U. Heathcote, 2002 Perhaps everything about the Internet leaves you feeling confused and

puzzled or maybe you've seen it briefly and need more information. There has never been a better time to start. Whether you want to look up train times, think up questions for a trivia quiz, or e-mail your cousins in Australia, this book takes you through it in simple straightforward English. *Internet Right from the Start* is a useful guide for 16-18 year olds on introductory ICT courses and adults either at work attending evening class or learning on a home PC. This book develops ICT skills starting from the very basics through to an intermediate level. You will learn how to look up and search for information on the Internet, use maps sites to get directions if you are going somewhere unfamiliar, download pictures, music and software, shop for groceries, CDs or even a house online, e-mail documents and photos across the world for the cost of a local phone call, chat with friends and colleagues online, saving text and graphics. **Teachers' Strangest Tales** Iain Spragg, 2016-06-09. A hilarious assortment of the weirdest and wackiest tales ever to come out of the classroom and they're all true. Featuring the flamboyant swimming teacher who spent his spare time fighting bears, the story of how a fight with his teacher paved the way for Al Capone's infamous crime empire, and the bizarre tale of the American teacher who sued her own pupils for not paying attention in her lesson, this book is a real education. An ideal end of year teacher gift, this fascinating book is also a must read for anyone who's ever been to school. So stop talking at the back, pay attention and start reading. Word count 45,000.

*Let Me Just Say* Eddie Hall, 2013-12-01. From the UK's youngest grumpy man who brought you *A Certain Point of View*, comes another hilarious collection of rants. Eddie Hall's one-man crusade against the forces of stupidity continues in his second journal. In this book, Eddie tries to uncover the answers to more important worldly questions like why cinema seats are designed to paralyse people from the waist down, why in the name of Dumbledore's dangleys do they make the seats so uncomfortable, as well as offer useful insights if people who drive Nissan Micras are the herpes of the road, people who ride mopeds are the gonorrhoea, they are slow, ugly, unsafe and could make even Keira Knightley look ridiculous and unattractive, and why no man will ever understand what a woman is talking about. I've yet to fully master this bizarre language. Like Eddie's previous book, this is a collection of satirical articles covering a wide range of topics that will be enjoyed by fans of humorous books. Eddie, whose writing style is comparable to that of Jeremy Clarkson, adopts an informal conversational style that draws the reader in and allows them to relate to his very valid points. **Warning:** This book contains sarcastic material. Do not read if you suffer from any of the following conditions: A sense of humor deficiency, Humorophobia, Easily offendeditis, or Americanitis. *The Financial Times Handbook of Corporate Finance* Glen Arnold, 2013-08-27.
