Fetish Fantasmatique:

Oscar Wilde and the Simulacrum Giles Whiteley, 2017-07-05 Oscar Wilde is more than a name more than an author From precocious Oxford undergraduate to cause celebre of the West End of the 1890s to infamous criminal the proper name Wilde has become an event in the history of literature and culture Taking Wilde seriously as a philosopher in his own right Whiteley's groundbreaking book places his texts into their philosophical context in order to show how Wilde broke from his peers and in particular from idealism and challenges recent neo historicist readings of Wilde which seem content to limit his irruptive power Using the paradoxical concept of the simulacrum to resituate Wilde's work in relation to both his precursors and his contemporaries Whiteley's study reads Wilde through Deleuze and postmodern philosophical commentary on the simulacrum In a series of striking juxtapositions Whiteley challenges us to rethink both Oscar Wilde's aesthetics and his philosophy to take seriously both the man and the mask His philosophy of masks is revealed to figure a truth of a different kind the simulacra through which Wilde begins to develop and formulate a mature philosophy that constitutes an ethics of joy

Fabulous Identities Patricia Hannon, 2023-07-10 Fabulous Identities revises traditional interpretations of the fairy tale vogue which was dominated by salon women in the last decade of the French seventeenth century This study of women's tale narratives is set into an investigation of how aristocratic identity was transformed by political and social realignments forced by royal absolutism or ambitious materialism Women's distinctive contributions to the genre are defined by drawing upon various texts that articulated the century's moral cultural and aesthetic values as well as upon contemporary critical perspectives including seventeenth century historical and cultural studies Caught up in the philosophical political and social controversy over woman's nature seventeenth century women writers benefited from salon culture and their access to writing through the literary genres of fairy tales and novels to explore new identities and expand representations of subjectivity Women's tales can be seen as a theater for staging an authorial persona at odds with their portrait as presented in male authored didactic treatises and in the fairy tales of Charles Perrault At a time when the pressures of social conformity weighed heavily upon them the conteuses highlight through metamorphosis the affective dimension together with its impact on evolving notions of personal autonomy

Understanding Alain Robbe-Grillet Roch C. Smith, 2000 Transforming bewilderment into understanding and pleasure while preserving a sense of Robbe Grillet's considerable richness and complexity Smith elucidates the defining elements of the writer's fictional world characters that barely exist changeable narrators plots that defy logic notoriously meticulous descriptions that never quite form a complete story Smith examines Robbe Grillet's embrace of discontinuity circularity indeterminacy and linguistic play Smith also poses questions about how we should view this perplexing writer as an author of hyperobjective novels and short stories a subjective novelist a realist or a writer who undermines the narrative's claim to represent reality In addition Smith evaluates the sado erotic imagery of Robbe Grillet's middle and late novels as a metaphorical play with textual and social conventions

Reading French Psychoanalysis Dana Birksted-Breen, Sara Flanders, Alain Gibeault, 2014-01-14 How has psychoanalysis developed in France in the years since Lacan so dramatically polarized the field In this book Dana Birksted Breen and Sara Flanders of the British Psychoanalytical Society and Alain Gibeault of the Paris Psychoanalytical Society provide an overview of how French psychoanalysis has developed since Lacan Focusing primarily on the work of psychoanalysts from the French Psychoanalytical Association and from the Paris Psychoanalytical Society the two British psychoanalysts view the evolution of theory as it appears to them from the outside while the French psychoanalyst explains and elaborates from inside the French psychoanalytic discourse Seminal and representative papers have been chosen to illuminate what is special about French thinking A substantial general introduction argues in favour of the specificity of French psychoanalysis tracing its early influences and highlighting specific contemporary developments Sections are made up of introductory material by Alain Gibeault followed by illustrative papers in the following categories the history of psychoanalysis in France the pioneers and their legacy the setting and the process of psychoanalysis phantasy and representation the body and the drives masculine and feminine sexuality psychosis An excellent introduction to French psychoanalytical debate Reading French Psychoanalysis sheds a complementary light on thinking that has evolved differently in England and North America It will be ideal reading for beginners and advanced students of clinical theory as well as experienced psychoanalysts wanting to know more about

French Psychoanalytic theory and how it has developed Situated Testimonies Laurie J. Sears, 2013-06-30 The Indonesian writer Pramoedya Ananta Toer made a distinction between a downstream literary reality and an upstream historical reality. Pramoedya suggested that literature has an effect on the upstream flow of history and that it can in fact change history. In Situated Testimonies Laurie Sears illuminates this process by considering a selection of Dutch Indies and Indonesian literary works that span the twentieth century and beyond and by showing how authors like Louis Couperus and Maria Dermo t help retell and remodel history. Sears sees certain literary works as situated testimonies bringing ineffable experiences of trauma into narrative form and preserving something of the dread and enchantment that animated the past. These literary works offer a method of reading the emotional traces that historians may fail to witness or record traces that elude archival constructions where political factors or colonial conditions have influenced processes of what is preserved and how it is shaped. Sears use of Donna Haraway s notion of situatedness reiterates the idea that all of us speak from somewhere. Testimony especially eyewitness testimony is a gold standard in historical methodology and the authors of literary works are eyewitnesses of their time. But the works of authors like Tirta Adhi Soerjo and Soewarsih Djojopoespito are first of all written as literature and literary or stylistic devices cannot be ignored. Sears finds substantial evidence of the movement of psychoanalytic theories between Europe and the Indies Indonesia throughout the twentieth century. She concludes that far from being only a Jewish or European discourse psychoanalysis is a transnational discourse of desire that has influenced Indies and Indonesian writers for more than a century. Psychoanalytic ideas and the suggestion by French psychoanalyst Jean Laplanche and Indonesian author Ayu Utami that memories like literature can move us back and forth in time have inspired Sears thinking about historical archives literature and trauma. Soekarno s words haunt this book as he haunts Indonesia s past. Situated Testimonies rewrites portions of the literary and social history of Indonesia over a sweep of many decades. Historians scholars of literary theory and Indonesianists will all be interested in the book s insights on how colonial and postcolonial novels of the Indies and Indonesia illuminate nationalist narratives and imperial histories.
