Reading Fiction

in Antebellum America James L. Machor,2011-04-01 James L Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War Machor takes four antebellum authors Edgar Allan Poe Herman Melville Catharine Sedgwick and Caroline Chesebro and analyzes how their works were published received and interpreted Drawing on discussions found in book reviews and in private letters and

diaries Machor examines how middle class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth century America Through careful analysis Machor illuminates how the reading practices of nineteenth century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century What Machor reveals is that these authors were received in ways strikingly different from how they are currently read thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time Machor deftly combines response and reception criticism and theory with work in the history of reading to engage with groundbreaking scholarship in historical hermeneutics In so doing Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences and how they impacted authors conceptions of their own readership

Reading Public Romanticism Paul

Magnuson,2014-07-14 Reading Public Romanticism is a significant new example of the linking of esthetics and historical criticism Here Paul Magnuson locates Romantic poetry within a public discourse that combines politics and esthetics nationalism and domesticity sexuality and morality law and legitimacy Building on his well regarded previous work Magnuson practices a methodology of close historical reading by identifying precise versions of poems reading their rhetoric

of allusion and quotation in the contexts of their original publication and describing their public genres such as the letter He studies the author's public signature or motto the forms and significance of address used in poems and the resonances of poetic language and tropes in the public debates According to Magnuson reading locations means reading the writing that surrounds a poem the paratext or frame of the esthetic boundary In their particular locations in the public discourse romantic poems are illocutionary speech acts that take a stand on public issues and legitimate their authors both as public characters and as writers He traces the public significance of canonical poems commonly considered as lyrics with little explicit social or political commentary including Wordsworth's Immortality Ode Coleridge's This Lime Tree Bower My Prison Frost at Midnight and The Ancient Mariner and Keats's On a Grecian Urn He also positions Byron's Dedication to Don Juan in the debates over Southey's laureateship and claims for poetic authority and legitimacy Reading Public Romanticism is a thoughtful and revealing work Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Practice and Representation of Reading in England James Raven, Helen Small, Naomi Tadmor, 2007-09-27 Developments in cultural history and literary criticism have suggested alternative ways of addressing the interpretation of reading How did people read in the past Where and why did they read How were the manner and purpose of reading envisaged and recorded by contemporaries and why Drawing on fields as diverse as medieval pedagogy textual bibliography the history of science and social and literary history this collection of fourteen essays highlights both the singularity of personal reading experiences and the cultural conventions involved in reading and its perception An introductory essay offers an important critical assessment of the various contributions to the development of the subject in recent times This book constitutes a major addition to our understanding of the history of readers and reading
