Fifteenth Air Force Story In World War II:

Fifteenth Air Force Story ... in World War II Kenn C. Rust, 1976 Beretter om den amerikanske 15th Air Force styrke og dens indsats under 2 verdenskrig hovedsagelig i Middelhavsområdet **Forgotten Fifteenth** Barrett Tillman, 2014-06-02 November 1943 May 1945 The U S Army Air Forces waged an unprecedentedly dogged and violent campaign against Hitler's vital oil production and industrial plants on the Third Reich's southern flank Flying from southern Italy far from the limelight enjoyed by the Eighth Air Force in England the Fifteenth Air Force engaged in high risk missions spanning most of the European continent The story of the Fifteenth Air Force deserves a prideful place in the annals of American gallantry In his new book *Forgotten Fifteenth The Daring Airmen Who Crippled Hitler's War Machine* Tillman brings into focus a seldom seen multinational cast of characters including pilots from Axis nations Romania Hungary and Bulgaria and many more remarkable individuals They were the first generation of fliers few of them professionals to conduct a strategic bombing campaign against a major industrial nation They suffered steady attrition and occasionally spectacular losses In so doing they contributed to the end of the most destructive war in history *Forgotten Fifteenth* is the first ever detailed account of the Fifteenth Air Force in World War II and the brave men that the history books have abandoned until now Tillman proves this book is a must read for military history enthusiasts veterans and current servicemen [United States Air Force and Its Antecedents](#) James T. Controvich, Martin Gordon, 2004-06-24 This bibliography lists published and printed unit histories for the United States Air Force and Its Antecedents including Air Divisions Wings Groups Squadrons Aviation Engineers and the Women's Army Corps *Eleven Myths about the Tuskegee Airmen* Daniel Haulman, 2012-01-01 The members of the 332d Fighter Group and the 99th 100th 301st and 302d Fighter Squadrons during World War II are remembered in part because they were the only African American pilots who served in combat with the Army Air Forces during the war They are more often called the Tuskegee Airmen since they trained at Tuskegee Army Air Field In the more than sixty years since World War II several stories have grown up about the Tuskegee Airmen some of them true and some of them false This book focuses on eleven myths about the Tuskegee Airmen thoroughly researched and debunked by Air Force historian Daniel Haulman with copious historical documentation and sources to prove Haulman's research **A History of the Mediterranean Air War, 1940-1945** Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would

not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich's oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany's Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

Misconceptions about the Tuskegee Airmen Daniel Haulman, 2023-02-15 Once an obscure piece of World War II history the Tuskegee Airmen are now among the most celebrated and documented aviators in military history With this growth in popularity however have come a number of inaccurate stories and assumptions Misconceptions about the Tuskegee Airmen refutes fifty five of these myths correcting the historical record while preserving the Airmen's rightful reputation as excellent servicemen The myths examined include the Tuskegee Airmen never losing a bomber to an enemy aircraft that Lee Archer was an ace that Roscoe Brown was the first American pilot to shoot down a German jet that Charles McGee has the highest total combat missions flown and that Daniel Chappie James was the leader of the Freeman Field Mutiny Historian Daniel Haulman an expert on the Airmen with many published books on the subject conclusively disproves these misconceptions through primary documents like monthly histories daily narrative mission reports honor awarding orders and reports on missing crews thereby proving that the Airmen were praiseworthy even without embellishments to their story

A Bomber Pilot's Story Robert P. Neilson, 2016-09-15 Flying a B 17 Flying Fortress with the Fifteenth Air Force out of Foggia Italy Lt George H Neilson describes the harrowing experiences of his twenty eight combat missions as well as the ups and downs of life in the US Army Air Corps from enlistment to discharge 1943-45 Blending selections of his father's letters to home and memoirs he recorded a half century later with documented background history the younger Neilson tells the saga of the son of a Boston widow as he confronts the rigors of pilot officer training and combat service in the Mediterranean Theater of Operations during the final six months of World War II in Europe George depicts the humorous and mundane sides of army life as well as the terror filled moments during bomb runs over targets in Austria Germany Czechoslovakia Poland Yugoslavia and Austria

as antiaircraft flak bursts battered the aircraft Neilsons daily chronicles juxtapose moments when life and death hung in the balance such as when he landed his crippled Fort in the Adriatic Sea with the unexpected moments of splendor such as when he dined in luxury on the Isle of Capri at a castle owned by the royal family of Italy Flying in formation through clouds so thick that the plane thirty feet off his wing was invisible George received the Distinguished Flying Cross for his ability as a skilled instrument pilot He recounts youthful escapades on duty free hours and the tales of life in Foggias mud bound tent city in the spur of Italy It includes the stirring story of his visit to a field hospital where his brother a captain in the infantry was recovering from a bullet wound incurred in the fighting in the Apennine Mountain campaign Finally the story tells of World War IIs fiery end and how he unknowingly worked on the secret research project to develop the atomic bomb in a lab at MIT before enlistment For the student of history and aviation and its role in the Allied victory over Hitlers nefarious Reich this microhistory will not disappoint The Western European and Mediterranean Theaters in World War II Donal

Stanley,2022-03-15 Late in 1944 thirteen U S B 24 bomber crews bailed from their cabins over the Yugoslavian wilderness Bloodied and disoriented after a harrowing strike against the Third Reich the pilots took refuge with the Partisan underground But the Americans were far from safety Holed up in a village barely able to feed its citizens encircled by Nazis and left abandoned after a team of British secret agents failed to secure their escape the airmen were left with little choice It was either flee or be killed In *The Lost Airmen* Charles Stanely Jr unveils the shocking true story of his father Charles Stanely and the eighteen brave soldiers he journeyed with for the first time Drawing on over twenty years of research dozens of interviews and previously unpublished letters diaries and memoirs written by the airmen Stanley recounts the deadly journey across the blizzard swept Dinaric Alps during the worst winter of the Twentieth Century and the heroic men who fought impossible odds to keep their brothers in arms alive A History Of The B-17 Flying Fortress in Over 400

PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the

location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted

Routledge Library Editions: World War II in Asia Timothy Hall, John J. Sbrega, 2021-03-11 The 4 volumes in this set originally published between 1980 and 1983 bring to light and focus on the conflict between Japan and Australia and Japan and the USA Timothy Hall's volumes richly illustrated with black white photographs used highly contentious documents as their sources and give fascinating insights into a period of Australian history which is sometimes less than glorious John J Sbrega's tour de force is not only one of the most extensive annotated bibliographies on the USA and Japan in World War 2 ever published but it also provides invaluable information on

lesser known but no less important aspects of the conflict
