Star Tales Ian Ridpath, 2018-01-01 Every night a pageant of Greek mythology circles overhead Perseus flies to the rescue of Andromeda Orion faces the charge of the snorting Bull and the ship of the Argonauts sails in search of the Golden Fleece Constellations are the invention of human imagination not of nature They are an expression of the human desire to impress its own order upon the apparent chaos of the night sky Modern science tells us that these twinkling points of light are glowing balls of gas but the ancient Greeks to whom we owe many of our constellations knew nothing of this Ian Ridpath award winning astronomy writer and popularizer has been intrigued by the myths of the stars for many years Star Tales is the first modern guide to combine all the fascinating myths in one book illustrated with the beautiful and evocative engravings from two of the leading star atlases Johann Bode s Uranographia of 1801 and John Flamsteed s Atlas Coelestis of 1729 This classic book now in a revised and expanded edition presents additional information on the constellations with new and enchanting illustrations For anyone interested in the stars and classical mythology for anyone who is an armchair astronomer this is the perfect gift

Astronomy: a Handbook G.D. Roth, 2012-12-06 Several decades have elapsed since the publication of any similar book in the German language The lack of such a book has been felt keenly by all friends of astronomy In our space age astronomical knowledge arouses public interest more and more Practical observation at the telescope depends more than anything else on such knowledge The educational value of such a training is undisputed On the other hand the work of the amateur astronomer can also contribute essentially to the work of the professionals It is from these points of view that this handbook aims to help with versatile advice At the same time the book intends to show the wide range of applied astronomy as it presents itself to the friend of the stars in mathematical physical

fields in precision mechanics and optics and last but not least in the area of social relations Beyond the circle of amateur astronomers the book is addressed to lecturers teachers students and pupils It wishes to serve them as a guide to astronomical experiments which we suggest should be performed in primary and secondary schools specialist colleges and extramural courses **Exploring the Other Island** John Turner,2010-12-15 **The Fourth Star** Bill Simmons,2011-09-12 Robert Candell is devastated when his close friend and mentor Jack Marsel suddenly dies Robert is soon hired by a mysterious organization known only as the group and learns that his friend Jack had secretly worked for this mysterious group Robert and the group work to stop the corporate greed that is destroying our environment and hope to provide a better world for our future generations When disaster strikes due to corporate greed Robert and the group must work to make those corporate executives who they hold responsible for the disaster pay for their actions and send a message to other corporate executives that the destruction of the planet and our ecosystems will no longer be tolerated Twist and turns take the reader through secret groups clandestine meetings international intrigue and adventure corporate greed political corruption earth changes and global climate change Who is this mysterious group that has the ability and the determination to take on the government corporations and the global elite What is the Fourth Star **Boys' Life** ,1968-05 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting *Star Maps for Southern Africa* Albert Jansen,2017-10-01 The first star guide of its kind in the southern hemisphere this book features 96 star maps for observing the southern skies with the naked eye standard binoculars or a small telescope Divided into 12 sets the maps cover all eight principal views of the sky N NE E SE S SW W and NW for each month of the year and for different times during each night For each set of star maps the reader is alerted to prominent stars and constellations visible during that period of viewing Terms and concepts are explained and frequently asked questions addressed *Star Maps for Southern Africa* provides thorough and extensive coverage of our night skies enabling readers to track stars and related spectacles throughout the year It will remain relevant for a lifetime

Literature 1969, Part 2 Siegfried Böhme,Walter Fricke,Ulrich Güntzel-Lingner,Frieda Henn,Dietlinde Krahn,Gert Zech,2012-12-06 *Astronomy and Astrophysics Abstracts* which appears in semi annual volumes is devoted to the re cording summarizing and indexing of astronomical publications throughout the world It aims to pre sent a comprehensive documentation of literature in all fields of astronomy and astrophysics Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months This time interval is near to that achieved by monthly issued abstracting journals compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user Volume 2 contains literature published in 1969 and received before March 15 1970 some older literature which was received late and which is not recorded in Volume 1 is also included The authors of papers who have sent us abstracts on request have effectively
