## **Fiestas Sagradas Sus Orígenes Ritos Y Significado:**

**Fiestas sagradas** Jesús Callejo, 1999     *Performing the Community* Cora Govers, 2006 Economic liberalization modern mass media and new religious and political movements have touched even the most remote areas in Mexico and the Northern Highlands of the state of Puebla are no exception. When this coincides with recent infrastructures such as roads and electricity and new income sources from cash crop production and urban migration the nature of rural communities rapidly changes. This study shows how the people of the Totonac mountain village of Nanacatlán deal with their increasingly pluriform and differentiated local world. By performing stories, rituals and exchanges they have countered centrifugal cultural and social forces. Rather than leading to the demise of the community modernization and globalization thus seem to have reinforced the sense of local belonging. How is this possible? This anthropological analysis points at the simultaneous efforts of new and old cultural brokers ritual specialists and healers as well as young migrants who recreate the community by linking the outside world to local customs. Their initiatives are taken up by women crucial for community building through elaborate food exchanges and men whose involvement is central to public ritual life. Their combined efforts create a living community and link the village past to its rural urban present and future as a place of belonging in times of change. Cora Govers is a senior staff member at the Netherlands Organisation for Scientific Research NWO.

**Fiesta, memoria y nación. Ritos, símbolos y discursos, 1573-1830** Orián Jiménez Meneses, Juan David Montoya Guzmán, 2011-01-01 El presente libro comprende siete artículos. El hilo conductor es el problema de las fiestas y el papel que estas desempeñaron en la construcción de la sociedad colonial y republicana. Los artículos proveen un cúmulo de información y un bagaje interpretativo lo suficientemente amplio como para que el lector pueda derivar un conocimiento extenso y actualizado de algunos de los principales problemas del estudio de las celebraciones. Además por tratarse de un libro resultado de una investigación muchas las concepciones sobre la festividad religiosa y civil han sido revestidas de interpretaciones novedosas y de una exhaustiva consulta de fuentes manuscritas y bibliográficas.

**Los secretos de las catedrales. Historia, ritos, prácticas religiosas** A. Roversi Monaco, 2017-11-17 Las catedrales góticas tan misteriosas como las pirámides de Egipto o las estatuas de la isla de Pascua conservan en el corazón de sus majestuosas naves secretos seculares que el hombre moderno todavía no ha logrado descifrar. Las catedrales están ahí ante nuestra mirada en nuestra querida y vieja Europa en lugares frecuentados a diario por decenas de miles de visitantes para hablarnos de nuestro pasado. Cómo fueron construidas. Por qué su disposición arquitectónica nos remite al universo simbólico y esotérico medieval. Cuál es el secreto de las líneas meridianas. Esta obra escrita por un especialista en historia de la Edad Media y en estudios esotéricos traza para nosotros la epopeya de la construcción de las catedrales y nos da la clave de sus referencias simbólicas y místicas. Esta apasionante guía que constituye tanto una introducción a la historia europea como un estudio sobre la religión y el esoterismo medieval nos permite también visitar a nuestro ritmo las más hermosas catedrales de Europa.
