Fighting Blind:

Fighting Blind Ivan Castro, Jim DeFelice, 2016-11-15 Fighting was a practiced routine for Lieutenant Ivan Castro But when a mortar round struck the rooftop of his sniper s post in Iraq he found himself in a battle more difficult than even he could have imagined The direct hit killed two other soldiers and nearly claimed Castro s life as well Mangled by shrapnel and badly burned Castro was medevac d to Germany more dead than alive His lungs were collapsed He couldn t hear One eye had been blown out the nerve to the other severed In the weeks and months that followed Castro would find that physical darkness was nothing compared to the emotional darkness of loss and despair Desperate for a reason to live he eventually fought his way back to health through exercise and a single minded goal running a marathon Once he set his course there was no stopping him Stubborn to a point that at times bordered on insanity he managed not only to recover but to return to active duty Since 2007 he has run over two dozen marathons including the Boston Marathon in 2013 where he was one of the runners diverted when the bombs exploded Today Castro helps prepare soldiers for combat working exactly as if he were sighted Fighting Blind this frankly told account of his struggle through adversity the highs and lows and the always bumpy road in between is a story of hope and perseverance against the odds an Unbroken for the present generation [Fighting Blind](#) Jeremy Lee, 2015-11-01 Fighting Blind is a story about the battles we all fight Ezzard Pearl Riley lost his mother at age eleven to a suspicious accident and was left with his drunken father Teddy Rose was a devout family man who had been training his entire life but struggles after losing his most loved fighter Fighting Blind is a story of our human condition to overcome and win the fight of life **A Dollar's Worth** Joey Chisesi, Diane Chisesi, 2010-08 What s A Dollar s Worth Enough to change a life Nate Bradford s life changed the day his parents disappeared in a boating accident He went from living an idyllic life in Seattle as the son of a police officer and seamstress to that of a troubled teen passed around from foster home to foster home Alone and angry he turns to alcohol for comfort One day in a drunken stupor Nate finds a dollar on the street That dollar changes his life Nate tries his luck at a nearby casino When the dollar turns into twenty five hundred something inside clicks and Nate decides to clean himself up He gets a room at the local rescue mission and starts working out at Gerald s Place It s an old grimy boxing gym but Nate is enthralled with boxing and soon falls under the mentorship of Max The Axe who trains him to be the best prizefighter in town Not only is Nate the best prizefighter in town but he s also got the best gal in town Misty Nate continues to win match after match but Misty worries that Nate s going to get hurt and when he lands himself in the hospital after a fight it puts their relationship to the test Will Nate lose both his boxing career and the only woman he s ever loved Joey Chisesi has written special feature articles for various newspapers across the country A Dollar s Worth is his first novel He lives in California with his wife His daughter Diane is a technical writer She lives in Colorado Springs **Arcanum** Joseph Barresi, 2011-03-30 At long last the core rule book for the World of Arator is here Included within these pages are the full current rules and all information needed in order to play games within the Arcanum

KidWorld the Role Playing Game , *The Strategy and Tactics of Air Fighting* Oliver Stewart, 1925 Beskriver den strategi og taktik der inden for luftkrigsfrelsen blev anvendt i Storbritannien indtil 1925 *Air War Over America* Leslie Filson, 2003 Describes America's air sovereignty mission in the wake of the terrorist attacks of September 11 2001 *Schools for Growth* Lois Holzman, 2016-05-06 A passionate deconstruction and reconstruction of learning development and schooling that urges teachers to explore and create new educational opportunities for themselves and their students Schools for Growth Radical Alternatives to Current Educational Models asks the following questions Can we create ways for people to learn the kinds of things that are necessary for functional adaptation without stifling their capacity to continuously create their growth Can schools become environments that support children to perform not only as learners but as developers of their lives This book challenges educators to look at the deeply rooted assumptions about schooling learning and development and urges that the way psychology and education have constructed our conceptions of what it means to teach to learn and to grow may be the most serious impediment to the learning and developing of children Beyond the criticism the author presents an original methodological reformation of what learning and development are as relational activities and then takes readers on a visit to three radical independent school settings Arguing that current educational models have been misguided by scientific psychology the author states that the dominant model of human development actually hinders development Moreover as learning theory has become infused with developmental theory over the past 30 years the overly cognitive manner in which psychologists have come to think about thinking learning and development has become further insinuated into education Both theories learning and developmental fail to recognize the human capacity for relational revolutionary activity and for performance The prevalent mode of education acquisitional learning is grounded in a world view that gives primacy to knowledge and knowing which Holzman believes is inconsistent with ongoing developmental activity The author focuses on developmental learning a social constructionist activity theoretic conception of development which includes a transformation

and synthesis of Vygotsky and philosopher Ludwig Wittgenstein She also discusses educational projects that are self conscious attempts to break with key elements of modern epistemology and the dominant psychological paradigm as they are perpetrated in contemporary educational theory and practice Their specific philosophies and practices highlight important methodological issues raised in the attempt to create postmodern schools schools more concerned with growing than knowing
