A History of the Lewis and Clark Journals Paul Russell Cutright, 2000-04-01 When President Thomas Jefferson dispatched Captains Meriwether Lewis and William Clark on their great exploratory expedition of the lands west of the Mississippi the journey was destined to become the most famous and significant American land expedition in history Jefferson must have realized the timeless importance of the mission for he urged the captains to keep multiple records of all they saw and experienced during the journey Those records dutifully kept from the departure of the expedition in 1803 to its conclusion in 1806 provided invaluable information about the wonders of the American West In the next 150 years the journals were published in several versions scrupulously authentic dubiously revised and complacently counterfeit This book is the first comprehensive account of the various versions and of the persons responsible for them It tells of the dedicated scholarship inspired judgment and exciting discovery of new materials as well as the misguided enthusiasm and journalistic skulduggery that marred the publishing history of the journals field notes and letters of members of the expedition The author breaks new ground in his use of previously unpublished letters written by the editors of the two major editions An appendix introduces a recently discovered manuscript version of the journal kept by one of the expedition members The book also includes an appraisal of books and articles written about the expedition and a resume of the illustrative materials sketches and maps that enriched the accounts A History of the Lewis and Clark Journals is thus itself a significant expedition into a historic period in America s past

Fleeting Moments Gunther Barth, 1990-10-18 The tension between nature and culture which accompanies the rise of any large society has become a subject of great concern in our time In this compelling study Gunther Barth acclaimed author of *City People The Rise of Modern City Culture in Nineteenth Century America* identifies fleeting moments of concord between nature and culture in the course of American history During the search for the Wilderness Passage the progress of the Lewis and Clark expedition and the building of park cemeteries and big city parks Americans realized that nature was not merely a force to be reckoned with not merely a resource to be exploited but also an integral component of their lives Through the engineering of nature and culture in the urban environment the energetic

attempts to conserve large scale nature in the United States emerged as an offspring of the big city Heightening our understanding of the historical complexity of the relationship between nature and culture and suggesting that harmony between the two is a mark of civilization this original study will be an invaluable guide to anyone concerned with the quality of life in America past and future **Explorations Into the World of Lewis and Clark V-2 of 3** Robert A. John Colter was a crack hunter with the Lewis and Clark expedition before striking out on his own as a mountain man and fur trader A solitary journey in the winter of 1807-8 took him into present day Wyoming To unbelieving trappers he later reported sights that inspired the name of Colter's Hell It was a sulfurous place of hidden fires smoking pits and shooting water And it was real John Colter is known to history as probably the first white man to discover the region that now includes Yellowstone National Park In a classic book first published in 1952 Burton Harris weighs the facts and legends about a man who was dogged by misfortune and robbed of the just rewards he had earned This Bison Book edition includes a 1977 addendum by the author and a new introduction by David Lavender who considers Colter's remarkable winter journey in the light of current scholarship **Meriwether Lewis** Kira Gale, 2015-07-01 This new full length biography of Meriwether Lewis is presented within the context of the turbulent times of the early American Republic The author discusses intrigues to seize the Floridas and Louisiana from Spain with the help of France or Britain and makes the case for General James Wilkinson assassinating General Anthony Wayne to become the commanding general of the U S Army She proposes that the deadlock in the presidential election of 1800 between Aaron Burr and Thomas Jefferson was caused by a British faction of Federalists who planned to invade Louisiana and Mexico if Burr were elected president Three parts of the conspiracy are identified a secret military base on the Ohio Cantonment Wilkinsonville where 700 U S Army troops were stationed the Philip Nolan filibuster into Texas and British naval support After Jefferson's election Lewis lived in the White House as his confidential aide In 1803 he left the White House as the leader of an elite army unit to reinforce America's claim to the Pacific Northwest When he returned Jefferson appointed him governor of Louisiana Territory based in St Louis with orders to remove followers of Aaron Burr from positions of power and influence Within two years Meriwether Lewis was dead at the age of 35 killed by an assassin's bullets in 1809 The case is made that General Wilkinson and John Smith T a wealthy lead mine operator were the organizers of his assassination Their motive was to prevent Lewis from stopping another filibuster expedition into Mexico in 1810 This biography of Lewis offers a very different interpretation of his character and achievements supporting the idea that if he had lived Lewis was in line to become president of the United States It presents a detailed account of his activities

as a loyal Jefferson supporter presidential aide leader of a continental expedition and governor of Louisiana Territory

Lewis and Clark Point of Departure Timothy S. Raymer, 2004 He grabbed my wrist as I slapped him and was about to walk away We stood there in a deadlock and glared at each other I was not prone to displays of temperament but he incensed me so much that I could barely see beyond my rage I told him that he could not control me It took more than arrogance to be my Master Whatever power he had I would give him and that was how it works I will submit to the man who changed my world and had dominance over things I did not To master me was to master the path in front of me It would have to be a way of life and not a game
