Fifth Window:

God's Windows Arash Etemad Moghaddam, 2022-06-22 When two flying dinosaurs reached the windows and look out of one of them a gentle breeze cooled their face but when they got on a surface at the bottom of the window to let it cool them more a wild wind suddenly blew them away to the below world But that is only the first of several windows in which they are placed join them in many of the wonders they have in other windows of God **Thirty Three Windows** Bediuzzaman Said Nursi, 2014-02-02 God willing this Thirty Third Letter of Thirty Three Windows will bring to belief those without belief strengthen the belief of those whose belief is weak make certain the belief of those whose belief is strong but imitative give greater breadth to the belief of those whose belief is certain lead to progress in knowledge of God the basis and means of all true perfection **Supreme Court , The Verses Formerly Inscribed on Twelve Windows in the Choir of Canterbury Cathedral** , 1901 Expressive Networks Matthew Kilbane, 2025-06-10 Expressive Networks convenes an urgent conversation on digital media and the social life of contemporary poetry Tracing how poems circulate through online spaces and how capitalized platforms have come to pattern the reading and writing of poetry contributors emphasize both the expressivist cast of digital literary culture and the deep running ambivalence that characterizes aesthetic and critical responses to platformed cultural production The volume features chapters on Pan African spoken word programs Singaporean Facebook groups decolonial hemispheric networks and Japanese media critical poetries as well as platforms such as Twitter X Instagram and Amazon Though contributors write from a variety of methodological positions and address themselves to a range of archives they share the primary conviction that the impact of Web 2 0 on literary practice is far reaching far from self evident and far more variegated and unpredictable than easy summations of social media s influence suggest Expressive Networks asks after poetry s present and future by examining what poems themselves express about the social make up of networked platforms Edited by Matthew Kilbane with contributions from Cameron Awkward Rich Micah Bateman Andrew Campana Sumita Chakraborty Scott Challener C R Grimmer Tess McNulty Michael Nardone Seth Perlow Anna Preus Susanna Sacks Carly Schnitzler Melanie Walsh and Samuel Caleb Wee **Physiology and Pathology in the Perinatal Period** R.H. Gevers, J.H. Ruys, 2012-12-06 The course of history is never one of smooth progression Periods of relative quietness are interrupted by periods of wars and revolution This pattern resembles that of a river which before flowing into the delta has to pass countless rapids The same holds for the development of the science of medicine In obstetrics some of these revolutions or rapids consist of the introduction of conservative obstetrical treatment by Lucas Johann Boer at the beginning of the nineteenth century the discovery of the cause of puerperal sepsis by Oliver Wendell Holmes and Semmelweiss between 1843 and 1847 the introduction of the principle of asepsis by Pasteur in 1874 the introduction of prenatal care at the end of the nine teenth and the beginning of the twentieth century Mijnlief Treub De Snoo the improvement of surgical techniques the possibility to treat shock by bloodtransfusion and finally the acquisition of

new means for the effective therapy of infection All these developments have led to a sharp reduction of maternal and perinatal mortality In this connection it must be pointed out that such a reduction could never have been accomplished without the favourable social changes as a result of which medical and prenatal care could be made universally available In recent years there has been another revolutionary development in obstetrics Two factors have been responsible for this the application of basic sciences in obstetrics and the dissolution of the isolation with respect to other clinical disciplines
