Kirdar,2013-11-27 It is becoming increasingly evident that the existence together in a diminishing world of rich nations and very poor nations is the critical problem of our time and indeed other questions of international relations are rapidly taking on the appearance of being merely aspects of this central crux According to some authorities it may only be a matter of a few years before the food and population question takes on such alarming proportions as to make our present troubles on the international scene seem slight by comparison It is only against this background that we can fully appreciate the significance of the United Nations institutions and procedures for the mediation of aid whether financial or technical to developing countries and indeed also for the flow of credit and skills between countries generally for few nations or none belong wholly to one side in this matter and the whole question is one that vitally affects the immediate futures of every one of the members of the international community **Report to the United Nations on the Administration of the Trust Territory of the Pacific Islands, Transmitted by the United States of America** United States. Department of State,1951 *Managing Overseas Personnel* United States Civil Service Commission. Library,1970 *Legal problems arising from the United Nations military operations in the Congo* R. Simmonds,2012-12-06 Few episodes in recent history have aroused as much controversy as the United Nations military operations in the Congo This controversy has no simple straight forward and uniform explanation Part of the explanation is to be found in the successes and failure of the operation itself part in its labyrinthine international ramifications But the most important explanation lies in its significance as a precedent The ability of the Organization to take collective measures to maintain law and order within the territory of a Member State albeit as a means of preserving international peace was demonstrated challenged and criticized So much has been reported of the details and so varied has been the commentary that only the most intrepid spirit would venture something more with which to detain interested parties The present study does not pretend to uncover new data so as to complete or correct the historical record it attempts rather to reflect on what has already been brought out and against that background of factual knowledge to indicate and examine the legal problems involved In so doing it has been necessary to be ruthless in deciding what are central issues and in rejecting what is often interesting but probably peripheral **Report to the United Nations on the Administration of the Trust Territory of the Pacific Islands** United States.
