*Field Guide to the Wild Flowers of the Highveld* Braam Van Wyk, Sasa Malan, 1997 This field guide focuses on the wild flowers of the Highveld and surrounding areas. Designed as a practical identification handbook, it aims to help nature lovers in the field identify the various wild flowers they encounter. The 763 species described in this book are divided into six colour groups so that colour is the first clue to the flower's identity. Within the colour group, the species are organized into families, each defined by its diagnostic characters. Flowers occurring in more than one colour group can be found in each relevant group.

**Butterflies of the Kruger National Park and Surrounds** Herbert Otto, 2014-07-23 *Butterflies of the Kruger National Park and Surrounds* enables identification of these colourful creatures and hopes to promote general interest in the natural world. A lavish and fascinating introduction raises topics such as classification of Lepidoptera, butterfly behavior, names, biology, and life cycle, flower adaptations, larval host plants, etc. Each family is first described, then the subfamily, followed by the genus, and finally the species. Each of the known KNP butterfly species is dealt with on its own page with its common and scientific names, life history, etymology, and larval host plants. On the opposite page is a gallery of photographs of the butterfly in its environment, often complemented with life cycle and larval host plant photographs. A distribution map is provided for each butterfly species, with red dots indicating KNP rest camps where the butterfly is found, and a pie chart showing the butterfly's status, how rare or how common it is.

*Wild Flowers of South Africa* J. P. Rourke, 1996 South Africa's floral heritage, one of the richest in the world, continues to capture the excited attention of botanists and laymen. Like the land itself, its flora provides an abundance of contrasts, from the bashful daisy to the proudly beautiful *Strelitzia*, the majestic giant protea, and the wealth of ericas which share its rocky kingdom, the blazing carpets of daisies of Namaqualand to the burnished spears of an aloe-covered hillside. The first chapter introduces the reader to the wonders of our floral kingdom, while brief captions identify each flower and indicate when and where it is likely to be seen. Essentially, all the more decorative families of flowering plants have been covered. Plates are grouped according to families, and a brief commentary introduces each family. Scientific names are used throughout, with common names being given where these are accepted, as well as anecdotes relating to utilitarian, medicinal, or horticultural uses. The guide concludes with a useful bibliography of illustrated publications on South African wild flowers, providing guidelines for further reading, and an index.
