The Works of the Edmund Burke v.02 Edmund Burke,2020-01-02 The following speech has been much the subject of conversation and the desire of having it printed was last summer very general The means of gratifying the public curiosity were obligingly furnished from the notes of some gentlemen members of the last Parliament This piece has been for some months ready for the press But a delicacy possibly over scrupulous has delayed the publication to this time The friends of administration have been used to attribute a great deal of the opposition to their measures in America to the writings published in England The editor of this speech kept it back until all the measures of government have had their full operation and can be no longer affected if ever they could have been affected by any publication Most readers will recollect the uncommon pains taken at the beginning of the last session of the last Parliament and indeed during the whole course of it to asperse the characters and decry the measures of those who were supposed to be friends to America in order to weaken the effect of their opposition to the acts of rigor then preparing against the colonies The speech contains a full refutation of the charges against that party with which Mr Burke has all along acted In doing this he has taken a review of the effects of all the schemes which have been successively adopted in the government of the plantations The subject is interesting the matters of information various and important and the publication at this time the editor hopes will not be thought unseasonable
