Fifteen Decisive Battles of the Western World Barnes & Noble, Edward Shepherd Creasy, 2004      **The Fifteen Decisive Battles of the World** Edward Shepherd Creasy, 2009-12-01 Undoubtedly the most famous work of military history of the nineteenth century Sir Edward Shepherd Creasy's *The Fifteen Decisive Battles of the World* has been read and re read for close to 150 years It is not only the authoritative account of each battle that makes *Fifteen Decisive Battles* such a classic it is his command of narrative his interest in human struggle his profound deductions as to effects of the battles and his striving after truth Furthermore his selections seem as wise and well considered today as when *The Fifteen Decisive Battles of the World* first appeared in 1851 Nobody since has made better ones nor given us better accounts Apart from the scholarship and literary skill of *Fifteen Decisive Battles* there is another reason it has endured Creasy was essentially fair minded He had been a judge and when he became England's great military critic and historian he maintained a thoroughly judicial attitude He was not a British partisan nor French nor German he was a cosmopolitan observer of great events Out of 2300 years Creasy only found fifteen battles which he called decisive in the highest sense and these are the ones featured in *The Fifteen Decisive Battles of the World* He chose them not for the number of killed and wounded nor for their status in myth and lore but because they fundamentally changed the course of world history In doing so he made *Fifteen Decisive Battles* a miniature military history of the western world a classic that will repay continued study for generations to come as it has for generations      *The Fifteen Decisive Battles of the World; from Marathon to Waterloo* Sir Edward Shepherd Creasy (Chief Justice of Ceylon.), 1851      **The Fifteen Decisive Battles of The World** Edward Creasy, 2019-05-30 One of the greatest classics of military history ever written produced by an English historian who understood the significance of race in history The author selected fifteen battles which he considered as history changing Each chapter provides a detailed account of the preceding events a blow by blow account of the battle itself and its immediate consequences for European and world history Five of the battles selected were critical to the survival of European civilization The Battle of Marathon 490 BC which saw the ancient Greeks defeat an invasion from the mixed race Persian Empire The Battle of Gaugamela 331 BC which saw the Macedonians under Alexander finally defeat the Persians The Battle of Chalons AD 451 where the Roman general Aetius with his Gothic allies defeated the Hunnish invasion of Europe and The Battle of Tours AD 732 where the Franks under Charles Martel defeated the Muslim Moorish invasion of Western Europe The other battles were all history changing in that they affected the direction of European civilization and which nation would dominate history Although the author was a devoted English nationalist he recognized the role which the United States of America would play in world events and listed the Battle of Saratoga AD 1777 the turning point in the American Revolution in favor of the rebels as one of the fifteen great battles Ironically as the author points out the American forces at Saratoga were led by a retired British army officer who had only moved to the Americas from England some seven years before that battle      *Fifteen Decisive Battles Of The World* Sir

Edward S. Creasy, 1994-03-22 Undoubtedly the most famous work of military history of the nineteenth century Edward S Creasy's *Fifteen Decisive Battles of the World* has been read and re read for close to 150 years It is not only the authoritative account of each battle that makes Creasy's work such a classic it is his command of narrative his interest in human struggle his profound deductions as to effects of the battles and his striving after truth Furthermore his selections seem as wise and well considered today as when *Fifteen Decisive Battles* first appeared in 1851 Nobody since has made better ones nor given us better accounts Apart from the scholarship and literary skill of Creasy's book there is another reason it has endured Creasy was essentially fair minded He had been a judge and when he became England's great military critic and historian he maintained a thoroughly judicial attitude He was not a British partisan nor French nor German he was a cosmopolitan observer of great events Out of 2300 years Creasy only found fifteen battles which he called decisive in the highest sense He chose them not for the number of killed and wounded nor for their status in myth and lore but because they fundamentally changed the course of world history In doing so he made his book a miniature military history of the western world a classic that will repay continued study for generations to come as it has for generations *The Fifteen Decisive Battles of the World*

Edward Creasy, 2014-04-25 This brand new edition contains the complete text and has been completely reformatted and updated with 50 illustrations and maps One of the greatest classics of military history ever written produced by an English historian who understood the significance of race in history The author selected fifteen battles which he considered as history changing Each chapter provides a detailed account of the preceding events a blow by blow account of the battle itself and its immediate consequences for European and world history Five of the battles selected were critical to the survival of European civilization The Battle of Marathon 490 BC which saw the ancient Greeks defeat an invasion from the mixed race Persian Empire The Battle of Gaugamela 331 BC which saw the Macedonians under Alexander finally defeat the Persians The Battle of Chalons AD 451 where the Roman general Aetius with his Gothic allies defeated the Hunnish invasion of Europe and The Battle of Tours AD 732 where the Franks under Charles Martel defeated the Muslim Moorish invasion of Western Europe Never afraid to point out the racial and subracial undertones to many of the great battles the following quote serves as an example of how the author discussed the Battle of Tours The great victory won by Charles Martel over the Saracens A D 732 which gave a decisive check to the career of Arab conquest in Western Europe rescued Christendom from Islam preserved the relics of ancient and the germs of modern civilization and re established the old superiority of the Indo European over the Semitic family of mankind The other battles were all history changing in that they affected the direction of European civilization and which nation would dominate history Although the author was a devoted English nationalist he recognized the role which the United States of America would play in world events and listed the Battle of Saratoga AD 1777 the turning point in the American Revolution in favor of the rebels as one of the fifteen great battles The other battles named as history changing in this volume are The Battle of Syracuse 413 BC which placed Rome at the forefront of civilization The Battle of

the Metaurus 207 BC which decided the conflict between Carthage and Rome The Battle of the Teutoburg Forest AD 9 which halted the Roman conquest of Germany The Battle of Hastings AD 1066 which determined that relations with France and not Scandinavia would dominate British history The Siege of Orleans AD 1429 which ensured that the English were expelled from France The defeat of the Spanish Armada AD 1588 which prevented the re Catholicization of Britain The Battle of Blenheim AD 1704 which halted French Royal territorial ambition in Europe The Battle of Pultowa AD 1709 which halted the Scandinavian influence in Russia The Battle of Valmy AD 1792 which emboldened France to declare a Republic and end the right of royalty to rule and The Battle of Waterloo AD 1815 which ended Napoleon s attempts to create a new French empire The author also pre empts developments in twenty first century Europe by predicting that Eastern Europe would come to be the fulcrum upon which European civilization stands or falls while other races of mankind our own the Germanic included have exhausted their creative energies and completed their allotted achievements the Slavonic race has yet a great career to run and that the narrative of Slavonic ascendancy is the remaining page that will conclude the history of the world **100**

**Decisive Battles** Paul K. Davis,2001 Surveys the one hundred most decisive battles in world history from the Battle of Megiddo in 1469 B C to Desert Storm 1991 *The ^AOxford Handbook of Gender, War, and the Western World since 1600* Karen Hagemann,Stefan Dudink,Sonya O. Rose,2020-10-30 To date war history has focused predominantly on the efforts of and impact of war on male participants However this limited focus disregards the complexity of gendered experiences with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of military culture examining the varied ideals and practices that have socially differentiated men and women s wartime experiences Covering the major periods in warfare since the seventeenth century The Handbook explores cultural representations of war and the interconnectedness of the military with civil society and its transformations **The Armies of Classical Greece** Everett L. Wheeler,2017-05-15 The origin of the Western military tradition in Greece 750 362 BC is fraught with controversies such as the date and nature of the phalanx the role of agricultural destruction and the existence of rules and ritualistic practices This volume collects papers significant for specific points in debates or theoretical value in shaping and critiquing controversial viewpoints An introduction offers a critical analysis of recent trends in ancient military history and provides a bibliographical essay contextualizing the papers within the framework of debates with a guide to further reading *The Unwritten Chronicles of Western Civilizations' Greatest Confrontations* Markus J. Michael,2025-01-15 The Persians triumph at Marathon and proceed to conquer Greece Hannibal annihilates the Roman army at Zama paving the way for a magnificent Carthaginian empire that dominates the Western Mediterranean for centuries The Spanish Armada obliterates the forces of Queen Elizabeth I who is taken captive and sent to Spain while a Spanish occupied England endures a brutal second Counter Reformation This book delves into the alternative outcomes of a dozen of the most pivotal battles in Western history examining the cultural and political forces that shaped

their aftermath often more decisive in the course of history than the battles themselves. Alongside meticulously researched accounts, the author presents contemporary texts that illuminate these historical episodes from unexpected and often quirky angles. Counterfactual history, once dismissed as a pastime for amateurs, has recently garnered serious scholarly attention. This book combines rigorous historical analysis with meticulously presented details, offering thought-provoking and entertaining perspectives on the alternative outcomes of Europe's twelve most crucial battles. It invites readers to uncover and evaluate the insights from these carefully constructed thought experiments. *The Unwritten Chronicles* sets a high standard. While not intended for beginners, history enthusiasts and students alike will find immense enjoyment in this breathtaking and intellectually stimulating journey through two and a half millennia of Western civilization. One literary agent aptly described the book as wonderfully ludic and erudite. The daring blend of richly detailed narratives and deep historical analysis provides an intellectual pleasure that few other history books can match. By engaging the reader's imagination, it playfully explores some of history's most fascinating what-ifs.

**The Allure of Battle** Cathal J. Nolan, 2017. Stretching from Antiquity to the Second World War, a major new work of history that examines how battles have been fought and reveals how wars have actually been won. *Military Power and National Objectives* Army Library (U.S.), 1957. *Special Bibliographies* Army Library (U.S.), 1957.

**The Pursuit of Victory** Brian Bond, 1998. In Western Europe and North America, the idea that war can deliberately be used as an instrument of policy has become unfashionable, not least because of the carnage of two World Wars and the Americans' humiliating experience in Vietnam. But wars are still fought. Those who start wars clearly believe they are worthwhile. Why? In this original and provocative study, Brian Bond discusses the successes and failures of military and political leaders in their pursuit of victory over the last two centuries. Professor Bond argues that in order to be counted victorious, a leader has to progress beyond military triumph to preserve the political control needed to secure an advantageous and enduring peace settlement. Napoleon was a brilliant general but failed as a statesman. Bismarck, on the other hand, was a success in skillfully exploiting Moltke's victories on the battlefield to create a unified Germany. In the First World War, Germany and her allies were defeated, but at such great cost that confidence in the idea that war could be controlled and the pursuit of victory made rational received a terrible shock. Germany and Japan exploited their military opportunities between 1939 and 1942, but lack of political control and moderation brought them catastrophic defeat. After 1945, nuclear weapons and the increased complexity of international relations blurred the identity of victors and losers and seemed to make the idea of a decisive victory almost unthinkable. But this study warns against the assumption that war as an instrument of policy has now been completely discarded. The Falklands and Gulf conflicts show that aggressors are still prepared to risk war for tangible goals and that their opponents are quite capable of responding successfully to such challenges.

**The Battle of Vouillé, 507 CE** Ralph W. Mathisen, Danuta Shanzer, 2012-07-04. This volume highlights the heretofore largely neglected Battle of Vouillé in 507 CE, when the Frankish King Clovis defeated Alaric II, the King of the

Visigoths Clovis victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain thereby leaving Gaul largely to the Franks It was arguably in the wake of Vouill that Gaul became Francia and that France began The editors have united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives The contributions address questions of military strategy geographical location archaeological footprint political background religious propaganda consequences both in Francia and in Italy and significance There is a strong focus on the close reading of primary source material both textual and material secular and theological

**The Myth Of Victory** Richard W Hobbs,2019-06-10 Richard Hobbs examines one of society s greatest problems the need for reconciliation between the democratic dislike of war and the appropriate use of the military instrument in world politics He questions whether the results obtained in war are worth the expenditures made and contends that victory gained from total war war pushed to its outer li
