Fiberglab Boat Survey:

Surveying Fiberglass Sailboats: A Step-by-Step Guide for Buyers and Owners Henry C. Mustin, 1994-01-22 Mustin's part by part look at hull deck rig and machinery is both a minicourse for transforming used boat shopping from a game of craps to a science and the first step in a holistic boat maintenance program His discussion of the significance of cracks found in aging hulls and decks is the most thorough in print He is not shy in assessing the lack of regulation of professional surveyors nor does he shrink from pointing a finger at shoddy building practices Having a used boat surveyed is a critical prelude to buying it Yet a professional survey is expensive several hundred dollars Surveying Fiberglass Sailboats will enable you to conduct your own surveys while narrowing the field then monitor a professional surveyor's performance when selecting your target boat

Fiberglass Boat Survey Manual Arthur Edmunds, 1979 *Fiberglass Boat Survey* Arthur Edmunds, 1998 Arthur Edmunds has created a tremendously informative book concerning fiberglass boats and their systems Fiberglass Boat Survey will guide you through the process of choosing a boat type for your intended use This book then continues by detailing exactly what you should inspect on any boat before you make an offer of purchase Granted a professional surveyor's report will be required at a later date to secure financing and insurance but this book will guide you through the same process the professional surveyor will use When you complete your own survey you will have a list of the positives and negatives which you can hold in hand at the time of your offer This step will not only enable you to make a fair offer but also will certainly prevent surprises when the surveyor files the final report You will not have your hopes built up only to have them dashed by the professional's report You will know all of the information before you make your first offer This book also offers information for locating hiring the customary fees for and interaction with the professional surveyor If only there were a book like this for used cars
