## **Fifty Years March The Rise Of The Labour:**

Fifty Years' March Francis Williams, 1946      **Fifty Years' March. The Rise of the Labour Party, Etc. [With Plates.].** Edward Francis WILLIAMS (Baron Francis-Williams.), 1949      **Fifty Years' March** Edward Francis William (Baron Francis-Williams of Abinger.), 1950      **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996

Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index      *Clement Attlee* John Bew, 2017-01-25 Throughout the first half of the twentieth century Winston Churchill's wartime heroics and larger than life personality propelled him to the center of the world stage To most he remains Great Britain's greatest Prime Minister his fame and charisma overshadowing those who followed in his footsteps Yet while he presided over his country's finest hour he was not its most consequential leader In this definitive new biography John Bew reveals how that designation belongs to Clement Attlee Churchill's successor who launched a new era of political economic and social reform that would forever change Great Britain Bew's thorough and keen examination of Attlee the former leader of the Labour Party illuminates how his progressive beliefs shaped his influential domestic and international policy Alternatively criticized for being too socialist or not radical enough Attlee's quiet tenacity was intrinsic to the success of his party and highly pertinent to British identity overall In 1948 he established the National Health Service as part of his British New Deal a comprehensive universal system of insurance welfare and family allowances to be enjoyed by all British citizens Attlee also initiated key advancements in international relations by supporting the development of both the United Nations and the North Atlantic Treaty Organization and by granting independence to India Burma and Ceylon More controversially he sanctioned the building of Britain's nuclear deterrent in response to the rise of the Soviet Union and the threat of atomic bombs Clement Attlee *The Man Who Made Modern Britain* explores his tenure in the years after the war as he presided over a radical new government in an age of austerity and imperial decline Bew mines contemporary memoirs diaries and press excerpts to present readers with an illuminating and intimate look into Attlee's life and career Attentive to both the man and the political landscape this comprehensive biography provides new insight into the soul of a leader who transformed his country and by extension the vast empire over which it once ruled      **The Political Culture of the Left in Affluent Britain, 19 51-64** L. Black, 2002-12-11 Exploring relationships between politics the people and social change this book assesses the fortunes mainly of Labour but also of the Communist Party and the New Left in postwar Britain Using concepts like political culture it looks at the left's articulation of affluence consumerism youth culture America TV advertising and its disappointment at the people under the impact of such changes It also examines party organization socialist thinking and the use of new communication techniques like TV advertising and opinion polling      *The Crosland legacy* Diamond, Patrick, 2016-07-20

Anthony Crosland bequeathed a significant intellectual legacy to the Labour Party including his celebrated treatise *The Future of Socialism* published sixty years ago. In this timely book Patrick Diamond argues that Crosland continues to serve as a vital reference point for today's Labour Party. He considers a wide range of Crosland's writings on the economy and politics relating his ideas to ideological debates taking place within the Labour Party about egalitarian social democracy, electoral strategy, the European question and the importance of progressive liberalism on the British centre left. This is the first substantial work to fully consider Crosland's legacy for British social democracy. Written in a clear and persuasive way, it will appeal to a broad audience of thinkers and activists with an interest in the history of the Labour Party and the British Left.

**History** Peter Claus, John Marriott, 2014-01-14 Why should history students care about theory? What relevance does it have to the proper role of the historian? Historiography and historical theory are often perceived as complex subjects which many history students find frustrating and difficult. Philosophical approaches, postmodernism, anthropology, feminism or Marxism can seem arcane and abstract and students often struggle to apply these ideas in practice. Starting from the premise that historical theory and historiography are fascinating and exciting topics to study, Claus and Marriott guide the student through the various historical theories and approaches in a balanced, comprehensive and engaging way. Packed with intriguing anecdotes from all periods of history and supported by primary extracts from original historical writings, *History: An Introduction to Theory, Method and Practice* is the student-friendly text which demystifies the subject with clarity and verve. Key features: Written in a clear and witty way. Presents a balanced view of the subject rather than the polemical view of one historian. Comprehensive: covers the whole range of topics taught on historiography and historical theory courses in suitable depth. Full of examples from different historical approaches from social, cultural and political history to gender, economic and world history. Covers a wide chronological breadth of examples from the ancient and medieval worlds to the twentieth century. Shows how students can engage with the theories covered in each chapter and apply them to their own studies via the 'In Practice' feature at the end of each chapter. Includes Discussion Documents: numerous extracts from the primary historiographical texts for students to read and reflect upon.

**War Against War** Francis L. Carsten, Francis Ludwig Carsten, 1982-01-01 **Labour's First Century** Duncan Tanner, Pat Thane, Nick Tiratsoo, 2000-09-11 The Labour Party's centenary is an appropriate moment to evaluate its performance across the twentieth century and to reflect on why a party which has so many achievements to its credit nonetheless spent so much of the period in opposition. Duncan Tanner, Pat Thane and Nick Tiratsoo have assembled a team of acknowledged experts who cover a wide range of key issues from economic policy to gender. The editors also provide a lucid, accessible introduction. *Labour's First Century* covers the most important areas of party policy and practice, always placing these in a broader context. Taken together, these essays challenge those who minimize the party's contribution whilst they also explain why mistakes and weaknesses have occurred. Everyone interested in British political history, whether supporters or opponents of the Labour Party, will need to read *Labour's First*

Century      **Keir Hardie's Creed** Neil Johnson,2023-10-27 For James Keir Hardie founding father of the British Labour Party Socialism was the Christianity of his day Keir Hardie realized that the abject poverty of his early years was economic social and political oppression so he dedicated his life to fighting for justice He found inspiration in the visions insights and concepts of figures from Jesus of Nazareth to Robert Burns and Karl Marx At the heart of Keir Hardie s creed was the belief that human solidarity is sacred What underpins this study is the understanding that labour history is religious history      *Age of Promises* David Thackeray,Richard Toye,2021-03-25 *Age of Promises* explores the issue of electoral promises in twentieth century Britain how they were made how they were understood and how they evolved across time through a study of general election manifestos and election addresses The authors argue that a history of the act of making promises which is central to the political process but which has not been sufficiently analysed illuminates the development of political communication and democratic representation The twentieth century saw a broad shift away from politics viewed as a discursive process whereby at elections it was enough to set out broad principles with detailed policymaking to follow once in office following reflection and discussion Over the first part of the century parties increasingly felt required to compile lists of specific policies to offer to voters which they were then considered to have an obligation to carry out come what may From 1945 onwards moreover there was even more focus on detailed costed pledges We live in an age of growing uncertainty over the authority and status of political promises In the wake of the 2016 EU referendum controversy erupted over parliamentary sovereignty Should the will of the people as manifested in the referendum result be supreme or did MPs owe a primary responsibility to their constituents and or to the party manifestos on which they had been elected *Age of Promises* demonstrates that these debates build on a long history of differing understandings about what status of manifestos and addresses should have in shaping the actions of government      *Monthly Labor Review* ,2002 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews      **The Struggle for Labour's Soul** Raymond Plant,Matt Beech,Kevin Hickson,2004 Contributors ranging from Chancellor Gordon Brown to the Guardian newspaper s Polly Toye discuss the Labour Party s political philosophy and address key topics like globalization constitutional reform equality and the third way      **Four Nations Approaches to Modern 'British' History** Naomi Lloyd-Jones,Margaret Scull,2017-10-26 This collection brings together leading and emerging scholars to evaluate the viability of four nations approaches to the history of the United Kingdom from the eighteenth to the twentieth century It recognises the separate histories of England Ireland Scotland and Wales and explores the extent to which they share a common British history They are entwined with the points at which they interweave and detach dependent upon the nature of our inquiry where we locate our core and our periphery and the cause and effect of our subject The collection demonstrates that four nations frameworks are relevant to a variety of topics and tests the limits of the methodology The chapters illuminate the changing shape of modern British history writing and provide fresh perspectives on subjects ranging from state governance

nationalism and Unionism economics cultural identities and social networking      **Bernard Shaw and the Webbs** Bernard Shaw, 2002-01-01 This collection of 140 annotated letters 74 of which have never been published documents the subsequent friendship and collaboration shared by Shaw Webb and Webb's wife Beatrice throughout their lives      **London's Burning** Antony Taylor, 2012-01-26 From the early years of the nineteenth century cultural pessimists imagined in fiction the political forces that might bring about the destruction of London Periods of popular protest or radicalism have generated novels that consider the methods insurgents might use to terrorise the metropolis There has been a tendency to dismiss such writings as the lurid imaginings of pulp novelists but this book re-evaluates the contribution of popular fiction to the construction of the terrorist threat It analyses the high points for the production of such works and locates them in their cultural and historical context From the 1840s when a fear of Chartist insurgency was paramount in the minds of authors it moves through the anarchist thrillers of the 1890s considers writers' fears about Bolshevik revolution in the East End of the 1920s and 1930s explores fears of Fascism in the inter-war years and assesses the concerns with underground counter-culture that feature in the thriller literature of the 1970s It concludes with a re-evaluation of the metropolitan background to the figure of the Islamist terrorist      **Rethinking Labour's Past** Nathan Yeowell, 2022-01-13 The Labour Party after Jeremy Corbyn is charting a new direction Here Nathan Yeowell has brought together a remarkable array of contributors to provide expert insight into twentieth-century British history and Labour politics and how they might shape thinking about Labour's future Reframing the span of Labour history and its effects on contemporary British politics the book provides fresh thinking and analysis of various traditions themes and individuals These include the shifting significance of 1945 the need for more grounded interpretations of Tony Blair's legacy and the enduring importance of place identity and aspiration to the evolution of the party Contributions from leading historians such as Patrick Diamond Steven Fielding Ben Jackson Glen O'Hara and Florence Sutcliffe Braithwaite are supplemented by those with experience of Labour electoral politics such as Rachel Reeves and Nick Thomas-Symonds The result is an intellectually rich and politically relevant roadmap for Labour's future      *Fifty Years of Economic Measurement* Ernst R. Berndt, Jack E. Triplett, 2008-04-15 This volume contains papers presented at a conference in May 1988 in Washington D.C. commemorating the fiftieth anniversary of the founding of the Conference on Research in Income and Wealth (CRIW) The call for papers emphasized assessments of broad topics in economic measurement both conceptual and pragmatic The organizers desired and succeeded in obtaining a mix of papers that first illustrate the range of measurement issues that economics as a science must confront and second mark major milestones of CRIW accomplishment The papers concern prices and output Griliches Pieper Triplett and also the major productive inputs capital Hulten and labor Hamermesh Measures of saving the source of capital accumulation are covered in one paper Boskin measuring productivity the source of much of the growth in per capita income is reviewed in another Jorgenson The use of economic data in economic policy analysis and in regulation are illustrated in a review of measures of tax burden Atrostic and

Nunns and in an analysis of the data needed for environmental regulation Russell and Smith the adequacy of data for policy analysis is evaluated in a roundtable discussion chapter 12 involving four distinguished policy analysts with extensive government experience in Washington and Ottawa
