New Our Bodies, Ourselves Angela Phillips, Jill Rakusen, Boston's Women's Health Book Collective Staff, 1989-11

Fighting for Our Lives Kit Mouat, 1984 A Mother's Fight Minister Kathy Pierce Thompson, 2013-02-18 A Mothers Fight tells the story of the tests trials and tribulations of a mothers fight against cancer Two weeks after the death of her husband my mother never had the chance to mourn his death because she was diagnosed with Breast Cancer The diagnosis of Breast Cancer began her five year battle with a disease that changed her life and all of our familys life as well My mother had the type of breast cancer that did not have a root to it therefore allowing it to come back at any time and travelling to different areas of the body During the years of 2007 through 2012 my mother had cancer in the breast lung and brain Living in a small town with not much of a health care system we were brought out of our comfort zone In order for my mother to be cured and get the health care she needed we had to travel a great distance my entire family had to help and we had to depend on God and the people He brought into our lives My family and especially my mother went through a storm in dealing with the little word called cancer however it taught us to trust God pray lean and depend not in our understanding but in the understanding and wisdom of God The night before my mother had brain surgery she heard the words to a song in her ear singing He wont fail thee God did not fail my mother in her fight against cancer and that lets me know He will never fail any of His children *Journal of the National Cancer Institute* ,1992-07 Each issue is packed with extensive news about important cancer related science policy politics and people Plus there are editorials and reviews by experts in the field book reviews and commentary on timely topics You Can Fight For Your Life Lawrence LeShan, 1980-02-15 The reason why clinical science has not solved the riddle of cancer may not lie totally within the realm of the laboratory It may lie in part in the mind and emotions of the patient After two decades of research and psychotherapeutic work with cancer patients Lawrence LeShan offers new evidence and startling insights into why some individuals get cancer while others do not and why some are able to fight successfully for their lives while others rapidly succumb to the disease Dr LeShan has accumulated strong evidence that the mind can make the body receptive to cancer and that the mind is also capable of fighting back This is a book of hope For while cancer kills it can also be killed You Can Fight For Your Life is a major humanistic work by an author with a passionate commitment to life *Life After Death Threatened* Maurice J. Why Can't Believers Just Believe? Alphonse Okossi Phd,2011-07-01 The concept of faith means a lot of things to a lot of people Even among the Christian community the awareness of the importance of living by faith is very weak as people tend to trust more what they see rather than what they cannot see Faith for every Christian is worth fighting to death The good fight of faith is a personal journey that shows the nature of what is in our heart It is a personal journey and internal struggle between the forces of good and evil between the old self and the new self inside the Christian believer It is also a battle that must be fought in the environment where we live and in every circumstance of life It is a spiritual battle that God has already won through the life death at the Cross and resurrection from the death of Jesus Christ however the individual believer must receive that victory into his or her own life by faith and stand firm on their faith in the face of adversity and even persecution
