The Last Epic Naval Battle David Sears,2005-06-30 Often overshadowed by other Pacific War engagements such as Midway or Guadalcanal the Battle of Leyte Gulf was characterized by some of the most gallant hours in seagoing history the U S Navy s defeat of the combined Japanese fleet during the invasion of the Philippines in October 1944 Involving more ships than even the gargantuan First World War Battle of Jutland and two hundred thousand men it was the biggest naval battle in world history It marked the last time that huge capital ships fought within sight and sound of each other Using the personal accounts of the men who were there Sears tells this mammoth and compelling story This moving tale uses personal accounts of the veterans who achieved victory in the biggest and last great naval battle largely fought with aging ships untested reserve crews and teenaged combat aircraft pilots Often overshadowed by other Pacific War engagements such as Midway or Guadalcanal the Battle of Leyte Gulf was characterized by some of the most gallant hours in seagoing history the U S Navy s defeat of the combined Japanese fleet during the invasion of the Philippines in October 1944 Involving more ships than even the gargantuan First World War Battle of Jutland and two hundred thousand men it was the biggest naval battle in world history It marked the last time huge capital ships fought within sight and sound of each other Using the personal accounts of the men who were there Sears tells this mammoth and compelling story The Battle of Leyte Gulf could have been the Pacific War s Battle of the Bulge In a space of 12 hours Japan a beaten cornered enemy was able to devise and execute a strategy that very nearly pierced the heart of America s war machine The real margin of victory would come from surprising quarters from aging ships risen from the graveyard of the war s infamous first day from small hastily constructed ships with largely untested reserve crews from fragile support ships never intended to be anywhere near battles of this scale and from combat aircraft piloted by teenagers

Fighting Invisible Enemies Clifford E. Trafzer,2019-05-09 Native Americans long resisted Western medicine but had less power to resist the threat posed by Western diseases And so as the Office of Indian Affairs reluctantly entered the business of health and medicine Native peoples reluctantly began to allow Western medicine into their communities Fighting

Invisible Enemies traces this transition among inhabitants of the Mission Indian Agency of Southern California from the late nineteenth through the mid twentieth century What historian Clifford E Trafzer describes is not so much a transition from one practice to another as a gradual incorporation of Western medicine into Indian medical practices Melding indigenous and medical history specific to Southern California his book combines statistical information and documents from the federal government with the oral narratives of several tribes Many of these oral histories detailing traditional beliefs about disease causation medical practices and treatment are unique to this work the product of the author s close and trusted relationships with tribal elders Trafzer examines the years of interaction that transpired before Native people allowed elements of Western medicine and health care into their lives homes and communities Among the factors he cites as impelling the change were settler borne diseases the negative effects of federal Indian policies and the sincere desire of both Indians and agency doctors and nurses to combat the spread of disease Here we see how unlike many encounters between Indians and non Indians in Southern California this cooperative effort proved positive and constructive resulting in fewer deaths from infectious diseases especially tuberculosis The first study of its kind Trafzer s work fills gaps in Native American medical and Southern California history It informs our understanding of the working relationship between indigenous and Western medical traditions and practices as it continues to develop today

Fighting the Night Paul Hendrickson,2024-05-07 From the acclaimed and best selling author of Hemingway s Boat the profoundly moving story of his father s wartime service as a night fighter pilot and the prices he and his fellow soldiers paid for their acts of selfless patriotic sacrifice In the fall of 1944 Joe Paul Hendrickson the author s father kissed his twenty one year old wife and two baby children goodbye The twenty five year old first lieutenant pilot of a famed P 61 Black Widow was leaving for the war He and his night fighter squadron were sent to Iwo Jima where for the last five and a half months of World War II he flew approximately seventy five missions largely in pitch black conditions His wife would wait out the war at the home of her small town Ohio parents one of the countless numbers of American family members shouldering the burden of being left behind Joe Paul the son of a Depression poor Kentucky sharecropper was fresh out of high school in 1937 when he enlisted in mechanic school in the peacetime Army Air Corps Eventually he was able to qualify for flight school

After marriage and with the war on the young officer and his bride crisscrossed the country airfield to airfield base to base Santa Ana Yuma Kissimmee Bakersfield Orlando La Junta Fresno He volunteered for night fighters and the newly arrived and almost mythic Black Widow A world away the carnage continued As Paul Hendrickson tracks his parents journey together and separate both stateside and overseas he creates a vivid portrait of a hard to know father whose time in the war he comes to understand was something truly heroic but never without its hidden and unhidden psychic costs Bringing to life an iconic moment of American history and the tragedy of all wars *Fighting the Night* is an intense and powerful story of violence and love forgiveness and loss And it is a tribute to those who got plunged into service in the best years of their lives and the sacrifices they and their loved ones made then and thereafter

Intrepid's Fighting Squadron 18 Michael I. Fink, 2025-01-14 USS *Intrepid's* Fighting Squadron 18 VF 18 was one of the U S Navy's highest scoring carrier units of World War II Despite having only one combat veteran in its roster its aviators including Cecil Speedball Harris the Navy's second ranking ace were credited with shooting down more than 170 planes during their 81 day tour of duty earning the squadron the nickname Two a Day 18 in newspapers nationwide How did a novice unit with a comparatively short time in theater accomplish such a feat To answer this question *Intrepid's* Fighting Squadron 18 follows squadron members through training into combat and finally to the end of their harrowing stories whether they took the return trip home or made the ultimate sacrifice Drawing extensively on archival and family collections author Mike Fink reveals the personalities of these men and the binding friendships they

built Moe Mollenhauer Fighting 18 s youngest pilot had a score to settle with the Japanese Outspoken Punchy Mallory incredibly was reprimanded for shooting down enemy planes And the squadron s best known figure Cecil Speedball Harris took the lead in preparing his peers for war before they took their place at the tip of the Navy s spear Intrepid s Fighting Squadron 18 is as much about the bonds these young men formed as it is about Pacific War history The men of Fighting 18 joined the Navy s massive fast carrier force in August 1944 just in time to participate in the last great air and sea battles in the Pacific They were one of the first squadrons to engage Japan s massive battleship force during the Battle of Leyte Gulf racked up incredible scores and suffered devastating losses during the Formosa Air Battle and bore witness to an unthinkable new weapon the kamikaze suicide attack as the war entered its desperate endgame Ultimately Intrepid s Fighting Squadron 18 showcases the powerful impact of war on those who fight it and sheds light on the impact of those men on the war itself

Pearl Harbor's Revenge Rod Macdonald, 2024-07-09 informative and detailed with some interesting and little known anecdotes as well National Maritime Historical Society Early on Sunday 7 December 1941 Japanese carrier borne aircraft launched a surprise attack against the US Pacific Fleet based at Pearl Harbor It was a date that President Roosevelt declared will live in infamy During the strike Japanese planes attacked the seven US battleships lined up in Battleship Row and the flag battleship USS Pennsylvania in drydock for overhaul The battleship USS Arizona exploded from a bomb hit at the forward magazine killing 1 177 officers and men On USS Oklahoma 429 men were killed many trapped inside as the great battleship capsized after aerial torpedo strikes

USS West Virginia meanwhile was hit by at least seven torpedoes and several bombs and engulfed in flames she settled onto the bottom on an even keel USS California was hit by a pair of torpedoes and a bomb flooding slowly she too settled on the bottom The other four battleships present were more lightly damaged with the crippled Nevada the only battleship to get underway during the attack being successfully beached By the time the assault was over eight battleships three light cruisers three destroyers a training ship and other smaller vessels had been sunk or damaged Hundreds of US aircraft had been damaged or destroyed while 2 403 Americans had been killed Within a week of the Japanese attack a great salvage organization had been formed Very quickly the lightly damaged battleships Pennsylvania Maryland and Tennessee had been repaired in naval yards and put back into service to protect the west coast of the USA Of the eight battleships attacked all but Arizona were raised temporarily patched up and sent back to naval yards on the west coast of America for final repair and modernization Main battery guns and ordnance were recovered from the wrecked Arizona which would then be left to rest on the bottom of the harbor for eternity as a memorial to the events of that fateful December day USS Nevada was lifted off the bottom in February 1942 California in March 1942 and West Virginia in June 1942 The capsized Oklahoma while eventually parbuckled and raised was found to be too badly damaged to be fully rebuilt Six of the eight battleships would thus return to service with improved protection against bombs and torpedoes and being fitted with the latest anti aircraft and gunnery systems They would re enter to the war to wreak a terrible revenge making their presence felt during the reconquest of the Aleutian Islands and the Philippines and the great battles of Leyte Gulf Iwo Jima and Okinawa Nevada would go on Atlantic convoy duty before bombarding German positions off Utah beach as the D Day Normandy landings began This is the story of those six Revision of the Avian Genus Passerella Harry Schelwald Swarth, 1920
