provide education to all children?**

Education And The Global Concern

M. J. Frazer,A. Kornhauser

Education And The Global Concern:

Education as a Global Concern Colin Brock, 2011-02-17 This is an engaging discussion about the functions of education drawing on a range of educational situations Education as a Global Concern introduces the issues covered by this exciting new series Education as a Humanitarian Response Colin Brock challenges the existing functions of education as widely and conventionally perceived and promotes the notion of education as a humanitarian response as the prime function He will examine the educational situations of a range of human groups that are marginalized or excluded from mainstream provision and will also consider the idea that humane means appropriate This series presents an authoritative coherent and focused collection of texts to introduce and promote the notion of education as a humanitarian response as a prime function of educational activity The series takes a holistic interpretation of education dealing not only with formal schooling and other systemic provisions in the mainstream but rather with educational reality teaching and learning in whatever form it comes at any age

Education and the Global Concern Torsten Husen, 1990 This book focuses on the school as an institution its problems in a modern highly industrialised society In such a society formal education has become an increasingly important asset in the life career of an individual the economic development of society

Education and the Global Concern Torsten Husén, 1990 This book focuses on the school as an institution and its problems in a modern highly industrialised society In such a society formal education has become an increasingly important asset in the life career of an individual and the economic development of society The essays were chosen for their relevance to processes of educational change and innovation their initiation and the role played by research The first part aims to identify the problems and describe their settings The second part takes up the role of research and what it can and cannot achieve The third part discusses strategies of educational reform and in particular their social and political ramifications

Education for Citizenship in Times of Global Challenge Wolfram Schulz, John Ainley, Julian Fraillon, Bruno Losito, Gabriella Agrusti, Valeria Damiani, Tim

Friedman, 2024-10-25 This open access book investigates the ways in which young people around the world are prepared to undertake their roles as citizens It presents the international results from the third cycle of the study IEA's International Civic and Citizenship Education Study ICCS 2022 Based on data from 24 countries or benchmarking participants from Europe Latin America and Asia ICCS 2022 studies contexts for and learning outcomes of civic and citizenship education in a wide range of national contexts at the beginning of the third decade of the 21st Century It responds to both enduring and emerging challenges of educating young people in a world where contexts of democracy and civic participation continue to change The study addresses issues related to young people's engagement through digital technologies migration and diversity perceptions of the political system global citizenship and education for sustainable development Further it contains data that reflects civic related aspects of recent developments such as students' perceptions of restrictions in response to national emergencies and their trust in scientists Over the past 50 years the IEA has conducted comparative research studies

in a range of domains focusing on educational policies practices and outcomes in many countries around the world Prior to ICCS 2022 the IEA had conducted four international comparative studies of civic and citizenship education with a first survey implemented in 1971 a second in 1999 a third in 2009 and a fourth in 2016 ICCS 2022 data allows education systems to evaluate the strengths of educational policies from a comparative perspective and to measure progress in achieving critical social objectives of their educational policy agendas

Global Issues and Comparative Education Wendy Bignold, Liz Gayton, 2009-06-30 Almost every Education Studies degree includes an element of comparative education and this book provides an accessible undergraduate level introduction to the theme It begins by defining what is meant by the term comparative education and examines the benefits of studying it to students policy makers educators and academics The book then takes a largely age phase approach with a comparative analysis of selected education systems from around the world including the impact of globalisation

Education Around the World Colin Brock, Nafsika Alexiadou, 2013-04-11 A concise comparative introduction to education in each major geographical region of the world and the major issues in international education today

Contemporary Issues in Multicultural and Global Education Msengi, Clementine M., Lartey, Grace K., Sprott, Katherine R., 2022-05-13 In response to the COVID 19 pandemic many educational institutions across the globe had to close in person learning and turn to online learning Previous predictions on the future of education discussed the globalization of education through online learning that breaks down geographical barriers However many students parents and educators are still finding it challenging to adapt to new methods of instruction Creating global and multicultural classrooms creates additional challenges especially when considering diverse at risk and low income student populations Further study of these challenges is required to improve the future of global education Contemporary Issues in Multicultural and Global Education discusses research strategies best practices and insights dealing with important issues related to multicultural and global education Covering topics such as remote learning and sustainable leadership this premier reference source is ideal for educators policymakers administrators curriculum designers researchers academicians and students

Digital Teaching and Learning: Perspectives for English Language Education Christiane Lütge, Thorsten Merse, 2021-03-29 The ongoing digitalization of social environments and personal lifeworlds has made it crucial to pinpoint the possibilities of digital teaching and learning also in the context of English language education This book offers university students trainee teachers in service teachers and teacher educators an in depth exploration of the intricate relationship between English language education and digital teaching and learning Located at the intersection of research theory and teaching practice it thoroughly legitimizes the use of digital media in English language education and provides concrete scenarios for their competence oriented and task based classroom use

Global Learning and Education Andrew Peterson, Paul Warwick, 2014-10-24 What is globalisation How are its effects felt by different people across the world How can we help young people flourish in a world characterised by globalisation Conflict poverty breaches of human rights and

environmental sustainability are everyday issues for global citizens today old and young Global Learning and Education presents a detailed and challenging introduction to a central concern facing education systems and curricula around the world How young people understand and experience globalisation and how meaningful global learning can be developed Encouraging a critical and reflective approach in order to advance understanding of a range of theoretical and practical factors it considers the meaning and definitions of globalisation global citizenship and global education Global Learning and Education explores key issues including interconnectedness and interdependency cultural diversity social justice and sustainable development It considers how global learning should and can imbue all aspects of education within curriculum subjects through project based learning and through extra curricular activities that help students participate and engage in global issues It argues the importance of the mission and ethos of a school itself of shaping global learning for different educational contexts and of ensuring teaching and learning meets the needs of individual learners Global Learning and Education is a comprehensive thought provoking sometimes contentious introduction for educationalists concerned with what globalisation means for our young people Illustrated throughout with case studies that seek to inspire creativity and hope and including questions and suggested reading for further investigation it is essential reading for all those involved in the teaching and learning of young people as well as those studying this vital topic on Education Studies and Masters level courses

Rethinking Education in Light of Global Challenges Karen Bjerg Petersen, Kerstin von Brömssen, Gro Helledatter Jacobsen, Jesper Garsdal, Michael Paulsen, Oleg Koefoed, 2021-11-24 Rethinking Education in Light of Global Challenges discusses challenges to education in Scandinavian welfare states due to global trends like migration neoliberal strategies and the exploitation of nature This anthology comprises case studies theoretical articles and reflective studies grouped under the headings of Culture Society and the Anthropocene This book directly addresses three interrelated global events and their implications for education as seen from Scandinavian perspectives migration flows increased cultural diversity and post nationalism the erosion of the welfare state and the global rise of neoliberalism and the Anthropocene and environmental challenges arising in the wake of the global exploitation of natural ecosystems In case studies theoretical articles and reflective studies researchers from Nordic countries explore how education education policy and educational thinking in these countries are affected by these global trends bringing to the fore the different roles education can play in addressing the various issues and different ways of reimagining education This authoritative volume will be of great interest to researchers academics and students in the fields of sociology of education migration and education environmental education and educational politics

[Visioning Higher Education for Contemporary Global Challenges](#) Peter H. Koehn, Phyllis Bo-yuen Ngai, Juha I. Uitto, 2024-12-12 Visioning presents a roadmap for university leaders to vitalize higher education in response to global problems It addresses structural programmatic and curricular gaps in ways designed to prepare current and future generations for unfolding socio ecological challenges The book introduces five urgent and

interconnected global challenges sustainable development climate change migration global health and social justice demanding attention from higher education institutions worldwide Each of these five chapters explores the challenge and then shifts focus to the needed roles of forward looking higher education institutions These roles include building critical consciousness developing competencies inspiring global actions exercising leadership at all levels conducting evaluations and undertaking innovative initiatives The book also proposes three specific initiatives 1 creation of linked academic Centers for Contemporary Global Challenges 2 establishment of South North Higher Education Consortia and 3 initiation of a Global Challenges Corps supported by transnational competence preparation It also provides an evaluation methodology to assess the traction of the proposed educational vision The concluding chapter offers a pathway to fill existing programmatic gaps and equip future generations to address global challenges This authoritative and insightful book is essential reading for university leaders educators and learners worldwide It provides practical strategies and a future preparatory vision for universities to address rising global challenges

American Education, 1978 **Global Inequalities and Higher Education** Elaine Unterhalter, Vincent Carpentier, 2010-06-16 Examines how higher education has contributed to widening inequalities and might contribute to change By exploring questions of access finance and pedagogy it considers global higher education as a space for understanding the promises and pressures associated with competing demands for economic growth equity sustainability and democracy

Contesting and Constructing International Perspectives in Global Education R. Reynolds, D. Bradbery, J. Brown, K. Carroll, D. Donnelly, K. Ferguson-Patrick, S. Macqueen, 2015-02-27 This volume addresses the need for an international perspective on global education and provides alternate voices to the theme of global education The editors asked international educators in different contexts to indicate how their own experience of global education addresses the broad and contested concepts associated with this notion Following the lead of the internationally acknowledged authors from North America Europe Africa Australia and Asia perspectives were provided on a wide variety of contexts including tertiary education and teacher education various pedagogies for global education including digital pedagogies and curriculum development at school tertiary and community levels Contesting and Constructing International Perspectives in Global Education explores the tensions inherent in discussions of global education from a number of facets including spatial pedagogical temporal social and cultural and provides critical descriptive and values laden interpretations The book is divided into five sections Temporal and Spatial Views of Global Education Telling National Stories of Global Education Empowering Citizens for Global Education Deconstructing Global Education and Transforming Curricula for Global Education It is envisaged as a starting point for a stronger international conception of global education and a way to build a conversation for the future of global education in a neo liberal and less internationally confident time

Education for America's Role in World Affairs John Fonte, André Ryerson, 1994 This collection of carefully argued essays examines what American students should know about world affairs in the post cold war era The issues which are examined are those

that will continue to be debated as our schools prepare for the next century The authors probe the complex and sometimes contradictory claims of global peace multicultural and citizenship education They offer prescriptions for change based on a strong academic core of history international relations government economics and geography with the presumption of values consistent with America's democratic ideals Contents Foreword Chester E Finn Jr Introduction John Fonte and Andre Ryerson A Brief History of Pre Collegiate Global and International Studies Education Andrew Smith Global Education and Controversy Some Observations Robert Fullinwider Teaching About the World and Our Nation's Heritage The Relationship Between International Education and Education for American Citizenship John Fonte Implications of the New Demographics and the Information Explosion for International Education Herbert London International Education The Search for Subject Gilbert T Sewall International Studies in the School Curriculum Diane Ravitch Geography's Role in International Education Raymond English China Case Study of Textbook Failures Andre Ryerson What American Students Should Know About the World Owen Harris Conclusion John Fonte and Andre Ryerson Bibliography Addendum Index

Computer-Mediated Communication: Issues and Approaches in Education Kelsey, Sigrid, St. Amant, Kirk, 2011-10-31 This book examines online interactions from different national cultural linguistic legal and economic perspectives exploring how the increasingly international and intercultural Internet affects the ways users present ideas exchange information and conduct discussions online Provided by publisher *Resources in Education*, 2000-04

Regional Contexts and Citizenship Education in Asia and Europe Kerry J. Kennedy, Andreas Brunold, 2015-10-05 This book is concerned with the social and political aspects of regional groupings particularly how citizenship education fares in regional contexts The European Union EU has revolutionised its political and economic aims into more encompassing social and political goals The Association of Southeast Asian Nations ASEAN on the other hand is still moving towards fuller integration in social and economic terms as South East Asian nations seek a greater role on the global stage and particularly in the global economy Both the EU and ASEAN have drawn up educational frameworks that collectively work to harness educational achievements which in turn work to fulfill social and economic objectives at the regional level This book portrays citizenship issues affecting the two regions and describes the way citizenship education can reflect and address these issues Case studies on EU and ASEAN member countries make up the book's two parts which analyse among other issues The Changing Landscape of Citizenship Education in England Political Didactics and Political Education in Germany Rethinking a Conceptual Framework for Citizenship Education in ASEAN Countries Education for ASEANness A tool to build an ASEAN community This book explores new ideas on citizenship and comparative education in regional contexts and will be of interest to researchers concerned with the impact of regionalism on social development and to citizenship educators studying the influence of contexts on the construction of citizenship education

Ethics and Social Responsibility in Science Education M. J. Frazer, A. Kornhauser, 2014-05-17 Ethics and Social Responsibility in Science Education discusses the principles and approaches to the

problems of ethics and social responsibility in science education The book is divided into three parts The first part Principles and Approach explores the nature of moral education and the ethics social responsibility of science and the roles of scientists and engineers in societal issues The second part Problems and Prospects covers different social and cultural issues in relation to ethics in science such as international stability food production human experimentation medical ethics chemical pollution and energy production The third part Teaching Methodology talks about the importance and styles of teaching ethics and social responsibility in science education The text is recommended for practitioners researchers and educators in the different fields of science Those who wish to know the importance of ethics in the socio cultural aspect of sciences will also find this book helpful
