The Montessori Method Montessori, 2014-07-02 The Montessori Method represents an explicit idealism and turn away from war and violence toward peace and reconstruction. It is built on coherent visions of how to improve human society by helping children realize their full potential as intelligent creative whole persons. In the Montessori Method children are viewed as active authors of their own development strongly influenced by natural dynamic self-righting forces within themselves opening the way toward growth and learning. Teachers depend for their work with children on carefully prepared aesthetically pleasing environments that serve as a pedagogical tool and provide strong messages about the curriculum and about respect for children. Partnering with parents is highly valued in the Montessori Method and children are evaluated by means other than traditional tests and grades

The Montessori Method - Scientific Pedagogy as Applied to Child Education Maria Montessori, 2016-08-18 In the period that has elapsed between the publication of the Italian and American editions I have had with my pupils the opportunity to simplify and render more exact certain practical details of the method and to gather additional observations concerning discipline. The results attest the vitality of the method and the necessity for an extended scientific collaboration in the near future and are embodied in two new chapters written for the American edition. I know that my method has been widely spoken of in America thanks to Mr S S McClure who has presented it through the pages of his well known magazine. Indeed many Americans have already come to Rome for the purpose of observing personally the practical application of the method in my little schools. If encouraged by this movement I may express a hope for the future it is that my work in Rome shall become the centre of an efficient and helpful collaboration. To the Harvard professors who have made my work known in America and to McClure's Magazine a mere acknowledgment of what I owe them is a barren response but it is my hope that the method itself in its effect upon the children of America may prove an adequate expression of my gratitude. Maria Montessori
