## **Fifty Years With Goethe 1901-1951:**

*Fifty Years with Goethe, 1901-1951* Alexander Rudolf Hohlfeld, 1953      **The Novel as Archive** Ehrhard Bahr, 1998

Goethe's novel defined as a key work anticipating modernist novels of 20th century A fresh study of one of the most perplexing and daring novels ever written one that was largely misunderstood when it first appeared and which has emerged only in the last two decades as a work that pointed forward stylistically and structurally to the modernist novels of the twentieth century Bahr shows how Goethe subordinated the role of the author narrator making use of a variety of sophisticated narrative devices such as the archive the interpolated novella some of whose characters appear as real figures in the novel itself to distance himself from the work thus ironizing its apparent meaning      **Debating World Literature**

Benedict Richard O'Gorman Anderson, 2004 Goethe's Weltliteratur and the cultural forms of globalization      **World Literature in Theory** David Damrosch, 2014-01-28 World Literature in Theory provides a definitive exploration of the pressing questions facing those studying world literature today Coverage is split into four parts which examine the origins and seminal formulations of world literature world literature in the age of globalization contemporary debates on world literature and localized versions of world literature Contains more than 30 important theoretical essays by the most influential scholars including Johann Wolfgang von Goethe Hugo Meltzl Edward Said Franco Moretti Jorge Luis Borges and Gayatri Spivak Includes substantive introductions to each essay as well as an annotated bibliography for further reading Allows students to understand articulate and debate the most important issues in this rapidly changing field of study      **The Idea of World Literature** John Pizer, 2006-04-15 Johann Wolfgang von Goethe introduced the concept of Weltliteratur in 1827 to describe the growing availability of texts from other nations Although the term World Literature is widely used today there is little agreement on what it means and even less awareness of its evolution In this wide ranging work John Pizer traces the concept of Weltliteratur in Germany beginning with Goethe and continuing through Heinrich Heine Karl Marx and Friedrich Engels to the present as he explores its importation into the United States in the 1830s and the teaching of World Literature in U S classrooms since the early twentieth century Pizer demonstrates the concept's ongoing viability through an in depth reading of the contemporary Syrian German transnational novelist Rafik Schami He also provides a clear methodology for World Literature courses in the twenty first century Pizer argues persuasively that Weltliteratur can provide cohesion to the study of World Literature today In his view traditional World Lit classes are limited by their focus on the universal elements of literature A course based on Weltliteratur however promotes a more thorough understanding of literature as a dialectic between the universal and the particular In a practical guide to teaching World Literature by employing Goethe's paradigm he explains how to help students navigate between the extremes of homogenization on the one hand and exoticism on the other learning both what cultures share and what distinguishes them Everyone who teaches World Literature will want to read this stimulating book In addition anyone interested in the development of the concept from its

German roots to its American fruition will find The Idea of World Literature immensely rewarding     *Goethe-Bibliographie*
