## **Education And Training For Catalogers And Classifiers:**

**Education and Training for Catalogers and Classifiers** Ruth C. Carter, 1987 *Education and Training for Catalogers and Classifiers* Ruth C. Carter, 1987 Education and Training for Catalogers and Classifiers discusses the education of librarians particularly the teaching of cataloging as part of that education It argues that relevant high quality library education and on the job training programs are necessary in preparing librarians to meet the challenges of understanding the issues of bibliographic control and relating a library's catalog to regional national and international bibliographic databases *Cataloging and Classification* James R. Shearer, Alan R. Thomas, 1997 Cataloging and Classification Trends Transformations Teaching and Training indicates and describes significant trends in cataloging and classification the practices services management principles professional education and training and employment prospects This is the resource everyone can use to keep their cataloging and classification skills sharp It gives librarians and information professionals awareness of important innovations likely to change the way they do their job enables library directors and managers to do longer range planning and provides library school faculty and students with insight into new developments and approaches with which they need to be familiar Cataloging and Classification Trends Transformations Teaching and Training will increase your awareness and insight into current developments in the field In turn this leads to an appropriate integration and exploration of technologies systems and tools better deployment of personnel and expertise more efficient and relevant user sensitive cataloging and classification faster and more effective preparation and searching of catalogs more efficient and relevant library school courses and training sequences greater appreciation by library personnel and library users of the value of catalogs and classifications Cataloging and Classification Trends Transformations Teaching and Training is presented in three main categories The Cataloger The Future of Classification Systems and New Technology and Its Implications Specific topics you'll read about include the use of vendor services and nontraditional staff for cataloging recommendations for a syndetic curricular structure the call to raise classification and subject analysis to more usable and sophisticated levels an action agenda for technical services in the digital age and an evaluation of the capabilities of OPACs made possible by advances in technology *Portraits in Cataloging and Classification* Carolynne Myall, Ruth C. Carter, 1998 Co published simultaneously as Cataloging and Classification Quarterly v 25 nos 2 3 and 4 1998 With a President who has stated that the Internet represents the way to learn in the next century what is the future of librarians and the library sciences This volume an amalgam of biography autobiography and history answers that question by looking to the past and examining the lives and achievements of pioneers in cataloging and research Annotation copyrighted by Book News Inc Portland OR Catalogers' and Classifiers' Yearbook, 1929 **Historical Aspects of Cataloging and Classification** Martin D. Joachim, 2003 Library Education and Employer Expectations E. Dale Cluff, 1990 This unique new volume considers how well new librarians are being prepared for the profession Here in one easy to reference volume are the

valuable opinions perspectives and facts of those who influence library education those who are responsible for it and those who are the recipients of it Intended for those who are considering entering the library profession professors of library and information science current students in library school and for administrators of academic school public and special libraries that employ library school graduates this comprehensive volume features chapters that are both candid and philosophical In Library Education and Employer Expectation the question of preparation is discussed from several perspectives by individuals representing various aspects of the library profession Potential employers of those with library degrees spell out their expectations of potential employees voice their views on how well library education is preparing those who choose to go into the profession and give suggestions aimed to help library educators to better meet employer expectations Persons representing academic school public law health science and state libraries as well as a major network and the archival profession are among the contributors This volume also represents the library school perspective Deans of a public and private library school explain present library education philosophy tell of specific objectives of their schools indicate the type of student they like to attract spell out constraints under which they work and indicate expectations they have of future employers of their graduates Another important dimension presented is that of the recent graduate who has been on the job for a few years These authors indicate why they decided to go into the profession detail why they chose the library school they did tell what they expected to get out of library school education and spell out how well library school prepared them for the profession Another perspective represented in Library Education and Employer Expectations is that of the accreditation body A thorough coverage of the Committee on Accreditation s role in library education is given by the Chair of the committee An issue very much associated with the topic of library education and employer expectations is that of the value of the ALA accredited degree A recent study undertaken by a librarian reports on how Association of Research Libraries directors value the ALA accredited degree for potential employees Included in the study is a summary of what appears in job ads in the professional literature about ALA accredited degree requirements
