite punitive taxation and Government threats to close down the speedways as a threat to industrial productivity A three division National League stretched from Exeter to Edinburgh and the World Championship Final attracted a capacity audience to Wembley Test matches against Australia provided yet another international dimension Even at the height of its popularity speedway was a sporting edifice built on unstable foundations which crumbled alarmingly as the 1950s dawned and Britain's economic and social recovery brought competing attractions like television

The Golden Age of Pinehurst Lee Pace, 2012-11-15 One of the finest golf courses in America in the early 1900s was the revered Pinehurst No 2 designed by the legendary Donald Ross and first opened in 1907 Physically and mentally demanding the course gave players options on every hole and required them to envision and execute recovery shots from the sandy perimeters and the pine forests as well as think creatively around the intricate greens As a result No 2 became a favorite of the nation's top amateurs and professionals Unfortunately a modernization of the course over the last four decades stripped it of much of its character In *The Golden Age of Pinehurst* Lee Pace chronicles the breathtaking restoration of No 2 from its recent slick and monochromatic presentation back to a natural potpourri of hardpan sand wire grass and Sandhills pine needles The restored No 2 accessible for amateur play yet challenging enough for the professional once again stands apart for its beauty strategic appeal and Old World flavor
