Fichte's Wissenschaftslehre Of 1794:

Fichte's Wissenschaftslehre of 1794 George Joseph Seidel,1993 Seidel has done a commendable job in making Fichte accessible and interesting Choice Body Dialectics in the Age of Goethe Marianne Henn,Holger Pausch,2003 In opposition to an essentialist conceptualization the social construct of the human body in literature can be analyzed and described by means of effective methodologies that are based on Discourse Theory Theory of Cultural Transmission and Ecology System Theory and Media Theory In this perspective the body is perceived as a complex arrangement of substantiation substitution and omission depending on demands expectations and prohibitions of the dominant discourse network The term Body Dialectics stands for the attempt to decipher and for a moment freeze the web of such discursive arrangements that constitute the fictitious notion of the body in the framework of a specific historic environment here in the Age of Goethe

Aesthetic Vision and German Romanticism Brad Prager, 2007 Crosses disciplinary boundaries to explore German Romantic writing about visual experience and the interplay of text and image in Romantic epistemology The work of the groundbreaking writers and artists of German Romanticism including the writers Tieck Brentano and Eichendorff and the artists Caspar David Friedrich and Philipp Otto Runge followed from the philosophical arguments of the German Idealists who placed emphasis on exploring the subjective space of the imagination The Romantic perspective was a form of engagement with Idealist discourses especially Kant's Critique of Pure Reason and Fichte's Science of Knowledge Through an aggressive speculative reading of Kant the Romantics abandoned the binary distinction between the palpable outer world

and the ungraspable space of the mind's eye and were therefore compelled to develop new terms for understanding the distinction between internal and external. In this light Brad Prager urges a reassessment of some of Romanticism's major oppositional tropes contending that binaries such as self and other, symbol and allegory, and light and dark should be understood as alternatives to Lessing's distinction between interior and exterior worlds. Prager thus crosses the boundaries between philosophy, literature, and art history to explore German Romantic writing about visual experience, examining the interplay of text and image in the formulation of Romantic epistemology. Brad Prager is Associate Professor of German at the University of Missouri Columbia.

J.G. Fichte and the Atheism Dispute (1798-1800) Curtis Bowman, 2016-05-06

The atheism dispute is one of the most important philosophical controversies of late eighteenth and early nineteenth century Germany. Johann Gottlieb Fichte, one of the leading philosophers of the period, was accused of atheism after publishing his essay *On the Ground of Our Belief in a Divine World Governance*, which he had written in response to Karl Friedrich Forberg's essay *Development of the Concept of Religion*. Fichte argued that recognition of the moral law includes affirmation of a moral world order which he identified with God. Critics charged both Forberg and Fichte with atheism, thereby prompting Fichte to launch a public campaign of defense that included his threat to resign his position at the University of Jena if he were subjected to any government reprimand. Fichte was forced to make good this threat when his work was censured. The dispute eventually died down, but it influenced many other thinkers for years to come.

J. G. Fichte: The Atheism Dispute 1798-1800 is the first English commentary devoted solely to the atheism dispute, as well as the first English translation of collected writings from the Atheism Dispute. This book brings together many major essays and documents relating to this dispute. These include the anonymous polemic *A Father's Letter to his Student Son about Fichte's and Forberg's Atheism*, Fichte's essays *Appeal to the Public* and *Juridical Defense*, and numerous documents from the University of Jena and the ducal courts of Dresden, Weimar, and Gotha. Most of the texts are translated from German into English for the first time, and all are accompanied by full commentaries and detailed notes. Bowman and Estes bring to an English-speaking audience the full details of this controversy, which ended Fichte's career in Jena and profoundly influenced his approach to communicating philosophical and religious concepts.

Ferdinand Christian Baur and the History of Early Christianity Martin Bauspiess, Christof Landmesser, David Lincicum, 2017-02-10

Ferdinand Christian Baur (1792-1860) has been described as the greatest and at the same time the most controversial theologian in German Protestant theology since Schleiermacher. The controversy was epitomized by a nineteenth-century British critic who wrote that his theory makes of Christianity a thing of purely natural origin, calls in question the authenticity of all but a few of the New Testament books, and makes the whole collection contain not a harmonious system of divine truth but a confused mass of merely human and contradictory opinions as to the nature of the Christian religion. The contributors to this volume, however, regard Baur as an epoch-making New Testament scholar whose methods and conclusions, though superseded, have been mostly affirmed during the century, and a

half since his death This collection focuses on the history of early Christianity although as a historian of the church and theology Baur covered the entire field up to own time He combined the most exacting historical research with a theological interpretation of history influenced by Kant Schelling and Hegel The first three chapters discuss Baur's relation to Strauss M hler and Hegel Then a central core of chapters considers his historical and exegetical perspectives Judaism and Hellenism Gnosticism New Testament introduction and theology the Pauline epistles the Synoptic Gospels John the critique of miracle and the combination of absoluteness and relativity The final chapters view his influence by analyzing the reception of Baur in Britain Baur and Harnack and Baur and practical theology This work offers a multi faceted picture of his thinking which will stimulate contemporary discussion

Fichte's Theory of Subjectivity Frederick Neuhouser,1990-10-26 The first book in English to elucidate the central issues in Fichte's work

J. G. Fichte: Foundation of the Entire Wissenschaftslehre and Related Writings, 1794-95 ,2021-01-28 The Wissenschaftslehre or doctrine of science was the great achievement of the German idealist philosopher J G Fichte Daniel Breazeale presents accessible new translation of three works in which Fichte developed this philosophical system The centerpiece of this volume is a new English translation of Fichte's only full scale presentation of the principles of his philosophy the Foundation of the Entire Wissenschaftslehre 1794 95 Accompanying this are new translations of the work in which Fichte first publicly introduced his new system Concerning the Concept of the Wissenschaftslehre 1794 and the Outline of what is Distinctive of the Wissenschaftslehre with respect to the Theoretical Power 1795 which was intended as a companion to the Foundation In addition Breazeale includes the transcripts of Fichte's unpublished Zurich lectures on his system 1794 translated here for the first time in English Breazeale supplements his translations with an extensive historical and systematic introduction detailed outlines of the contents and structure of the Foundation and Outline and copious scholarly annotation of the translated texts helping to orient readers who may otherwise find themselves lost in the wilderness of Fichte's complex derivations

Recognition Robert R. Williams,1992-01-01

The Philosophical Rupture between Fichte and Schelling J. G. Fichte,F. W. J. Schelling,2012-03-23 The disputes of philosophers provide a place to view their positions and arguments in a tightly focused way and also in a manner that is infused with human temperaments and passions Fichte and Schelling had been perceived as partners in the cause of Criticism or transcendental idealism since 1794 but upon Fichte's departure from Jena in 1799 each began to perceive a drift in their fundamental interests and allegiances Schelling's philosophy of nature seemed to move him toward a realistic philosophy while Fichte's interests in the origin of personal consciousness intersubjectivity and the ultimate determination of the agent's moral will moved him to explore what he called faith in one popular text or a theory of an intelligible world This volume brings together the letters the two philosophers exchanged between 1800 and 1802 and the texts that each penned with the other in mind

Philosophies of Nature After Schelling Iain Hamilton Grant,2008-12-23 A lucid and crucial account of Schelling's major works in the philosophy of nature now available in paperback

The Difference Between Fichte's

and Schelling's System of Philosophy G.W.F. Hegel, 1988-03-04 In this essay Hegel attempted to show how Fichte's Science of Knowledge was an advance from the position of Kant in the Critique of Pure Reason and how Schelling and incidentally Hegel himself had made a further advance from the position of Fichte Hegel finds the idealism of Fichte too abstractly subjective and formalistic and he tries to show how Schelling's philosophy of nature is the remedy for these weaknesses But the most important philosophical content of the essay is probably to be found in his general introduction to these critical efforts where he deals with a number of problems about philosophical method in a way which is of general interest to philosophers and not merely interesting to those who accept the Hegelian dialectic method which grew out of these first beginnings Finally the Difference essay is important in the development of Nature Philosophy as a movement in the history of science
