Lost ,      In Search of the Afropolitan Eva Rask Knudsen,Ulla Rahbek,2016-07-18 In Search of the Afropolitan explores human encounters and moments that speak to the challenges of being a 21st century African of the world Against the background of an engaging evaluation of the heated debate on Afropolitanism and what constitutes an Afropolitan the authors turn to literature and its intrinsic capacity for unfolding the human figure of the African as inherently complex and multidimensional Through a detailed probing of the Afropolitan in literary narratives the book enters into conversations about self understanding and the signification of Africa in the contexts of global mobility The book conceives of

Afropolitanism as a flexible space of inquiry that curbs the inclination to set the definition of the ism in stone Instead it attempts to distil through close up character analyses a multifarious sense of what it means to be Afropolitan in the contemporary moment In that sense the encounters we come across in the literary narratives produce unexpected ontological negotiations on what it means to be African in the world today As a special feature of In Search of the Afropolitan the authors conversations with prominent writers thinkers and critics provide a lively context for the ongoing debate on Afropolitanism and the Afropolitan

Shrink Tim Suttle,2014-09-02 Among followers of Jesus, great is often the enemy of good. The drive to be great, to be a success by the standards of the world, often crowds out the qualities of goodness, virtue, and faithfulness that should define the central focus of Christian leadership. In the culture of today's church, successful leadership is often judged by what works, while persistent faithfulness takes a back seat. If a ministry doesn't produce results, it is dropped. If people don't respond, we move on. This pursuit of greatness exerts a crushing pressure on the local church and creates a consuming anxiety in its leaders. In their pursuit of this warped vision of greatness, church leaders end up embracing a leadership narrative that runs counter to the sacrificial call of the gospel story. When church leaders focus on faithfulness to God and the gospel, however, it's always a kingdom win, regardless of the visible results of their ministry. John the Baptist modeled this kind of leadership. As John's disciples crossed the Jordan River to follow after Jesus, John freely released them to a greater calling than following him. Speaking of Jesus, John said, "He must increase, but I must decrease." Joyfully satisfied to have been faithful to his calling, John knew that the size and scope of his ministry would be determined by the will of the Father, not his own will. Following the example of John the Baptist and with a careful look at the teaching of Scripture, Tim Suttle dares church leaders to risk failure by chasing the vision God has given them, no matter how small it might seem, instead of pursuing the broad path of pragmatism that leads to fame and numerical success.

*Branding Berlin* Katrina Sark,2023-07-21 This book is a cultural history of post-Wall urban, social, political, and cultural transformations in Berlin. *Branding Berlin: From Division to the Cultural Capital of Europe* presents a cultural analysis of Berlin's cultural production, including literature, film, memoirs, and non-fiction works, art, media, urban branding campaigns, and cultural diversity initiatives put forth by the Berlin Senate, and allows readers to understand the various changes that transformed the formerly divided city of voids into a hip cultural capital. The book examines Berlin's branding, urban economic development, and its search for a post-Wall identity by focusing on manifestations of nostalgic longing in documentary films and other cultural products. Building on the sociological research of urban branding and linking it with an interpretive analysis of cultural products generated in Berlin during that time, the author examines the intersections and tensions between the nostalgic views of the past and the branded images of Berlin's present and future. This insightful and innovative work will interest scholars and students of cultural and media studies, branding and advertising, urban communication, film studies,

visual culture tourism and cultural memory      *River of Shadows* Rebecca Solnit, 2004-03-02 A New York Times Notable Book Winner of the National Book Critics Circle Award for Criticism The Mark Lynton History Prize and the Sally Hacker Prize for the History of Technology A panoramic vision of cultural change The New York Times Through the story of the pioneering photographer Eadweard Muybridge the author of *Orwell's Roses* explores what it was about California in the late 19th century that enabled it to become such a center of technological and cultural innovation The world as we know it today began in California in the late 1800s and Eadweard Muybridge had a lot to do with it This striking assertion is at the heart of Rebecca Solnit's new book which weaves together biography history and fascinating insights into art and technology to create a boldly original portrait of America on the threshold of modernity The story of Muybridge who in 1872 succeeded in capturing high speed motion photographically becomes a lens for a larger story about the acceleration and industrialization of everyday life Solnit shows how the peculiar freedoms and opportunities of post Civil War California led directly to the two industries Hollywood and Silicon Valley that have most powerfully defined contemporary society      **Arts-Based Methods**

Coleman, 2020-08-12 An award winning environmental historian explores American history through wrenching tragic and sometimes humorous stories of getting lost The human species has a propensity for getting lost The American people

inhabiting a mental landscape shaped by their attempts to plant roots and to break free are no exception In this engaging book environmental historian Jon Coleman bypasses the trailblazers so often described in American history to follow instead the strays and drifters who went missing From Hernando de Soto's failed quest for riches in the American southeast to the recent trend of getting lost as a therapeutic escape from modernity this book details a unique history of location and movement as well as the confrontations that occur when our physical and mental conceptions of space become disjointed Whether we get lost in the woods the plains or the digital grid Coleman argues that getting lost allows us to see wilderness anew and connect with generations across five centuries to discover a surprising and edgy American identity
