Maneuver and Fire Power: The Evolution of Divisions and Separate Brigades ( Cloth Edition format only) John B. Wilson, 1999-01-20 CMH 60 14 Army Lineage Series Traces the evolution of divisions and brigades in the United States Army Gives a systematic account of the way these two organizations evolved highlighting the rationales behind that evolution and the many factors that played a part in bringing those changes into reality L C card 94 21031 Barbarossa Derailed: The Battle for Smolensk 10 July-10 September 1941 David Glantz, 2010-11-02 The first half of a two part study on Operation Barbarossa Hitler's plan to invade Soviet Russia during World War II and what went wrong At dawn on 10 July 1941 massed tanks and motorized infantry of German Army Group Center's Second and Third Panzer Groups crossed the Dnepr and Western Dvina Rivers beginning what Hitler and most German officers and soldiers believed would be a triumphal march on Moscow the Soviet capital Less than three weeks before on 22 June Hitler had unleashed his Wehrmacht's massive invasion of the Soviet Union code named Operation Barbarossa which sought to defeat the Soviet Red Army conquer the country and unseat its Communist ruler Josef Stalin Between 22 June and 10 July the Wehrmacht advanced up to 500 kilometers into Soviet territory killed or captured up to one million Red Army soldiers and reached the western banks of the Western Dvina and Dnepr Rivers by doing so satisfying the premier assumption of Plan Barbarossa that the Third Reich would emerge victorious if it could defeat and destroy the bulk of the Red Army before it withdrew to safely behind those two rivers With the Red Army now shattered Hitler and most Germans expected total victory in a matter of weeks The ensuing battles in the Smolensk region frustrated German hopes for quick victory Once across the Dvina and Dnepr Rivers a surprised Wehrmacht encountered five fresh Soviet armies Quick victory eluded the Germans Instead Soviet forces encircled in Mogilev and Smolensk stubbornly refused to surrender and while they fought on during July August and into early September first five and then a total of seven newly mobilized Soviet armies struck back viciously at the advancing Germans conducting multiple counterattacks and counterstrokes capped by two major counteroffensives that sapped German strength and will Despite immense losses in men and materiel these desperate Soviet actions derailed Operation Barbarossa Smarting from countless wounds inflicted on his vaunted Wehrmacht even before the fighting ended in the Smolensk region Hitler postponed his march on Moscow and instead turned his forces southward to engage softer targets in the Kiev region The derailment of the Wehrmacht at Smolensk ultimately became the crucial turning point in Operation Barbarossa This groundbreaking study now significantly expanded exploits a wealth of Soviet and German archival materials including the combat orders and
