Fighting Retreat Walter Reid,2024 Winston Churchill was closely connected with India from 1896 when he landed in Bombay with his regiment until 1947 when independence was finally achieved No other British statesman had such a long association with the sub continent or interfered in its politics so consistently and harmfully Churchill strove to sabotage any moves towards independence crippling the Government of India Act over five years of dogged opposition to its passage in the 1930s As Prime Minister during the Second World War Churchill frustrated the freedom struggle from behind the scenes delaying independence by a decade To this day he is the imperialist villain for Indians held personally responsible for the Bengal Famine This book reveals Churchill at his worst cruel obstructive and selfish The same man was outstandingly liberal at the Colonial Office risking his career with his generosity to the Boers and the Irish and later speeding up independence in the Middle East Why was he so strangely hostile towards India **Where Have All the Soldiers Gone?** James J.

Sheehan,2009 An eminent historian offers a sweeping look at Europes tumultuous 20th century showing how the rejection of violence after World War II transformed a continent *Fighting from Above* Brian D. Laslie,2024-03-19 The story of the United States Air Force USAF stretches back to aerial operations prior to the First World War well before the USAF became a separate service and looks forward to a new era of airpower in space *Fighting from Above* presents a concise account of this expansive history offering a new perspective on how the air forces of the United States created an independent way of

warfare over time From the earliest battles of the USAF s predecessor organizations to its modern incarnation Brian D Laslie identifies four distinct and observable ways of war that developed over four distinct epochs Beginning with the development of early air power 1906 1941 he highlights the creation of roles and missions with bombardment theory and practice ascendant An era of strategic dominance 1942 1975 followed in which the ideas of strategic bombardment ruled the air force when such notions were unceremoniously proven false during the Vietnam era conflicts a period of tactical ascendancy 1975 2019 began Finally Laslie considers the current environment where much of the story of the USAF remains unwritten as it grapples with the prospects and challenges posed by drones and the U S Space Force While detailing combat operations *Fighting from Above* also pays close attention to technology politics rivalries logistics policy organization equipping and training Thorough concise and innovative in its approach it is an authoritative exceptionally readable history of the development of American airpower **Air University Review** ,1980-05 *Fighting Forces, Writing Women* Sharon Ouditt,2020-09-23 In a period of high idealism and titanic illimitable death women often found themselves longing to play an active role alongside their male compatriots In this fascinating work Sharon Ouditt examines the traumatic nature of women s experiences during the Great War and the complex ideological structures they constructed in order to legitimate their position in the public world of work and politics Using a wealth of historical material contemporary propaganda journals magazines memoirs and fiction Sharon Ouditt challenges the notion that women achieved sudden and unproblematic independence and demonstrates the ways in which women mediated their attraction to a fixed female identity with their desire for radical social change *Fighting for Status* Jonathan Renshon,2017-05-09 There is widespread agreement that status or standing in the international system is a critical element in world politics The desire for status is recognized as a key factor in nuclear proliferation the rise of China and other contemporary foreign policy issues and has long been implicated in foundational theories of international relations and foreign policy Despite the consensus that status matters we lack a basic understanding of status dynamics in international politics The first book to comprehensively examine this subject *Fighting for Status* presents a theory of status dissatisfaction that delves into the nature of prestige in international conflicts and specifies why states want status and how they get it What actions do status concerns trigger and what strategies do states use to maximize or salvage their standing When does status matter and under what circumstances do concerns over relative position overshadow the myriad other concerns that leaders face In examining these questions Jonathan Renshon moves beyond a focus on major powers and shows how different states construct status communities of peer competitors that shift over time as states move up or down or out of various groups Combining innovative network based statistical analysis historical case studies and a lab experiment that uses a sample of real world political and military leaders *Fighting for Status* provides a compelling look at the causes and consequences of status on the global stage **Fighting in the Dark** Vincent OHara,Trent Hone,2023-04-15 Before the twentieth century ships when relied upon visual signaling vessels beyond range of

sight or a cannon shot were blind deaf and dumb in the dark making night battles at sea rare and near always accidental The introduction of certain technologies like the torpedo the searchlight radio and then radar transformed naval warfare by making night combat feasible and in some cases desirable The process by which navies integrated these new tools of war and turned the dark into a medium for effective combat however was long and difficult Fighting in the Dark tells the story of surface naval combat at night from the Russo Japanese War through World War II The book is about the process of confronting and mastering problems brought on by technological change during war It does this by examining seven periods focusing on the Imperial Russian Navy in 1904 1905 the Imperial German Navy from 1914 1918 the Royal Navy from 1916 1939 the Regia Marina from 1940 1943 the Imperial Japanese Navy in 1942 the U S Navy in 1943 1944 and the Royal Navy and Royal Canadian Navy from 1943 1944 The chapters are written by authors hailing from Australia Canada Italy and the United States all recognized masters in their subject Alarmstart: The German Fighter Pilot's Experience in the Second World War Patrick G. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations *German Soldiers and the Occupation of France, 1940-1944* Julia S. Torrie, 2018-10-11 Occupations past and present Consuming the tastes and pleasures of France Touring and writing about occupied land Capturing experiences and photo books Rising tensions Westweich perceptions of softness among soldiers in France Twilight of the gods

Warrior R.G. Grant, 2007-09-17 Focusing on the front line soldiers who fought for their tribes their cities their overlords and their countries from the Ancient Greeks who repelled the invading Persians in the 5th century to the US Marines in action in Korea Vietnam and the Persian Gulf this visual history paints a compelling portrait of the front line soldier through 2 500 years of history The third in a series of illustrated military history books following the highly successful Battle and Weapon Warrior features vivid accounts of daily life training and tactics of the ordinary fighting man There are also features

on the kit they carried and the weapons they used as well as the part they played in significant battles In addition to celebrated soldiers of Europe and North America there are sections on equally formidable warriors from other parts of the world such as the Mongol horsemen of the 13th century the Aztecs the Samurai of 17th century Japan New Zealand's Maori and the Zulus of South Africa Warrior is organized into six sections covering six distinct periods in the history of warfare Phalanxes and Legions deals with the warfare of Ancient Greece and Rome Conquest and Chivalry explores the age of warriors who fought for either honor or plunder Pikemen and Musketeers charts the advent of gunpowder in the 16th century Empires and Frontiers deals with expansion of empires and the clashes of colonization Trenches and Dogfights looks at the mechanized warfare of World War I and II when the development of tanks aeroplanes and submarines as weapons of war marks the beginning of a completely new era and Guerillas and Commandos shows that despite the proliferation of death dealing machines the ordinary soldier still retains a role sometimes highly specialized such as helicopter borne infantry or guerrilla forces like the Vietcong who managed to resist the most powerful army on earth

Fighting from Home Serge Durflinger, 2011-11-01 In Verdun English and French speakers lived side by side Through their home front activities as much as through enlistment they proved themselves partners in the prosecution of Canada's war Shared experiences and class similarities shaped responses based first and foremost in a sense of local identity Fighting from Home paints a comprehensive at times intimate portrait of Verdun and Verdunites at war Durflinger offers an innovative interpretive approach to wartime Canadian and Quebec social and cultural dynamics It will appeal to anyone interested in the history of the Canadian home front during the Second World War
