Ferdinand Schuyler Mathews, 1906 *Field Book of Wild Birds and Their Music* F. Mathews, 2001-07 In this beautifully
written and well illustrated guide to birds songs from 1904 Mathews describes 127 bird species mostly of Eastern United
States and their songs This fieldbook contains descriptions of the physical characteristics and habits of each as well as
detailed comments on their songs and calls He includes musical scores of at least two songs for each species *Field Book*

Mathews, 1904 **Field Book of Wild Birds and Their Music** F. Schuyler Mathews, 2015-06-15 Excerpt from Field Book
of Wild Birds and Their Music A Description of the Character and Music of Birds Intended to Assist in the Identification of
Species Common in the United States East of the Rocky Mountains Hast thou a charm to stay the morning star In his steep
course So long he seems to pause On thy bald awful head O sovran Blanc The Arve and Arveiron at thy base Rave ceaselessly
but thou Risest from forth thy silent sea of pines How silently sing ye meadow streams with gladsome voice Ye pine groves
with your soft and soul like sounds Samuel Taylor Coleridge When in the lapse of a number of years an accumulation of
knowledge and experience has enlarged or modified one s mental vision it is well if the advance goes on record Now although
my estimate of the character and significance of bird music has undergone little material change during a period of
seventeen years it has grown proportionately with those years and I have added in this new edition the results of my latest
study It is not necessary to apologize for the insistence upon the value of musical notation expressed in my Introduction to
Bird Music there is no avoiding the facts stated therein nor any cause to enlarge on them but there is something to be added
in relation to the musical scales of the birds and in appreciation of the musical record and its popular as well as scientific
usefulness When one attains the commanding summit of a high mountain the horizon is greatly enlarged If one remains in
the valley and mountain walls shut one in on every side the world indeed seems small Coleridge soared upward like the lark

Schuyler (Ferdinand Shuyler) Mathews,1908 The Music of Wild Birds Judy Pelikan,F. Schuyler Mathews,2004-02-05 One hundred years ago F Schuyler Mathews an erudite naturalist

and birder theorized that birds sing first for love of music and second for love of the lady To expand on his theory he actually scored the songs of birds in the wild His charming text and bird by bird annotations were compiled into a guide called Field Book of Wild Birds and Their Music This extraordinary work has now been lavishly illustrated and adapted for a new audience Each bird is meticulously rendered by artist Judy Pelikan in full color illustrations that feature not only the birds but also their nests eggs and feathers And every song is represented by its written musical score which Mathews expertly explains in a way that both musicians and non musicians can enjoy As Mathews points out the music of wild birds is everywhere in poems children s nursery songs as well as in the works of the great composers the Black billed Cuckoo s call appears near the close of Beethoven s Pastoral Symphony the Nashville Warbler s song is found in the opening bars of Rossini s Carovale and the Meadowlark s song is remarkably like the first two bars of Alfredo s song in La Traviata He reveals how a bird s character is reflected in its song the Baltimore Oriole is a sharp billed sharp witted character and his remarks are as incisive and crisp as the toots of a steam whistle And he reminds us of the words of our great poets Wordsworth Emerson Sir Walter Scott and their descriptions of the very same birds and their music This classic useful and completely original guide will put a song into the heart of novice and experienced birder alike Fieldbook of Wild Birds and Their Music F.
