Fields of Play in Modern Drama Thomas R. Whitaker, 2015-03-08 Starting from the assumption that all theater is at least implicitly participatory Professor Whitaker approaches thirteen plays from Ibsen's *Rosmersholm* to Beckett's *Endgame* and Stoppard's *Rosencrantz and Guildenstern Are Dead* He asks the reader to commit himself to a variety of points of view those of witnesses actors directors and characters as a series of critical fictions lead him toward the experience of each play in performance The author supplies detailed readings of the plays in various modes The styles of the chapters vary according to the issues dominant in the plays discussed and the reader experiences simultaneously a sense of approaching the meaning of performance and of gaining a deeper understanding of the play through a subtle and allusive commentary Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
