Reading the New Testament** Tat-siong Benny Liew, 2007-12-31 Liew is one of the most articulate creative and sophisticated biblical scholars in North America What Is Asian American Biblical Hermeneutics has not caused me to question that judgment A set of provocative questions arguments issues and problems the book opens a window onto what it means for human beings to try to negotiate a rather complex contemporary world with evidence of increasingly blurred but also thick ideological and social cultural boundaries and overlapping but also recognizable and isolable identity formations That Liew does this by using and bringing together the category Asian American and the phenomenon of the reading of the Bible as sharp analytical wedge is all the more fascinating This impressive book represents the collapse of the center and a major shift in orientation to the peripheries It is a major achievement and a major challenge Vincent L Wimbush Claremont Graduate University A groundbreaking achievement Dr Liew uses his amazing breadth of scholarship to challenge Eurocentrism in biblical studies and secularism in Asian American studies at once Like Gender Trouble The Future of an Illusion and other original work this book will become a classic in Asian American biblical hermeneutics setting the terms of debate for years to come After Liew reading the New Testament will never be the same again Kwok Pui lan Episcopal Divinity School Cambridge Massachusetts This is the first single authored book on Asian American biblical interpretation It covers all of the major genres within the New Testament and broadens biblical hermeneutics to cover not only the biblical texts but also Asian American literature and current films and events like genome research and September 11 Despite its range the book is organized around three foci methodology the distinguishing characteristics or sensibilities of Asian American biblical hermeneutics community the politics of inclusion and exclusion and agency The work intentionally affirms Asian America as a panethnic coalition while acknowledging the differences within it In other words it attempts to balance Asian American panethnicity and heterogeneity or coalition building and identity politics **The Semiotic Web 1986** Thomas A. volume place into relief the idea that ideological and aesthetic discourses of hunger could inform ethical thinking and practices about who or what constitutes the figure of the modern historical human

**Imperial Paradoxes** Robert James Merrett, 2021-08-15 At war for sixty years eighteenth century Britain and France experienced demographic social and economic exchanges despite their imperial rivalry Paradoxically this rivalry spurred their participation in scientific and industrial developments Their shared interest in standards of living and cultural practices was fuelled by migration and philosophical exchanges that reciprocally transmitted the values of urban geography medicine teaching and the industrial and fine arts In *Imperial Paradoxes* Robert Merrett compares British and French literature on those topics He explains how food wine fashion and tourism were channels of interdisciplinary relations and shows why authors in both nations turned the notion of empire from commercial and military expansion into a metaphor for exploring self knowledge and pleasure Although cognitive science has come to the fore only in the past two generations eighteenth century writers tested problems in the dualist and faculty psychology of Western rationalism Themes of embodiment and embodied thought drawn from recent theorists are applied throughout this book along with dialectics and models of the senses operating together *Imperial Paradoxes* avoids the limitations of strict chronology weaving together multiple narratives for a more complete picture Applying major works in the fields of cognitive science cognitive psychology and pedagogical theory to prose poetry and drama from the eighteenth century Merrett shows how attention to eating drinking dressing and travelling gives important insights into individual literary works and literary history

**The Loaded Table : Representations of Food in Roman Literature** Emily Gowers, 1993-01-21 This book offers a novel and unconventional approach to Roman culture through food or rather food as it is represented in literature Food is not generally thought of as the noblest of literary subjects and this view is a legacy from the Romans so it is curious that Roman writers chose so persistently to depict their society at the dinner table Why this was so and what effect the inclusion of food had on the status

of the literary texts that described it are among the questions discussed here The book also addresses problems that arise when a material subject is translated into words and contains fresh interpretations of Latin texts that have been unjustly undervalued comedy satire epigrams letters and iambics While often regarded as something trivial and gross food was in fact one of the most suggestive images for Roman civilization

Doucette,1984-12-15 It is only recently that historians of the theatre in French Canada have turned their attention to playwrights active before the twentieth century Their practice had been to trace the roots of theatre to mid 1930s to the appearance of Father Emile Legault and his troupe the Compagnons de Saint Laurent dismissing what had gone before In this innovative history Leonard Doucette sets out deal for the first time with all plays that have survived to 1867 and to link them with the evolution of politics institutions and culture in French Canada The study of theatre has often been handicapped also by the outdated practice of defining the literary cultural history of a nation by identifying the masterpieces produced in specific periods and then defining other works in terms of what they are not The surprisingly rich and varied history of theatrical forms in French Canada has just begun to receive the attention it deserves from scholars Some of the texts and authors referred to in this history are identified for the first time the materials cited and conclusions drawn are based upon original research in major Canadian libraries as well as the works of published critics and historians The result is an excellent introduction to the various forms theatre has taken and the problems it has encountered in French Canada     The Monster That Is History Dewei Wang,2004-10-04 In ancient China a monster called Taowu was known for both its vicious nature and its power to see the past and the future Since the seventeenth century fictive accounts of history have accommodated themselves to the monstrous nature of Taowu Moving effortlessly across the entire twentieth century literary landscape David Der wei Wang delineates the many meanings of Chinese violence and its literary manifestations     Slavic Sins of the Flesh Ronald D. Selinger, 2013-07-11 The Genpei War of 1180-1185 signaled a crucial shift in Japanese history because it gave birth to the shogunate or government run by warriors How was the emergence of this new polity following a contentious civil war explained in literary texts This book argues that political authority is made visible in the variant texts of the Heike monogatari corpus through rituals that map the ideal social cosmic order overwriting untidy historical realities Artifacts of material culture likewise provide the social and political codes to authenticate warrior power and manage its violence Through its focus on ritual and material practices this book offers a new perspective on how texts from fourteenth century Japan harnessed symbolic understandings of authority to evoke order and contain rupture Equally significant is its analysis of the Genpei j suiki a Heike monogatari variant that played a critical role in the retrospection of medieval Japan through the early modern period
