Xiaoshan Yang, 2022-03-07 A poetic culture consists of a body of shared values and conventions that shape the composition
and interpretation of poetry in a given historical period This book on Wang Anshi 1021 1086 and Song poetic culture the first
of its kind in any Western language brings into focus a cluster of issues that are central to the understanding of both the poet
and his cultural milieu These issues include the motivations and consequences of poetic contrarianism and the pursuit of
novelty the relationship between anthology compilation and canon formation the entanglement of poetry with partisan
politics Buddhist orientations in poetic language and the development of the notion of late style Though diverse in nature and
scope the issues all bear the stamp of the period as well as Wang Anshi s distinct personality Conceived of largely as a series
of case studies the book s individual chapters may be read independently of each other but together they form a varied if only
partial mosaic of Wang Anshi s work and its critical reception in the larger context of Song poetic culture **Rendering**

Cathay Ezra Pound,2018-12-04 Finalist Pegasus Award for Poetry Criticism Ezra Pound s *Cathay* 1915 is a masterpiece both of modernism and of world literature The muscular precision of images that mark Pound s translations helped establish a modern style for American literature at the same time creating a thirst for classical Chinese poetry in English Pound s dynamic free verse translations in a modern idiom formed the basis for T S Eliot s famous claim that Pound was the inventor of Chinese poetry for our time Yet Pound achieved this feat without knowing any Chinese relying instead on word for word cribs left by the Orientalist Ernest Fenollosa whose notebooks reveal a remarkable story of sustained cultural exchange This

fully annotated critical edition focuses on Pound's astonishing translations without forgetting that the original Chinese poems are masterpieces in their own right. On the one hand, the presentation of all that went into the final *Cathay* makes it possible for the first time to appreciate the magnitude and the nuances of Pound's poetic art. At the same time, by bringing the final text together with the Chinese and Old English poems it claims to translate as well as the manuscript traces of Pound's Japanese and American interlocutors, the volume also recovers practices of poetic circulation, resituating a Modernist classic as a work of world literature. The Pound text and its intertexts are presented with care, clarity, and visual elegance. By providing the first accurate and unabridged transcriptions of Fenollosa's notebooks along with carefully edited Chinese texts, the volume makes it possible to trace the movements of poetic ideas and poetic expression as they veer toward and away from Pound's creations. In supplying the full Fenollosa texts, the volume overturns decades of scholarship that has mystified Pound's translation process as a kind of clairvoyance, displaying instead the impressive amount of sinological learning preserved in Fenollosa's hard-to-read notebooks and by detailing every deviation from the probable sense of the originals. The edition also supplies exhaustive historical, critical, and textual notes clarifying points that have sometimes lent obscurity to Pound's poems and making the process of translation visible even for readers with no knowledge of Chinese. *Cathay: A Critical Edition* includes the original fourteen Chinese translations as well as Pound's unique version of *The Seafarer*, which is fully annotated alongside its Anglo-Saxon source. Also included are Pound's fifteen additional Chinese translations from *Lustra* and other contemporary publications; his essay *Chinese Poetry, 1919*; a substantial textual introduction; and original essays by Christopher Bush and Haun Saussy on international modernism, the mediation of Japan, and translation. The meticulous treatment and analysis of the texts for this landmark edition will forever change how readers view Pound's Chinese poems. In addition to discoveries that permanently alter the scholarly record and force us to revise a number of critical commonplaces, the critical apparatus allows readers to make fresh discoveries by making available the specific networks through which poetic expression moved among hands, languages, and media. Ultimately, this edition not only enables us more fully to appreciate a canonical work of Modernism but also resituates the art of Pound's translations by recovering the historical circulations that went into the making of a multiply authored and intrinsically hybrid masterpiece.

The Poetry of He Zhu (1052-1125) Stuart Sargent, 2007-03-31. The Northern Song poet He Zhu is best known for his lyrics *ci*, but also produced *shi* poetry of subtlety, wit, and feeling. This study examines the latter as a response to the options available to a late eleventh-century writer in the pentametrical and heptametrical forms of Ancient Verse, Regulated Verse, and Quatrains. Numerous comparisons are made with Su Shi, Huang Tingjian, Du Fu, and other important writers. In a major advance over previous methodologies, the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions. This innovation and the author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before. From the reader's report: not just an excellent study of an individual poet but also

a model of reading the language of classical Chinese poetry opens up a world of interpretive territory heretofore seldom explored *The Arts of China* Michael Sullivan,1999 Sullivan has thoroughly revised this classic history of Chinese art which covers the period from Neolithic times to the 1990s 224 photos 164 color illustrations 14 maps **Odyssey of Culture** Yan Zhou,2015-03-11 This book is the first case study on Wenda Gu that systematically investigates the cultural and artistic context of his life and works examining selected images of his artwork spanning from the late 1970s to the early 21st century It is the first monograph to provide a comprehensive and profound study of a Chinese contemporary artist In the 1980s the School of Hermeneutics attempted to launch a discursive revolution Vanguard artists believed that the visual art revolution was an integral part of the critique of culture because it tended to subvert and rebuild the cultural tradition at a discursive level This book using a case study on Wenda Gu as representative of Chinese avant garde investigates the centrality of culture in art providing readers with insights on the origin rationale and methodology of Chinese contemporary art The Heart of Chinese Poetry Greg Whincup,1987-09-16 Greg Whincup offers a varied and unique approach to Chinese translation in *The Heart of Chinese Poetry* Special features of this edition include direct word for word translations showing the range of meaning in each Chinese character the Chinese pronunciations as well as biographical and historical commentary following each poem **The Journal of Asian Studies** ,1977 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section **Cumulative Index to a Selected List of Periodicals** ,1899
