**Five Levers to Improve Learning** Tony Frontier, James Rickabaugh, 2014-01-08 Why have decades of school reform had so little measurable effect on student achievement Why have billions of dollars spent on technology small school initiatives and school choice options failed to improve our schools Too often educators are simply pulling the wrong levers say Tony Frontier and James Rickabaugh They explain that the various components of schooling fall into five categories structure sample standards strategy and self Understanding how these five levers work and their relative power can help unlock the potential for lasting improvements in teaching and learning The authors show readers that changes to structure and sample how schools are organized and how students are grouped will not be effective without changes to standards expectations for student learning strategy instructional strategies to engage students in meaningful learning and self the set of beliefs teachers and students have about their capacity to be effective At the heart of this book is a simple message for teachers administrators board members and education policymakers at all levels the key to success is not doing more work and making more changes but doing the right work and making the right changes

**Health and Behavior** H. Russell Searight, 2019-02-08 Health and Behavior A Multidisciplinary Approach recognizes that health is impacted by multiple systems ranging from the individual to the international While providing current information in common areas addressed in health psychology such as stress chronic pain cigarette smoking and sleep disorders the book examines cross cultural dimensions in wellness and health care as well as health communication ranging from clinician and patient to the social marketing models used in public health The book departs from traditional health psychology and health

behavior textbook with its attention to public policy and international dimensions of health care Topics include an international comparison of health care systems a history of health care funding in the United States including the Affordable Care Act the role of Federal Social Security Disability policy in chronic pain management international medical tourism and health care disparities in the United States Each chapter begins with a conversation with the author relating the topic to real world problems as well as the student s life experience Handbook of Research on Mobile Learning in Contemporary Classrooms Mentor, Dominic,2016-06-27

It is the responsibility of educators to utilize contemporary avenues in order to reach their students in ways familiar to them When teaching digital natives new techniques are necessary for making new information relevant to their experience One way to do this is through the use of mobile devices in curricula This integration can make education accessible anywhere and to anyone personalized to each student s schedule and needs The Handbook of Research on Mobile Learning in Contemporary Classrooms expounds the current research on m learning and strategies to leverage mobile devices in educational contexts It also addresses the importance of communication community and mobility in modern classrooms while offering a comprehensive overview of the theory and pedagogy associated with this new technology Nonprofit organizers K 12 educators administrators policy makers students of education and developers will find this book to be an important research companion **Contexts for Young Child Flourishing** Darcia Narvaez,Julia M.

Braungart-Rieker,Laura E. Miller-Graff, Lee T. Gettler,Paul D. Hastings,2016-07-01 Human beings have the most immature newborn and longest maturational schedule of any animal Only 25% of the adult brain size is developed at full term birth and most of the brain s size and volume is co constructed by caregivers in the first years of life As a result early life experience has long term effects on physiological and psychological wellbeing Contexts for Young Child Flourishing uses an evolutionary systems framing to address the conditions and contexts for child development and thriving Contributors focus on flourishing optimizing individual physiological psychological emotional and communal social community functioning Converging events make this a key time to reconsider the needs of children and their optimal development in light of increasing understanding of human evolution the early dynamism of development and how these influence developmental trajectories There is a great deal of misunderstanding both among researchers and the general public about what human beings need for optimal development As a result human nature unnecessarily can be misshaped by policies practices and beliefs that don t take into account evolved needs Empirical studies today are better able to document and map the long term effects of early deficits or early assets mostly in animal models but also through longitudinal studies An interdisciplinary set of scholars considers child flourishing in regards to issues of development childhood experience and wellbeing Scholars from neuroscience anthropology and clinical and developmental studies examine the buffering effects of optimal caregiving practices and shed light on the need for new databases new policies and altered childcare practices The Literacy of Play and Innovation Christiane Wood,2019-01-15 The Literacy of Play and Innovation provides a portrait of what innovative education looks like from a

literacy perspective Through an in depth case study of a maker school s innovative design in particular of four early childhood educator s classrooms this book demonstrates that children s inspiration curiosity and creativity is a direct result of the school environment Presenting a unique data driven model of literacy play and innovation taking the maker movement beyond STEM education this book helps readers understand literacy learning through making and the creative approaches embedded in early literacy classroom practices

**Leadership and Coherence** Nathan Harter, 2014-07-17 Leadership and Coherence investigates how leaders justify their decisions and how they bring about coherence amongst followers Taking a cognitive approach it builds on the work of Hannah Arendt to attempt a phenomenology of judgment examining how the moral imperative experienced by leaders can be shared by their community so both leader and led are guided by a mutual purpose Through biographical case studies of historical leaders this book illustrates how successful leaders operate in a turbulent world not only making their own decisions but also gathering likeminded followers to share in a common vision and shared sense of purpose
