VINCENT. NOLTE,2018 *Fifty Years in Both Hemispheres* Vincent Nolte,1854 **Fifty Years in Both Hemispheres** Vincent Nolte,1854 *Catalogue of the Library of Parliament* Anonymous,2025-08-29 Reprint of the original first published in 1857 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage [Bibliotheca Americana](#) Orville Augustus Roorbach,1855 [1812](#) Jon Latimer,2009-07-01 Listen to a short interview with Jon Latimer Host Chris Gondek Producer Heron the Battle of Lake Erie the burning of Washington the death of Tecumseh Andrew Jackson s victory at New Orleans but their war of conquest was ultimately a failure Even the issues of neutrality and impressment that had triggered the war were not resolved in the peace treaty For Britain the war was subsumed under a long conflict to stop Napoleon and to preserve the empire The one lasting result of the war was in Canada where the British victory eliminated the threat of American conquest and set Canadians on the road toward confederation Latimer describes events not merely through the eyes of generals admirals and politicians but through those of the soldiers sailors and ordinary people who were directly affected Drawing on personal letters diaries and memoirs he crafts an intimate narrative that marches the reader into the heat of battle **Catalogue** ,1886 [Catalogue of the Library of the Union League Club of New York](#) ,1886 [Empire of Cotton](#) Sven Beckert,2014-12-02 The epic story of the rise and fall of the empire of cotton its centrality to the world economy and its making and remaking of global capitalism Cotton is so ubiquitous as to be almost invisible yet understanding its history is key to understanding the origins of modern capitalism Sven Beckert s rich fascinating book tells the story of how in a remarkably brief period European entrepreneurs and powerful statesmen recast the world s most significant manufacturing industry combining imperial expansion and slave labor with new machines and wage workers to change the world Here is the story of how beginning well before the advent of machine production in the 1780s these men captured ancient trades and skills in Asia and combined them with the expropriation of lands in the Americas and the enslavement of African workers to crucially reshape the disparate realms of cotton that had existed for millennia and how industrial capitalism gave birth to an empire and how this force transformed the world The empire of cotton was from the beginning a fulcrum of constant global struggle between slaves and planters merchants and statesmen workers and factory owners Beckert makes clear how these forces ushered in the world of modern capitalism including the vast wealth and disturbing inequalities that are with us today The result is a book as unsettling as it is enlightening a book that brilliantly weaves together the story of cotton with how the present global world came to exist **Revolution, Romanticism, and the Afro-Creole Protest Tradition in Louisiana, 1718-1868** Caryn Cossé Bell,1997-02-01 With the Federal occupation of New Orleans in 1862 Afro Creole leaders in that city along with their white allies seized upon the

ideals of the American and French Revolutions and images of revolutionary events in the French Caribbean and demanded Libert Egalit Fraternit Their republican idealism produced the postwar South s most progressive vision of the future Caryn Coss Bell in her impressive sweeping study traces the eighteenth century origins of this Afro Creole political and intellectual heritage its evolution in antebellum New Orleans and its impact on the Civil War and Reconstruction **Catalogue of the Library of the U. Watkin, M.P.* J. E. Cornish,1875 **Transatlantic Finance in the Age of Revolutions** Mark Edward Hay,2024 This book examines the role of the Hope and Baring banking houses in financing the Louisiana Purchase during the Age of Revolutions It analyzes how international finance navigated this tumultuous period focusing on changes in the Amsterdam market for government lending and the shift of financial power to London The study uses primary sources to trace the financial transactions and diplomatic negotiations involved in the sale and purchase of Louisiana The author aims to provide insights into the historical context of international finance making the work accessible to both academic audiences and general readers interested in economic history **The Battle of New Orleans in History and Memory** Laura Lyons McLemore,2016-11-14 The Battle of New Orleans proved a critical victory for the United States a young nation defending its nascent borders but over the past two hundred years myths have obscured the facts about the conflict In *The Battle of New Orleans in History and Memory* distinguished experts in military social art and music history sift the real from the remembered illuminating the battle s lasting significance across multiple disciplines Laura Lyons McLemore sets the stage by reviewing the origins of the War of 1812 followed by essays that explore how history and memory intermingle Donald R Hickey examines leading myths found in the collective memory some embellishments originating with actual participants and

others invented out of whole cloth Other essayists focus on specific figures Mark R Cheatham explores how Andrew Jackson s sensational reputation derived from contemporary anecdotes and was perpetuated by respected historians and Leslie Gregory Gruesbeck considers the role visual imagery played in popular perception and public memory of battle hero Jackson Other contributors unpack the broad social and historical significance of the battle from Gene Allen Smith s analysis of black participation in the War of 1812 and the subsequent worsening of American racial relations to Blake Dunnavent s examination of leadership lessons from the war that can benefit the U S military today Paul Gelpi makes the case that the Creole Battalion d Orleans became protectors of American liberty in the course of defending New Orleans from the British Examining the European context Alexander Mikaberidze shows that America s second conflict with Britain was more complex than many realize or remember Joseph F Stoltz III illustrates how commemorations of the battle from memorials to schoolbooks were employed over the years to promote various civic and social goals Finally Tracey E W Laird analyzes variations of the tune The Battle of New Orleans revealing how it has come to epitomize the battle in the collective memory

capital in the nation's development covering both portfolio and direct investment. The immense new wave of foreign investment in the United States today and our return to the status of a debtor nation once again the world's largest debtor nation makes this strong exposition far more than just historically interesting. Wilkins reviews foreign portfolio investments in government securities, federal, state and local, and in corporate stocks and bonds as well as foreign direct investments in land and real estate, manufacturing plants and even such service sector activities as accounting, insurance, banking and mortgage lending. She finds that between 1776 and 1875 public sector securities, principally federal and state securities, drew in the most long-term foreign investment, whereas from 1875 to 1914 the private sector was the main attraction. The construction of the American railroad system called on vast portfolio investments from abroad; there was also sizable direct investment in mining, cattle ranching, the oil industry, the chemical industry, flour production and breweries as well as the production of rayon, thread and even submarines. In addition, there were foreign stakes in making automobiles and electrical and nonelectrical machinery. America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts.
