The Siege of Thebes John Lydgate, 2001-03-01 John Lydgate's *The Siege of Thebes* written c 1421-22 is the only Middle English poetic text that recounts the fratricidal struggle between Oedipus's sons Eteocles and Polynices as they contend for the lordship of Thebes The text reflects the problem of poetic authority and the political and ethical themes of Lydgate's poetic career in the 1420s when he was writing as a Lancastrian propagandist and as unofficial royal poet

The Manuscript and Meaning of Malory's Morte Darthur Kevin Sean Whetter, 2017 An examination of the rubricated letters in the *Morte* makes a convincing case for the design being by Malory himself The red ink names that decorate the Winchester manuscript of Malory's *Morte Darthur* are striking yet until now no one has asked why the rubrication exists This book explores the uniqueness and thematic significance of the physical layout of the *Morte* in its manuscript context arguing that the layout suggests and the correlations between manuscript design and narrative theme confirm that the striking arrangement is likely to have been the product of authorial design rather than something unusual dreamed up by patron scribe reader or printer The introduction offers a thorough account of not only the textual tradition of the *Morte* but also the ways in which scholarship to date has not done enough with the manuscript contexts of Malory's *Arthuriad* The book then goes on to establish the singularity and likely provenance of Winchester's rubrication of names In the second half of the study the author elucidates the narrative significance of this rubrication pattern outlining striking connections between manuscript layout and major narrative events characters and themes He suggests that the manuscript mise en page underscores Malory's interest in human character and knighthood creating a memorializing function similar to the many inscribed tombs that dominate the landscape of the *Morte*'s narrative pages In short Winchester's design creates a memorializing tomb for Arthurian chivalry K S WHETTER is Professor of English

Nichols, Siegfried Wenzel, 1996 An investigation of the fascinating not so miscellaneous miscellanies *The Regiment of Princes* Thomas Hoccleve, 1999-11-01 Thomas Hoccleve was born in 1367 and entered government service as clerk in the office of the Privy Seal in 1387 an office that he held until his death in 1426 His earliest datable poem the Epistle of Cupid a free translation of Christine de Pisan s Epistre au Dieu d Amour was completed about 1402 The Regiment of Princes written about 1410 11 was composed at a time when England was still feeling the consequences of the deposition of Richard II Essentially it is addressed to a prince on the subject of his governance but it exhibits considerable generic instability and thus raises fundamental questions about how we should understand the tone of considerable portions of the poem For all the problems it presents The Regiment shows that Hoccleve has strengths as a poet At times he could be a very talented prosodist In autobiographical sections of the poem he creates a most interesting early modern subjectivity He has distinctive observations to make about his time and in his self critical awareness probes the limits of what it means to be a poet writing in the wake of Chaucer **Symptomatic Subjects** Julie Orlemanski, 2019-03-25 In the period just prior to medicine s modernity before the rise of Renaissance anatomy the centralized regulation of medical practice and the valorization of scientific empiricism England was the scene of a remarkable upsurge in medical writing Between the arrival of the Black Death in 1348 and the emergence of printed English books a century and a quarter later thousands of discrete medical texts were copied translated and composed largely for

readers outside universities These widely varied texts shared a model of a universe crisscrossed with physical forces and a picture of the human body as a changeable composite thing tuned materially to the world's vicissitudes According to Julie Orlemanski when writers like Geoffrey Chaucer Robert Henryson Thomas Hoccleve and Margery Kempe drew on the discourse of phisik the language of humors and complexions leprous pustules and love sickness regimen and pharmacopeia they did so to chart new circuits of legibility between physiology and personhood Orlemanski explores the texts of her vernacular writers to show how they deployed the rich terminology of embodiment and its ailments to portray symptomatic figures who struggled to control both their bodies and the interpretations that gave their bodies meaning As medical paradigms mingled with penitential miraculous and socially symbolic systems these texts demanded that a growing number of readers negotiate the conflicting claims of material causation intentional action and divine power Examining both the medical writings of late medieval England and the narrative and poetic works that responded to them *Symptomatic Subjects* illuminates the period's conflicts over who had the authority to construe bodily signs and what embodiment could be made to mean

Early Modern Autobiography Ronald Bedford, Lloyd Davis, Philippa Kelly, 2006 Why and in what ways did late medieval and early modern English people write about themselves and what was

their understanding of how selves were made and discussed This collection goes to the heart of current debate about literature and autobiography addressing the contentious issues of what is meant by early modern autobiographical writing how it was done and what was understood by self representation in a society whose groupings were both elaborate and highly regulated Early Modern Autobiography considers the many ways in which autobiographical selves emerged from the late medieval period through the seventeenth century with the aim of understanding the interaction between those individuals lives and their worlds the ways in which they could be recorded and the contexts in which they are read In addressing this historical arc the volume develops new readings of significant autobiographical works while also suggesting the importance of texts and contexts that have rarely been analyzed in detail enabling the contributors to reflect on and challenge some prevailing ideas about what it means to write autobiographically and about the development of notions of self representation The idea of the self as seen from diverse and fascinating perspectives on sixteenth and seventeenth century life this is what readers can expect from Early Modern Autobiography A beautifully edited collection genuinely far reaching and insightful Early Modern Autobiography makes known to us a great deal about how people saw themselves four hundred years ago Derek Cohen Professor of English McLaughlin College York University Acutely addressing a range of central issues from subjectivity to theatricality to religion these essays will be of great interest to specialists in early modern studies and students of autobiographical writings from all eras Heather Dubrow Tighe Evans Professor and John Bascom Professor Department of English University of Wisconsin The essays in this volume show where archival discoveries memoirs letters account books wills and marginalia can take us in understanding early modern mentalities They document the interdependence of the abstract and the everyday the social constructedness of self awareness local contexts for self recordation and impulses that range from legal purpose to imaginative escape The sixteen chapters open many fascinating new perspectives on identity and personhood in Renaissance England Lena Cowen Orlin Executive Director The Shakespeare Association of America and Professor of English University of Maryland Baltimore County Ronald Bedford is Reader in the School of English Communication and Theatre at the University of New England in Armidale New South Wales and author of The Defence of Truth Herbert of Cherbury and the Seventeenth Century and Dialogues with Convention Readings in Renaissance Poetry The late Lloyd Davis was Reader in the School of English at the University of Queensland and author of Guise and Disguise Rhetoric and Characterization in the English Renaissance 1993 and editor of Sexuality and Gender in the English Renaissance 1998 and Shakespeare Matters History Teaching Performance 2003 Philippa Kelly is a Senior Research Fellow at the University of New South Wales and has published widely in the areas of Shakespeare studies cultural studies feminism and postcolonial studies Chaucer and Boccaccio R. Edwards, 2001-12-17 In the late Middle Ages Chaucer invents two imaginative domains crucial to his culture and to our understanding of the emergence of selfhood subjectivity and social arrangements antiquity and late medieval modernity Edwards demonstrates in this study how this was the result

of Chaucer's reading and re-writing of the works of Boccaccio which provide sources and models for portraying the classical past and medieval modernity. In so doing, Edwards provides us with a valuable way of assessing Chaucer's analysis of late medieval culture.

Chaucerian Tragedy Henry Ansgar Kelly, 1997. A study of Chaucer's definition of tragedy with special reference to *Troilus* and its lasting influence on English dramatists. This book is concerned with the medieval idea of what constituted tragedy; it suggests that it was not a common term and that those few who used the term did not always intend the same thing by it. Kelly believes that it was Chaucer's work which shaped notions of the genre and places his achievement in critical and historical context. He begins by contrasting modern with medieval theoretical approaches to genres, then discusses Boccaccio's concept of tragedy before turning to Chaucer himself, exploring the ideas of tragedy prevalent in medieval England and their influence on Chaucer, and showing how Chaucer interpreted the term. *Troilus* and *Criseyde* is analysed specifically as a tragedy, with an account of its reception in modern times. For comparison, there is an analysis of how John Lydgate and Robert Henryson, two of Chaucer's imitators, understood and practiced tragedy. Professor HENRY ANSGAR KELLY teaches at UCLA.

False Fables and Exemplary Truth E. Allen, 2016-04-30. This study charts relationships between moral claims and audience response in medieval exemplary works by such poets as Chaucer, Gower, Robert Henryson, and several anonymous scribes. In late medieval England, exemplary works make one of the strongest possible claims for the social value of poetic fiction. Studying this debate reveals a set of local literary histories based on both canonical and non-canonical texts that complicate received notions of the didactic Middle Ages, the sophisticated Renaissance, and the fallow fifteenth century in between.

Fifteenth-Century Studies Edelgard E. DuBruck, Barbara Gusick, 2001-03. Founded in 1977 as the publication organ for the Fifteenth Century Symposium, *Fifteenth Century Studies* has appeared annually since then. It publishes essays on all aspects of life in the fifteenth century, including literature, drama, history, philosophy, art, music, religion, science, and ritual and custom. The editors strive to do justice to the most contested medieval century, a period that is the stepchild of research. The period defies consensus on fundamental issues; some dispute in fact whether the fifteenth century belonged at all to the middle ages, arguing that it was a period of transition, a passage to modern times. At issue therefore is the very tenor of an age that stood under the tripartite influence of Gutenberg, the Turks, and Columbus. Volume 26 contains the customary survey of research on late medieval drama. There are six articles on French literature, four on German topics, two on Italian art, one on Spanish medieval predication, and three on English literary matters. Six of the articles focus on women and misogyny. Further topics include popular approaches to problems of daily living, the crusades, and mysticism; an early warning against excess in travel and exploration; the conduct of princes as described in chronicles; the so-called Pope Joan; theater, including farces, passion pageants, and triumphant entries of princes; critique of the estates; the function of authors and their rights, duties, and privileges. There are 17 book reviews and two obituary dedications. The volume has been assembled with special care for style, excellence of research, and variety of approaches. Edelgard DuBruck is professor
