Fighting Black Kings:

When Pawns Rebel Hattan Turki, 2005-09 When Pawns Rebel is a journey that a pawn takes through the demanding environment of the board while a game is in process The pawn changes his mind and his sense of right and wrong with every convincing argument that he hears After making up his mind on what his life should be about and events and his status do not satisfy his newly found goals does he cave in and let life take its usual course or will he attempt to alter his destiny and the destiny of all the other pawns on the board Will the other pawns agree with him on what s best for them or will they oppose him And what will the major pieces do once they find out about him and his conspiracy to strip them away of their superiority over the pawns How will all that happened effect the game and will it have an effect on other boards Making connections between the pawn and one self on an occasion or another should not be difficult
